This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. OF THE

OF

# THE UNITED STATES

DURING THE

## FISCAL YEAR ENDED JUNE 30, 1913.

---

TREASURY DEPARTMENT,
DIVISION OF BOOKKEEPING AND WARRANTS.

SIR: I have the honor to submit herewith detailed statements of the receipts and disbursements of the Government during the fiscal year ended June 30, 1913, as follows:

The receipts into the general fund derived by the Government from customs, internal revenue including corporation tax, sales of public lands, in each district and State, and from miscellaneous sources, amounted to $724,111,229.84. The receipts on account of the public debt were, from postal savings bonds $1,929,840, and from deposits for retirement of national-bank notes $21,471,010, making a total of receipts, exclusive of postal revenue receipts, of $747,512,079.84.

The disbursements for ordinary and extraordinary purposes, other than those for the Panama Canal and public debt, amounted to $682,770,705.51. The disbursements for the Panama Canal were $41,741,258.03, and for the public debt—retirement of national-bank notes and miscellaneous redemptions—$24,191,610.50, making the total disbursements, exclusive of postal service payable from the postal revenues, $748,703,574.04.

The ordinary receipts of $724,111,229.84 were in excess of the ordinary disbursements of $682,770,705.51 in the sum of $41,340,524.33. Taking into account the receipts and disbursements for the public debt and payments made for the Panama Canal, the total disbursements exceeded the total receipts $1,191,494.20.

In the gold-reserve fund there were redemptions of $67,850,957 United States notes and $67,830 Treasury notes of 1890 for gold. As the notes were at once exchanged for gold in the general fund, the reserve was maintained at the fixed sum of $150,000,000.

In the trust funds, reserved against gold and silver certificates and Treasury notes of 1890, there were $872,682,000 of certificates issued and $824,060,200 of certificates and Treasury notes of 1890 redeemed, resulting in an increase of $48,621,800 in these funds during the year.

The postal revenue receipts amounted to $266,619,525.65, and the expenditures therefrom for the postal service were $262,108,874.74, an excess of receipts of $4,510,650.91.

Respectfully,

CHAS. H. MILLER,
*Chief of Division of Bookkeeping and Warrants,*

Hon. W. G. MCADOO,
*Secretary of the Treasury.*

REASONS FOR INCREASES IN ESTIMATES OF APPROPRIATIONS.

NOTE No. 1.—(a) *Salaries of commissioners.*—The increases asked for are just and appropriate. As stated in former estimates asking for similar increases, the work of the commission has multiplied many times, both in volume and complexity, since the passage of the civil-service law. In 1883 the number of positions subject to competitive examination under the civil-service law was less than 15,000 and now it is 297,067. The work has increased not only in the number and requirements of positions subject to examination but in the diversity of duties in the administration of the law. This has been particularly true in later years. A higher salary seems to be required in order to make the compensation adequate to the duties and responsibilities of the commissioners and to correspond with the salaries paid to heads of other independent establishments directly responsible to the President and establishments of semijudicial functions. Originally the salaries of Interstate Commerce Commissioners were $7,000; they were later raised to $10,000. The salaries of the Board of General Appraisers were formerly $7,500 and were later raised to $9,000.

(b) *Salary of chief examiner.*—The salary of the chief examiner, $3,000 per annum, was specified in the act of 1883 and has remained unchanged to the present time, although the amount and variety of the examining work have increased with the growth and development of the work of the commission. In consequence of this growth the number of different kinds of examinations held annually has increased from less than a dozen in 1883 to over 400, and the number of persons examined from 3,542 in 1883 to more than 100,000. A reasonable increase in the compensation is necessary in order to make it at all commensurate with the greatly enlarged duties of the position.

(c) *Salary of secretary.*—Proportionate with the increase in the extent and variety of the commission's work, additional requirements and duties have been added to the position of secretary. This is the administrative position in the organization of the commission, and as such the salary attached to it should be commensurate with that of corresponding positions throughout the service.

(d) *Salary of assistant chief examiner acting as chief of the examining division.*—In the organization of the office the assistant chief examiner should assume the duties of the chief examiner in his absence and assist him at all times. The examining division, of which the assistant chief examiner is to be in charge as chief, is a large and important division, and the combined duties of this position as proposed warrant the increase in compensation recommended.

(e) *Salary of assistant secretary acting as chief of the appointment division.*—The position of assistant secretary and that of chief of the appointment division have been combined. The duties and responsibilities of this joint position are represented by its designation, and a larger salary should be provided commensurate with that submitted for the position of secretary.

(f) *Salary of chief of the application division.*—In addition to his duties as chief of the application division, this employee is charged directly by the commission with the custody and issue of supplies; the supervision of expenditures of the appropriations for travel, contingent fund, stationery, printing and binding, and library; the auditing of accounts in the expenditure of these appropriations, and the making of requisitions. On account of the important duties and increasing responsibility devolving upon him, an increase of $250 in his salary is recommended.

(g) *Examiner acting as certification clerk, in lieu of one examiner.*—An increase of $250 is recommended to make the salary commensurate with the increasing duties of this position, which have been faithfully performed for many years by the present occupant. The proposed designation will better describe the position.

In the commission's organization many duties are combined under the several executive and supervisory officers which in larger offices are delegated to numerous chiefs and assistant chiefs. Supervision is confined to a very small number of people, particularly in view of the complexity and volume of the commission's work. The responsibility imposed on these few officers is greater, therefore, than is required of some supervisory officers in the departments, and corresponds more nearly, in the case of the chief examiner and secretary, to that required of heads of bureaus, and even of assistant secretaries in the departments, whose average salary is $5,000 to $6,000; and in the case of the assistant chief examiner acting as chief of the examining division, assistant secretary acting as chief of the appointment division, the chief of the application division, and examiner acting as chief of the certification section, corresponds to that required of chief clerks also acting as chiefs of division and assistants to the heads of bureaus, the salaries of which positions run from $2,250 to $4,000.

(h) *Clerical and subclerical force.*—An increase of 28 in the clerical force is estimated for: 1 clerk of class 4; 3 of class 3; 8 of class 2; 8 of class 1; 4 at $1,000 each, and 4 at $900 each. This increase is necessary primarily to bring

|---|---|---|
| the work up to date and to meet the increasing amount of work; also to make needed improvements in records and methods, and to relieve supervisory employees from routine work that they may give more time to constructive policies. Much of the increasing amount of work is due to the classification of fourth-class postmasters, increase of force in the Postal Service due to the parcel post and postal-savings systems, and the large number of appointments which will be required in connection with the physical valuation of railroads. In addition, the general expansion of the classified service and the growing complexity of the requirements of the different positions therein, together with the commission's constant efforts to secure the best material for the service and to keep its registers well supplied by the prompt rating of papers, preparation of registers and other records, make necessary the force indicated to relieve congestion and promote expedition all along the line.<br>It is true that Congress granted the commission a net increase of 13 in its clerical force for the present fiscal year, and that this estimate was made largely in anticipation of the increase of work due to the classification of fourth-class postmasters. The actual application of the law and rules to the large number of fourth-class post offices to which classification was extended has clearly demonstrated, however, that the commission's estimate of last year fell very far short of actual needs for this purpose; for example, for one of the many items of work it was thought that one additional clerk might do and it was so estimated, whereas it has been found that four additional clerks have been required properly to look after this one feature of the work in connection with fourth-class post offices.<br>*Subclerical.*—One skilled laborer is needed for work on the flexotype, which has been the means of saving considerable money that would otherwise be necessary for printing, in supplying a multitude of forms, circulars, etc.<br>The present force of messenger boys is fully occupied in serving the executive offices, distributing mail, etc., leaving the chiefs of division without messenger service. Much of their time and that of clerks would be saved for other work by having a messenger boy assigned to each division.<br>(*i*) *Custodian force.*—An increase of $160 is recommended in the salary of the employee occupying the position of general mechanic. Work of a similar character to that performed by him in numerous instances in the service is paid as much as $1,200 per annum, and it is believed that a salary of at least $1,000 should be granted.<br>*One fireman-watchman, at $840.*—The engine-room force consists of 1 engineer and 2 firemen, which permits the employment of 1 man to each 8-hour shift, but it has been found impossible for 1 man to adequately care for the heating and electrical plants during the day shift when all of the equipment is in operation. The heating and electrical plants consist of 2 steam-heating boilers, 2 electric elevators with motors and other equipment, 1 electric refrigerating plant, 1 appliance for heating water, 2 electric pumps, electric fans, lights, and wiring, plumbing, etc., all of which must receive attention, and it is the work of 2 men to care for this equipment during the day shift. It is proposed to appoint a fireman-watchman to provide for a second man for the day shift in the engine room, which is absolutely necessary for efficient service. While furnishing an additional man for the engine room, the new position will also obviate the necessity of employing an additional watchman, as it is proposed that he shall perform both the duties of a fireman and a watchman.<br>*Two firemen—increase of $120 each.*—In view of the long and faithful service of the two firemen now employed (who, in addition to the duties of firemen, perform work as electricians, plumbers, and watchmen) it is desired to increase the salary of each by $120 per annum, making the salary $840.<br>*Laborers.*—An additional unskilled laborer is needed for cleaning work, trucking supplies and mail, and caring for the lawn and parking.<br>*Four additional charwomen* are needed. The present force of two is inadequate to properly care for the cleaning of the building. Attention is invited to remarks made in the Surgeon General's inspection report concerning the commission's building, as follows:<br>"There are only 2 charwomen for the building, which has a total area of 40,000 square feet of net floor space, an average of 20,000 square feet to each charwoman; this seems inadequate when it is stated that many departments have 1 charwoman to every 2,500 or 3,000 square feet, and with that complain of inadequate force. If the cleaning in this building is not improved upon, as it grows older it will fall into a very bad condition. If possible, increase the force of cleaners so that all the floors can be cleaned once each day."<br>(*j*) *Field force.*—Although additional assistance is needed in the commission's field offices, the commission has refrained from asking for it for the coming year, because it has arranged to obtain the assistance most urgently needed by details of employees in the field offices of various departments as permitted by law.<br>(*k*) *Expert examiners.*—The increasing number of high-grade technical examinations, for which the commission manifestly can not carry experts on its regular force, makes it necessary that the amount appropriated for this purpose be increased to $3,000.<br>(*l*) *System of efficiency ratings.*—An increase of $35,000 is asked to enable the commission to carry on its work in several departments at the same time.<br>In the course of the commission's investigations for the establishment of efficiency records it has been possible to suggest many improvements in administrative methods. The suggested improvements already adopted and put into effect will result in annual savings amounting to several times the entire cost of the work performed on this system of efficiency ratings. | | |
| *Traveling Expenses, Civil Service Commission*—<br>Necessary traveling expenses, including those of examiners acting under the direction of the commission, and for expenses of examinations and investigations held elsewhere than at Washington, and attendance at meetings of public officials ($5,000 additional submitted) (*act Mar. 4, 1913, vol. 37, p. 750, sec. 1*)..... | $17,000.00 | $12,000.00 |
| NOTE.—Drafts upon this appropriation continue to increase with the expansion of the classified service. Much travel which would have been distinctly to the benefit of the service was omitted during the last fiscal year and the same action will be necessary this year, as the increase requested by the commission was not granted. Cases continue to multiply whose adjustment can be brought about most satisfactorily and in the end most economically by personal inquiry and investigaion on the ground. One of the most important duties of the commissioners and its supervisory employees is to travel throughout the United States and study at first hand the needs of the civil service as exemplified in all phases of its work. It is necessary to make this study in order to devise suitable regulations to meet constantly changing conditions, but because of the routine demands upon this appropriation it has not been possible recently to do this work. | | |
| *Contingent Expenses, Civil Service Commission*—<br>Fuel and lights, furniture, carpets, advertising, expressage, repairs to cases and furniture, and other absolutely necessary expenses ($6,000 additional submitted) (*act Mar. 4, 1913, vol. 37, p. 776, sec. 1*)..... | $17,000.00 | |
| NOTE.—The commission is badly in need of additional equipment, in the way of typewriters, filing devices, desks, chairs, and other office furniture Owing to shortage in funds it has been necessary to secure most of the furniture used in the office from the sale of condemned furniture of other departments. Over half of the regular contingent fund is required for fixed charges, such as telephones, electric power, coal, etc., leaving only about $3,500 (of the $7,500 appropriated aside from the amount for the division of efficiency) for miscellaneous supplies, contingencies and equipment. The commission also furnishes supplies to its field offices from this fund and it has been found inadequate to meet the demands. Of the above increase of $6,000 the sum of $1,000 is needed to meet the added demands upon the the usual requirements covered by this appropriation; and the other $5,000 is to cover the installation of fireproof filing devices.<br>The sum of $3,500 is for the division of efficiency being the same amount appropriated for the fiscal year 1914. | | |

| *Stationery, Civil Service Commission—* | | | |
| Stationery for the Civil Service Commission (including $500 for the division of efficiency) ($1,000 additional submitted) (*act Mar. 4, 1913, vol. 37, p. 776, sec. 1*) | $6,500.00 | | |
| NOTE.—The commission needs an increase of $1,000 in its stationery appropriation to meet the demands on this fund due to increase in the service. The present appropriation of $5,000 (exclusive of the amount for the division of efficiency) is the same as the commission has had each year since 1906. The expansion of the classified service has caused a great increase in the number of applicants and consequent growth of correspondence, thereby resulting in an increase in the expenditure for stationery. Over half of the fund is expended annually for envelopes used in the shipment and return of examination material, the distribution of applications and pamphlets of information to applicants and the general public, the carrying on of miscellaneous work assigned to field offices, and for the general correspondence of the commission; while the remainder of the fund is expended chiefly for letter paper, carbon sheets, and typewriter supplies, leaving only a small part of the appropriation for desk supplies. The fund has by judicious management been sufficient to meet the demands until the last fiscal year before the close of which the appropriation was exhausted and it was necessary to carry over to the present fiscal year purchases to the amount of $600 which should have been charged to the last fiscal year. This will cause a corresponding shortage in the appropriation for the present fiscal year. | | | |

| Printing and binding for the Civil Service Commission, to be executed under the direction of the Public Printer ($10,000 additional submitted) (*act June 23, 1913, vol. 38, p. 69, sec. 1*) | 55,000.00 | | |
| NOTE.—The printing fund will require an increase of $10,000 during the fiscal year 1915. This amount will be necessary to meet the new conditions incident to the increase in the number of competitive positions from 236,061 to 297,067, principally due to the classification of the navy-yard service and of additional fourth-class postmasters. The passage of the eight-in-ten hour law for the Post Office service caused an increase in force at many offices, thereby necessitating the holding of many additional examinations, and the consequent printing of more application forms, instructions to applicants, and examination questions. The establishment of the parcel-post system resulted in a large number of inquiries in regard to that system, necessitating the preparation of matter giving proper instructions, and also resulted in an increased force at several post offices and in the Railway Mail Service, thereby increasing the amount of printing, as stated above under the eight-in-ten hour law. The commission completely exhausted its appropriation of $40,000 during the fiscal year 1913, and considerable of its printing which should have been delivered prior to June 30, 1913, was held up for lack of funds, and completed in and charged to the current year, thereby causing a running deficit from year to year which must be met eventually by an increase in the appropriation. Notwithstanding the amount charged to the current year from the fiscal year 1913, the commission was compelled to call on both the Post Office and Navy Departments for printing to the value of $1,200, and turned out itself on the flexotype duplicator a considerable amount of printing which otherwise would have been charged to the printing fund. The constant growth of the work of the commission, both at its home office and the various field offices, together with the new work being inaugurated under the division of efficiency, warrants the commission in asking that its full estimate of $55,000 be granted by Congress. | | | |

## TREASURY DEPARTMENT.

### OFFICE OF THE SECRETARY.

| | | | |
|---|---|---|---|
| *Salaries, Office of the Secretary of the Treasury*— | | | |
| Secretary of the Treasury (*R. S., p. 38, sec. 233; acts Mar. 3, 1875, vol. 18, p. 396, sec. 2; Feb. 26, 1907, vol. 34, p. 993, sec. 4; Mar. 4, 1913, vol. 37, p. 751, sec. 1*) | $12,000.00 | | |
| Three Assistant Secretaries, at $5,000 each (*R. S., p. 38, sec. 234; acts June 23, 1874, vol. 18, p. 205, sec. 1; Mar. 3, 1875, vol. 18, p. 396, sec. 2; July 11, 1890, vol. 26, p. 256, sec. 1; Mar. 4, 1913, vol. 37, p. 751, sec. 1*) | 15,000.00 | | |
| Assistant to the Secretary of the Treasury, to be appointed by the Secretary (*submitted*) | 5,000.00 | | |
| NOTE.—On account of the enlarged activities of the department and the continually increasing work, due to the growth of the country and the business of the department, it is essential that the Secretary should have a special assistant, whose title should be "Assistant to the Secretary," and whose specific duties should be such as the Secretary may from time to time assign to him. In the present organization of the department there are 3 Assistant Secretaries. One has charge of the fiscal bureaus. His duties are so onerous that his time is completely absorbed. Another is in charge of customs, which likewise absorbs his entire time, and the third is in charge of public buildings and miscellaneous bureaus, which likewise absorb his full time, so that the Secretary has not at his command the services of a man of ability upon whom he may devolve many of the important and pressing duties and responsibilities which the Secretary himself has not the time to discharge. It would not be possible to secure a man of the requisite ability for this important work for a less salary per annum than $5,000. | | | |
| Clerk to the Secretary (*acts Mar. 3, 1875, vol. 18, p. 396, sec. 2; Mar. 3, 1887, vol. 24, p. 601, sec. 1; Mar. 4, 1913, vol. 37, p. 751, sec. 1*) | 2,500.00 | | |
| Executive clerk (*acts June 17, 1910, vol. 36, p. 485, sec. 1; Mar. 4, 1913, vol. 37, p. 751, sec. 1*) | 2,400.00 | | |
| Stenographer (*acts July 31, 1894, vol. 28, p. 170, sec. 1; Mar. 4, 1913, vol. 37, p. 751, sec. 1*) | 1,800.00 | | |
| Three private secretaries, one to each Assistant Secretary, at $1,800 each (*acts July 31, 1886, vol. 24, p. 179, sec. 1; Mar. 4, 1913, vol. 37, p. 751, sec. 1*) | 5,400.00 | | |

| NOTE.—The total amount appropriated for inspectors in the appropriation for "Salaries" for the fiscal year 1914 is transferred to the estimate for the appropriation for "General expenses of public buildings" for the fiscal year 1915. With the exception of the inspectors the latter appropriation has heretofore included all technical employees not charged with supervisory duties. The transfer of the inspectors to "General expenses" is, therefore, believed to be consistent and in the interest of good administration. | | | | |
| The positions submitted in the above estimate for "Salaries" represent a gross increase of $18,840. | | | | |
| Of the above total of $18,840, the sum of $8,440 is for new positions found necessary because of the increased work resulting from the largely increased number of completed buildings to be operated and maintained. | | | | |
| The difference of $10,400 is transferred from "General expenses of public buildings," sundry civil bill, the estimate for which has been correspondingly reduced. It has been found imperative to adjust the clerical and technical functions of the office. The former is inadequate as related to the latter. This adjustment has been accomplished by transferring a portion of the amount estimated for "General expenses" to the estimate for "Salaries," so that it will be available for additional clerks. In this manner there has been avoided any increase in the total estimate for the portion of the office devoted to new construction work. | | | | |
| The distribution of the two items of $8,440 and $10,400 is as follows: | | | | |
| 1 clerk of class 3, $1,600 | $1,600.00 | | | |
| 5 clerks of class 1, $1,200 each | 6,000.00 | | | |
| 1 messenger, at $840 | 840.00 | | | |
| | | $8,440.00 | | |
| 2 administrative clerks, $2,000 each | 4,000.00 | | | |
| 1 clerk of class 4, $1,800 | 1,800.00 | | | |
| 3 clerks of class 1, $1,200 each | 3,600.00 | | | |
| 1 clerk of class E, $1,000 | 1,000.00 | | | |
| | | 10,400.00 | | |
| Total | | 18,840.00 | | |
| Recapitulation: | | | | |

| NOTE.—It is desired to transfer to the statutory roll the additional $1,000 provided for the auditor for audit of the accounts of the Panama Canal, now carried in the sundry civil act (act June 23, 1913, 38 Stat., p. 71). (See note below.) | | | |

| | | 291,010.00 | 307,470.00 |
| NOTE.—The $1,000 additional for the auditor, referred to in the foregoing note, will not increase the aggregate of the appropriations, as for several years past the sum of $5,000 has been appropriated for the auditor, $1,000 of which, however, has been carried in the sundry civil act. It is proposed now to transfer this amount of $1,000 to the legislative, executive, and judicial bill, with a corresponding decrease in the sundry civil act. The questions coming before the Auditor for the War Department are the most intricate that arise in any of the accounts under the Government, including questions arising in payments under the contracts for the Engineer Department, including the rivers and harbors, the Quartermaster's Department for supplies of the Army, the Ordnance Department, the contracts for the Isthmian Canal Commission, and in addition thereto, the handling of the business of the Claims and Records Division and the Transportation Rate Board. | | | |

| OFFICE OF COMMISSIONER OF INTERNAL REVENUE. | | | |
| *Salaries, Office of Commissioner of Internal Revenue*— | | | |
| Commissioner of Internal Revenue (*R. S., p. 53, sec. 319; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 6,000.00 | | |
| One deputy commissioner (*R. S., p. 38, sec. 235; p. 54, sec. 322; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; July 7, 1898, vol. 30, p. 654, sec. 1; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 4,000.00 | | |
| One deputy commissioner (*same acts*) | 3,600.00 | | |
| One chief chemist (*acts June 7, 1906, vol. 34, p. 217, secs. 1–4; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 3,000.00 | | |
| One chemist (*acts Aug. 2, 1886, vol. 24, p. 312, sec. 14; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 2,500.00 | | |
| Two first assistant chemists, at $1,800 each (*acts June 7, 1906, vol. 34, p. 217, secs. 1–4; May 22, 1908, vol. 35, p. 204, sec. 1; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 3,600.00 | | |
| Second assistant chemist (*acts May 22, 1908, vol. 35, p. 204, sec. 1; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 1,600.00 | | |
| Third assistant chemist (*same acts*) | 1,400.00 | | |
| Nine heads of division, at $2,500 each (increase of 5, in lieu of 5 at $2,250 each, submitted; see Note *a*) (*R. S., p. 38, sec. 235; p. 54, sec. 322; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 22,500.00 | | |
| NOTE *a*.—The increase of $1,250 is to provide for 5 heads of division, at $2,500 each in lieu of 5, at $2,250 each. Heavy responsibilities attach to these positions, and the small increase estimated for would, in a measure, be a recognition of capable effort. | | | |
| Superintendent of stamp vault (*acts Aug. 5, 1882, vol. 22, p. 230, sec. 1; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 2,000.00 | | |
| Private secretary (*R. S., p. 27, secs. 167–169; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 1,800.00 | | |
| Clerks—Five, at $2,000 each (an increase of 2 submitted; see Note *b*) (*R. S., p. 27, secs. 167–169; acts Mar. 4, 1911, vol. 36, p. 1195, sec. 1; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 10,000.00 | | |
| NOTE *b*.—The increase of $4,000 is to provide for 2 additional clerks, at $2,000 each. It is proposed to promote 2 especially competent clerks of class 4 to $2,000—those having acquired a wide technical knowledge of internal-revenue matters. The increase asked is small while the benefits accruing to the service should be considerable, as the incentive to attain the highest grade would be a stimulus to honest, earnest effort.<br>The growth of the service requires additional work of an administrative nature, and the importance of the work as a whole is such that it is deemed good policy to insure the retention of capable assistance to provide for additional clerks of this grade. | | | |
| Thirty-three, of class 4 (an increase of 2 submitted; see Note *c*) (*R. S., p. 27, secs. 167–169; acts Mar. 3, 1875, vol. 18, p. 398, sec. 2; June 7, 1906, vol. 34, p. 217, secs. 1–4; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 59,400.00 | | |
| NOTE *c*.—The increase of $3,600 is due in a degree to the same reason as Note *b*. | | | |
| Twenty-nine, of class 3 (an increase of 2 submitted; see Note *d*) (*same acts*) | 46,400.00 | | |
| NOTE *d*.—The increase of $3,200 is due in a degree to the same reason as Note *b*. | | | |

| Forty, of class 1 (*same acts*) | 48,000.00 | | |
| Thirty-two, at $1,000 each (*acts June 19, 1878, vol. 20, p. 187, sec. 1; Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 32,000.00 | | |
| Forty-two, at $900 each (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 756, sec. 1*) | 37,800.00 | | |
| Four messengers, at $840 each (*same acts*) | 3,360.00 | | |
| Twenty assistant messengers, at $720 each (decrease of 1 by transfer to section of surety bonds, Secretary's office) (*same acts*) | 14,400.00 | | |
| Sixteen laborers, at $660 each (*same acts*) | 10,560.00 | | |
| | | 371,320.00 | 359,990.00 |

| For laying new granolithic sidewalk on the east and north sides of the Treasury Building, Washington, D. C., and resetting curbing (*submitted*) | | 8,350.00 | |
| NOTE.—The present sidewalks on the east and north sides of the building are of ordinary stone flagging, very badly out of repair, and the appearance of the walks is extremely unsightly. There is a possibility, as time elapses, of the walks becoming dangerous, due to the uneven projection of the edges of flagstones. The need of a new sidewalk is very urgent and is intensified by reason of the fact that a new sidewalk has recently been laid on the west and south sides, under the direction of the Superintendent of Public Buildings and Grounds. | | | |
| *Contingent and Miscellaneous Expenses, Office of Auditor for Post Office Department*— | | | |
| For miscellaneous items, including purchase, repair, and exchange of typewriting machines, of which not exceeding $375 may be used for rental of telephones and not exceeding $300 may be used for the purchase of law books, books of reference, and city directories (*act Mar. 4, 1913, vol. 37, p. 754, sec. 1*) | $3,500.00 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Contingent and Miscellaneous Expenses, Office of Auditor for Post Office Department*—Continued. | | | |
| In all, $6,000, to be expended under the direction of the Auditor for the Post Office Department under rules and regulations to be prescribed by the Secretary of the Treasury and to operate as a specific exception of the said office from the appropriation for contingent expenses, Treasury Department, unless otherwise provided by law. | | | |
| *Tabulation Equipment, Office of the Auditor for the Post Office Department*— | | | |
| For the purchase of tabulating equipment for use in auditing accounts and vouchers of the postal service, including exchange, repairs, miscellaneous expenses of installation, cards, and filing devices, $86,350, to be expended under the direction of the Auditor for the Post Office Department under rules and regulations to be prescribed by the Secretary of the Treasury: *Provided*, That not exceeding $22,150 may be expended for the rental of tabulating and card-sorting machines (increase of $4,650 submitted) (*acts Aug. 23, 1912, vol. 37, p. 381, sec. 1; Mar. 4, 1913, vol. 37, p. 754, sec. 1*) | | $86,350.00 | $81,700.00 |
| NOTE.—The additional $4,650 is necessary to provide cards and machines for taking care of the increase in the number of paid money orders and is offset by a decrease of the same amount in the estimate for salaries, resulting from economies effected in the audit of postmasters' postal accounts. | | | |
| NOTE.—The estimate for "Printing and binding," Treasury Department, under section 2, act of May 8, 1872 (Rev. Stats., 720, sec. 3661), will be found under the title of "Miscellaneous," *post*. | | | |
| NOTE.—For a statement of the condition of business and of the number and compensation of employees appropriated for in one bureau or office of the Treasury Department who have been detailed to another bureau or office for a period exceeding one year, as required by section 7 of act of Mar. 2, 1895 (28 Stat., p. 808), and of employees below a fair standard of efficiency, as required by section 2 of act of July 11, 1890 (26 Stat., p. 268), see Appendix C. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Salaries and Expenses of Agents and Subordinate Officers of Internal Revenue—*<br>For salaries and expenses of 40 revenue agents provided for by law, and fees and expenses of gaugers, salaries and expenses of storekeepers and storekeeper-gaugers (*R. S., p. 604, sec. 3153; p. 605, sec. 3157; acts July 7, 1884, vol. 23, p. 172, sec. 1; Mar. 3, 1885, vol. 23, p. 404, sec. 1; Apr. 17, 1900, vol. 31, p. 107, sec. 1; Apr. 28, 1902, vol. 32, p. 142, sec. 2; June 7, 1906, vol. 34, p. 217, secs. 1–4; May 13, 1910, vol. 36, p. 369, sec. 1; June 23, 1910, vol. 36, p. 592, sec. 1; Feb. 24, 1911, vol. 36, p. 928, sec. 1; Mar. 4, 1913, vol. 37, p. 759, sec. 1*) ..... | $2,625,000.00 | $2,620,000.00 |

NOTE.—The increase of $5,000 is to provide for an anticipated increase in business in distillery products. Such increase may be expected as in recent years there has been a steady and pronounced expansion in these products. The original appropriation for 1913 was $2,565,000. The estimate was $2,620,000. A deficiency appropriation of $50,000 was provided, making a total appropriation of $2,615,000. It now develops that there is a deficiency of about $5,000 caused by unusual activities at distilleries during the month of June, 1913. A number of storekeepers, storekeeper gaugers, and gaugers will not receive their compensation and reimbursement for expenses in June, 1913, until Congress shall have made the necessary deficiency appropriation, which it is expected will be in January next.

*Collecting the Income Tax—*
For expenses of assessing and collecting the income tax as provided in paragraph N, sec. II, of an act entitled, "An act to reduce tariff duties, and to provide revenue for the Government, and for other purposes," approved Oct. 3, 1913 (*act Oct. 3, 1913, vol. 38, p. 180, sec. II, par. N*) ..... 1,500,000.00 800,000.00

NOTE.—The appropriation for fiscal year 1914 was made on a basis of two-thirds of a year, at an annual rate of $1,200,000.
The increase of $300,000 is to provide for that class of expenses paid from the appropriations "Expenses of collecting the corporation tax," and "Classifying, etc., returns of corporations," which appropriations in the amount of $202,000 will lapse at the expiration of the fiscal year 1914, provision in lieu thereof being made in the appropriation "Collecting the income tax." The additional amount of $98,000, it is estimated, will be needed as the organization will have been perfected when the appropriation is available, and the work of canvassing to determine liability for taxes due in previous year in addition to that of the current year will be increased.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Contingent Expenses, Territory of Alaska*— | | | |
| For incidental and contingent expenses, clerk hire not to exceed $2,250; janitor service not to exceed $900; traveling expenses of the governor and secretary or stenographer when absent from Juneau on official business; repair, preservation, and care of executive mansion, stationery, fuel, lights, water, printing, etc., to be expended under the direction of the governor; in all, $9,200 (*act Mar. 4, 1913, vol. 37, p. 763, sec. 1*) | | $9,200.00 | $7,150.00 |
| NOTE.—The work of the governor's office has more than doubled in the last four years, and is steadily increasing. Although Alaska is the largest of the outlying possessions, the expenses of the chief administrative office have heretofore been relatively and absolutely very small. The increase of $2,050 is to cover increased needs of the office for stationery, printing, and filing cases, travel expenses of the secretary or stenographer, one of whom should accompany the governor on his official trips in the Territory as well as when called to the States. It also covers the painting of the executive mansion, estimated at $700, this building having been given but one coat of paint at the time of its construction, and the services of a caretaker to act as janitor, fireman, gardener, etc., it being very necessary to secure a man for this work, and a suitable person not being obtainable at less than $1,200 per annum. The entire amount of the increase is urgently needed. | | | |
| *itka National Monument, Alaska*— | | | |
| For the protection and improvement of Sitka National Monument, including the repair of ancient totems and other historic relics, to be expended under the direction of the governor of Alaska (*submitted*) | | 1,500.00 | |
| NOTE.—The historic Indian River Park near Sitka was set aside by proclamation of the President, dated Mar. 23, 1910, as a national monument, but no funds have yet been provided for its protection or improvement. The ancient totem poles, of which there are a large number, and the graveyard are in need of repairs to protect them from the ravages of time, and the park should be partially cleared of underbrush and other débris, and measures taken to protect from depredations. The estimates of the two preceding years included an item of $1,000 for this purpose, but no appropriation was made. The present estimate is deemed very moderate and is most urgently needed. | | | |
| *Legislative Expenses, Territory of Alaska*— | | | |
| For legislative expenses for fiscal year 1915–16, namely: Salaries of 24 members (60-day session, at $15 per day each), $21,600; mileage of members (approximately 61,188 miles, at 15 cents per mile), $9,178.20; salaries of employees (as provided in sec. 1861, U. S. Rev. Stats., 1878), $5,160; printing of laws, $5,000; rent of legislative halls and committee rooms, $2,000; stationery, supplies, printing of bills, reports, etc., $5,000; in all, $47,938.20, to be available by Mar. 1, 1915, and to be expended under the direction of the governor of Alaska (*acts Aug. 24, 1912, vol. 37, p. 512, secs. 1–20; Mar. 4, 1913, vol. 37, p. 763, sec. 1*) | | 47,938.20 | 42,260.00 |
| NOTE.—The first session of the Alaska Territorial Legislature was attended by 23 of the 24 members, 1 member resigning on account of sickness. The total mileage allowed to the 23 members in attendance, based upon the shortest usually traveled routes, was 58,448, amounting to $8,767.20. The appropriation for mileage was $6,500, leaving a deficiency of $2,267.20 in the mileage of the 23 members attending. With the full attendance of 24 members the mileage would have been approximately 61,188 miles, amounting to $9,178.20. It is estimated that the mileage for the 1915 session will not be less than that which would have been allowed to the 24 members of the 1913 session had all attended. The allowance of 15 cents per mile is ample to cover travel during the seasons of steamer navigation, but is only about one-third of the actual expense of travel of members from the second, third, and fourth judicial divisions, who have to travel in January and February over winter trails by dog team and stage. The increase of $1,500 for printing of laws, and of the same amount for stationery, supplies, printing of bills, reports, etc., is urgently needed. The amounts appropriated for these purposes for the 1913 session were entirely inadequate, and the legislature was greatly hampered in its work as a result of the lack of sufficient funds.—*J. F. A. Strong, Governor of Alaska.* | | | |
| HAWAII. | | | |
| *Salaries, Governor, etc., Territory of Hawaii*— | | | |
| Governor (*acts Apr. 30, 1900, vol. 31, p. 159, sec. 92; May 27, 1910, vol. 36, p. 448, sec. 8; Mar. 4, 1913, vol. 37, p. 763, sec. 1*) | $7,000.00 | | |
| Secretary (*same acts*) | 4,000.00 | | |
| Chief justice, $6,000, and 2 associate justices, at $5,500 each (*acts Apr. 30, 1900, vol. 31, p. 157, sec. 82, and p. 159, sec. 92; May 27, 1910, vol. 36, p. 448, sec. 8; June 17, 1910, vol. 36, p. 500, sec. 1; Mar. 4, 1913, vol. 37, p. 763, sec. 1*) | 17,000.00 | | |
| | | 28,000.00 | 28,000.00 |

| *Contingent Expenses, Territory of Hawaii*— | | | |
| For contingent expenses of the Territory of Hawaii, to be expended by the governor for stationery, postage, and incidentals, $1,000; for private secretary to the governor, $2,000; for traveling expenses of the governor while absent from the capital on official business, $500; in all, $3,500 (*acts Apr. 30, 1900, vol. 31, p. 159, sec. 92; May 27, 1910, vol. 36, p. 448, sec. 8; Mar. 4, 1913, vol. 37, p. 763, sec. 1*) | | 3,500.00 | 3,000.00 |
| *Legislative Expenses, Territory of Hawaii*— | | | |
| For legislative expenses, namely: Furniture, light, telephone, stationery, record casings and files, printing and binding, indexing records, postage, ice, water, clerk hire, mileage of members, and incidentals, pay of chaplain, clerk, sergeant-at-arms, stenographers, typewriters, janitors, and messengers, $30,000: *Provided*, That the members of the Legislature of the Territory of Hawaii shall not draw their compensation of $200 or any mileage for an extra session held in compliance with section 54 of an act to provide a government for the Territory of Hawaii, approved Apr. 30, 1900 (*acts June 17, 1910, vol. 36, p. 501, sec. 1; Aug. 23, 1912, vol. 37, p. 385, sec. 1*) | | 30,000.00 | |
| NOTE.—This appropriation is made biennially, not annually, and $30,000 was appropriated for 1913. | | | |

| Three firemen, second class, at $660 each (*same acts*) | 1,980.00 | | |
| Four forewomen, at $300 each (*same acts*) | 1,200.00 | | |
| Seventy-seven charwomen, at $240 each (*same acts*) | 18,480.00 | | |
| | | $108,700.00 | $112,440.00 |
| NOTE.—One stenographer and typewriter, at $900, and one messenger, at $840, omitted. NOTE.—The reorganization of the personnel above provided for is designed to bring about greater efficiency, together with a marked economy. The present organization of the force stands about as it did 20 years ago. Changing conditions and the introduction of new and approved methods of procedure have gradually resulted in a shifting and redistribution of duties and responsibilities without a corresponding change in ratings. The above corrects this and makes salaries commensurate with work performed. | | | |
| *Fuel, Lights, etc., State, War, and Navy Department Buildings—* | | | |
| For fuel, lights, repairs, miscellaneous items, and city directories (*act Mar. 4, 1913, vol. 37, p. 767, sec. 1*) | | 32,000.00 | 32,000.00 |
| *Automobile Mail Service for the State, War, and Navy Departments—* | | | |
| For the purchase of 1 gasoline automobile mail truck of 1½ tons capacity to be used in transporting mail between the city post office and the mail rooms of the State, War, and Navy Departments, to be operated under the Superintendent of the State, War, and Navy Building (*submitted*) | 3,000.00 | | |
| One skilled laborer (*submitted*) | 840.00 | | |
| On laborer (*submitted*) | 660.00 | | |
| For fuel, repairs, supplies, etc., of automobile mail truck (*submitted*) | 1,500.00 | | |
| | | 6,000.00 | |
| NOTE.—A board was appointed in August, 1913, by the Secretaries of the State, War, and Navy Departments to confer with the superintendent of the building, with the view to improving the mail service. The findings of the board show: (*a*) That the three departments at present operate independent services, maintaining for this purpose an aggregate of 4 horses and 4 wagons, representing an original outlay of $1,946.50; (*b*) that 5 employees are used in connection with these equipments; (*c*) that the present cost for annual maintenance, including stable rent, repairs, and salaries of employees, is $4,750.19; (*d*) that when the city post office is moved to the new building soon to be finished near Union Station, the increased distance of haul will necessitate the purchase of additional horses at an initial expenditure of $800, which will increase annual maintenance charges by $1,100, running the total cost per annum to $6,650.19; (*e*) that the mail service could be concentrated by the use of a 1½-ton gasoline automobile truck, operated by 2 employees under the Superintendent of the State, War, and Navy Building, at an annual saving of not less than $2,500; (*f*) that after the purchase of the truck, the service can be conducted at an annual cost of $1,500 for salaries of 2 employees and $1,500 for fuel, supplies, repairs, etc. | | | |
| *Renovation of Toilet Rooms, State, War, and Navy Department Building—* | | | |
| For the renovation of the plumbing system in the State, War, and Navy Building, including the removal of all present unserviceable fixtures, piping, etc., the purchase and installation of modern and sanitary equipment, and the refinishing of the toilet rooms, $85,000; and the Superintendent of the State, War, and Navy Building is hereby authorized to employ day labor on the whole or any part of this work where advantageous to the Government; to remain available until the work is completed (*submitted*) | | 85,000.00 | |
| NOTE.—Except for 2 rooms the toilet system throughout the building is as old as the building itself, and is antiquated and worn out. The piping has rusted to the point of disintegration, so that in some cases concrete conduits through which the pipes run are the only retainers of the flow from the rooms. The resulting unsanitary conditions are a deplorable menace to the health of the thousands of persons occupying the building and the subject of constant complaint of sanitary officers. | | | |

| *Rewiring of Rooms, State, War, and Navy Department Building*— | | | |
| For rewiring rooms in State, War, and Navy Building, including the removal of old gas and other fixtures and the purchase and installation of new metallic conduit, wire, and other material necessary to light all rooms by electricity, and for general repair work to walls and ceilings of rooms incidental to such installation, $32,000, and the superintendent of the State, War, and Navy Building is hereby authorized to employ day labor on this work in like manner as prescribed in the case of reconstruction of toilet rooms; and, further, that the appropriations for reconstructing toilet rooms and rewiring the rooms of the State, War, and Navy Building shall in each case remain available until the work is complete (*submitted*) | | $32,000.00 | |
| NOTE.—The interior lighting of nearly all of the office rooms is in a chaotic state, and hundreds of employees are suffering for lack of sufficient light in which to do their work, resulting in loss of much time and corresponding inefficiency in the dispatch of public business. The building was originally wired for electric lights about 20 years ago. This work was of a temporary character, and 4 years ago the superintendent requested an appropriation of $73,000 to replace it. His explanatory note was as follows:<br>"A general and complete rewiring and illumination of this building is most urgent. This building was wired for electric light in a makeshift sort of way 18 years ago. The system was designed for about 1,800 16-candlepower lamps, and there are now nearly 4,000 being fed by the same mains. A modern office building of the size of this building should have about 10,000 16-candlepower lamps or their equivalent. There is a constant and worthy demand for additional light in the hundreds of offices and drafting rooms of the building, but under present conditions these requests must be flatly refused. The old insulation is dried out and dangerous and this, combined with the overloaded lines and old wooden molding, makes a serious fire hazard.<br>"For the purpose of increasing the efficiency of the offices, for the purpose of guarding against fire, and for the general purpose of the efficiency and proper illumination of this building the work should be done."<br>Forty thousand dollars was appropriated by Congress, which was sufficient only to replace the wiring from dynamos up to the office entrances, which has been done, leaving conditions in the rooms as bad as before. This appropriation is to complete the work which has been started. | | | |
| *Salaries, Navy Department Annex*— | | | |
| For the Navy Department annex (on New York Avenue near Seventeenth Street NW., and to be occupied in lieu of Mills Building): | | | |
| One chief engineer (increase of $200 submitted) (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 767, sec. 1*) | $1,400.00 | | |
| Two assistant engineers, at $1,000 each (*submitted*) | 2,000.00 | | |
| Six firemen, at $720 each (2 submitted) (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 767, sec. 1*) | 4,320.00 | | |
| Three elevator conductors, at $720 each (1 submitted) (*same acts*) | 2,160.00 | | |
| Six watchmen, at $720 each (1 submitted) (*same acts*) | 4,320.00 | | |
| NOTE.—Four laborers, at $660 each, not estimated for. | | | |
| One forewoman (*same acts*) | 300.00 | | |
| Nine charwomen, at $240 each (*same acts*) | 2,160.00 | | |
| | | 16,660.00 | $14,220.00 |
| NOTE.—The Mills Building is to be abandoned Mar. 1, 1914, by the Navy Department as an annex in favor of a much larger building to be constructed on New York Avenue near Seventeenth Street. The difference in size of the two buildings, together with the fact that the new annex, owing to its distance from the main building, is to have an independent heat, light, and power plant, make these increases indispensable. | | | |
| *Fuel, Lights, Repairs, etc., Navy Department Annex*— | | | |
| For fuel, lights, repairs, and miscellaneous items, Navy Department Annex (on New York Avenue near Seventeenth Street NW., and to be occupied in lieu of Mills Building) ($2,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 767, sec. 1*) | | 4,000.00 | 2,000.00 |
| NOTE.—The Mills Building has been heated, lighted, and powered from the plant in the State, War, and Navy Building, but owing to the great distance involved this can not be done with the new annex. The appropriation is to provide this building with fuel for the operation of its own independent plant, and for cleaning, repairs, and general upkeep. | | | |
| *Salaries, State Department Annex*— | | | |
| For State Department Annex: One laborer (*act Mar. 4, 1913, vol. 37, p. 767, sec. 1*) | | 660.00 | 660.00 |
| Total, State, War, and Navy Department Buildings | | 285,020.00 | 161,320.00 |

| | | 730,570.00 | 732,230.00 |

NOTE.—The annual salaries of the chief clerks of the several War Department bureaus range from $2,000 to $2,750, the chief clerk of The Adjutant General's Office, the largest bureau of the department, receiving but $2,000. In the foregoing estimate provision is made for an increase of $400 in the salary of the chief clerk of the office. In this connection attention is invited to the following extract from the report of the President's Commission on Economy and Efficiency, referring to The Adjutant General's Office:

"The salary of the chief clerk of this office is $2,000. The chief clerks of some other Government offices with smaller forces and less difficult work are receiving more than $2,000. The Adjutant General's Office is by far the largest of the offices of the War Department, having about 610 employees. It is believed that the chief clerk of this office, having great responsibility, should receive at least $2,500."

Provision is also made for three principal clerks, at $2,250 per annum, and for three additional chiefs of division, at $2,000 per annum. It is proposed to reorganize the office force along the lines of correlated work, and to do this successfully these positions are necessary to provide proper supervision and to equalize the salaries of employees, some of whom, although in charge of important divisions, are now receiving but $1,800 per annum.

This estimate is increased, therefore, by these amounts, $13,150 in all; but it is reduced by seven clerks of class 1, four clerks of class $1,000, and three assistant messengers, at $720 per annum, all of whose services can be dispensed with under the proposed reorganization. It is also reduced by one superintendent of building, at $250 per annum, a position now filled by the engineer at the Tenth Street Branch in addition to his other duties. It is proposed to make the superintendence of the building a part of the duties of the chief of the division which occupies it, provision being made above for an increase in his compensation from $1,800 to $2,000 per annum. These reductions amount to $14,810, thus making a net reduction in the entire appropriation of $1,660 which, added to the reduction of $49,720 made in the clerical force for the current year, shows a total annual saving of $51,380.

The proposed reductions can be made without discharging any employee by allowing vacancies in the force to remain unfilled.—*Geo. Andrews, The Adjutant General.*

The services of skilled draftsmen and such other services as the Secretary of War may deem necessary may be employed only in the Signal Office to carry into effect the various appropriations for fortifications and other works of defense and for the Signal Service of the Army, to be paid from such appropriations, in addition to the foregoing employees appropriated for in the Signal Office: *Provided*, That the entire expenditures for this purpose for the fiscal year ending June 30, 1915, shall not exceed $25,000 and that the Secretary of War shall each year in the annual estimates report to Congress the number of persons so employed, their duties, and the amount paid to each.

The services of 1 radio engineer and 1 radio assistant, as the Secretary of War may deem necessary, may be employed only in the Signal Office to carry into effect the appropriation for the Signal Service of the Army, and to be paid from such appropriation, in addition to the foregoing employees appropriated for in the Signal Office: *Provided*, That the entire expenditures for this purpose for the fiscal year ending June 30, 1915, shall not exceed $3,600, and that the Secretary of War shall each year in the annual estimates report to Congress the number of persons so employed, their duties, and the amount paid to each.

NOTE.—One position at $1,000 per annum has been dispensed with, and this amount distributed among positions of higher salary in order that the salaries of these positions may be more nearly commensurate with the services performed. This will increase the stability of the clerical force of this office by providing a larger number of positions of a higher salary, which consequently furnishes an incentive for capable clerks to remain in the employ of this office. Last year more than 25 per cent of the clerical force resigned or procured transfers to other bureaus and departments, due to the present salaries, which are inadequate and not sufficiently graded to offer much hope of promotion to entrants into the service. Under the present arrangement, all things being equal, a new entrant into this office, may with the average number of resignations and transfers occurring in the higher grades, expect to be promoted from $1,000 per annum to $1,200 per annum in from 15 to 20 years.

The clerical force of the Signal Office is one of the poorest paid in the Government service, and at the same time undoubtedly performs as high or higher grade of clerical labors as those of any other bureau. The average salary of a clerk in this office is approximately $140 less per annum each clerk than the average clerical salary paid in the departmental service as a whole, and 57 per cent of the clerks in this office receive less than $1,200 per annum, as compared with 25 per cent in the departmental service as a whole.

Additional statistics, evidencing the unfortunate status of the clerical organization of this office, will be found in the annual report of the Chief Signal Officer for the fiscal year 1913.—*George P. Scriven, Chief Signal Officer of the Army.*

NOTE.—The number of men employed, the character of their duties, and the amount paid to each from the $25,000 authorized during the fiscal year ending June 30, 1913, are as follows:

The services of skilled draftsmen and such other services, not clerical, as the Secretary of War may deem necessary, may be employed in the office of the Chief of Ordnance to carry into effect the various appropriations for the armament of fortifications and for the arming and equipping of the Organized Militia, to be paid from such appropriations, in addition to the amount specifically appropriated for draftsmen in the Army Ordnance Bureau: *Provided*, That the entire expenditures for this purpose for the fiscal year ending June 30, 1915, shall not exceed $55,000, and that the Secretary of War shall each year in the annual estimates report to Congress the number of persons so employed, their duties, and the amount paid to each (*act Mar. 4, 1913, vol. 37, p. 765, sec. 1*).

NOTE.—An increase of $250 in the salary of the chief clerk is submitted in order that it may correspond to the recent increase provided for in the salaries of the chief clerks of the offices of the Chief of Engineers and the Surgeon General, as shown by the legislative, executive, and judicial appropriation act approved Mar. 4, 1913 (Public, No. 427).

The present incumbent has been employed for a long period of years, dating back to the Civil War, reaching his present position on May 26, 1882. His familiarity with the past and present conditions of the department, its laws and regulations, in my judgment makes him an invaluable adviser, and the proposed compensation asked for is no more than commensurate with the arduous and important duties of his position and with his merits as a deserving reward for long, faithful, and efficient service.

One principal clerk, at $2,000, is asked for to indicate more properly the character of the duties performed by the official for whom intended, and who, in the absence of the chief clerk, also takes charge of and performs the duties of that office. His long, efficient, and faithful service, together with the varied amount of work performed in addition to his regular duties, fully warrants the proposed change in designation and slight increase in salary.

Attention is invited to the fact that the proposed changes not only do not involve an increase in the amount as compared with appropriations for prior years, but on the contrary result in a reduction of $150 per year, the number of clerks of class 1 having been reduced from 28 to 26.—*R. Birnie, Colonel, Ordnance Department, Acting Chief of Ordnance.*

NOTE.—The increase in the amount of the authorization is desired in order to provide for the larger number of draftsmen required by the increased work of the department. This authorization requires no additional appropriation, as the funds from which the proposed expenditures will be made are covered in other appropriation acts.—*R. Birnie, Colonel, Ordnance Department, Acting Chief of Ordnance.*

| 1 skilled draftsman | 481.13 | Total | 44,999.14 |
| 1 skilled draftsman | 440.01 | | |

In all 46 different persons received compensation under the authorization above referred to and were paid the total of $44,999.14. With the exception of the laborers and messenger boys, all of the persons shown in the above statement were engaged in the design of ordnance matériel. The laborers and messenger boys were engaged on work in connection with the reproduction of drawings made in the ordnance office drafting room.—*William Crozier, Brigadier General, Chief of Ordnance.*

The services of skilled draftsmen, civil engineers, and such other services as the Secretary of War may deem necessary, may be employed only in the office of the Chief of Engineers to carry into effect the various appropriations for rivers and harbors, fortifications, and surveys, and preparation for and the consideration of river and harbor estimates and bills, to be paid from such appropriations: *Provided*, That the expenditures on this account for the fiscal year 1915 shall not exceed $42,000; the Secretary of War shall each year, in the annual estimates, report to Congress the number of persons so employed, their duties, and the amount paid to each (*acts June 17, 1910, vol. 36, p. 503, sec. 1; Mar. 4, 1911, vol. 36, p. 1205, sec. 1; Aug. 23, 1912, vol. 37, p. 387, sec. 1; Mar. 4, 1913, vol. 37, p. 765, sec. 1*).

NOTE.—Since this estimate was originally submitted the sum of $42,000 heretofore authorized to be expended from appropriations for rivers and harbors, fortifications, and surveys, etc., for services in the office of the Chief of Engineers has been found inadequate to supply funds for the services actually required in the conduct of the business coming before the office, and the services of two additional engineers, at $2,400 each, and of two additional draftsmen, at $1,800 each, are urgently needed. It is therefore recommended that the limiting amount of $42,000 heretofore authorized be increased to $50,400.—*Wm. T. Rossell, Chief of Engineers, United States Army.*

| | | $89,780.00 | $90,230.00 |

NOTE.—I have recommended an increase of $150 in the salary of the chief clerk, three chiefs of divisions at $2,200 per annum each, one clerk at $2,000, one at $1,600, and two at $1,200, and a decrease of four at $1,800 and six $1,000 positions. The present compensation of the higher clerical positions in this bureau is decidedly inadequate and it has been found difficult with such a large number of $1,000 positions to induce the more promising young men to remain in the service. Under existing conditions about four years must elapse before an employee just entering the service reaches in the regular course the $1,200 grade. As a result the more promising employees leave the bureau after a short period of service. If the proposed increases are granted, the bureau will be able to retain the services of a force of trained and competent men, which can do the work more expeditiously and much more satisfactorily than a larger but less efficient personnel. The estimate has been made up with a view to giving several employees of this bureau, so far as circumstances will permit, compensation commensurate with the value of their services, as it is not believed under the present organization that the amount appropriated for the bureau for clerical hire measured by the nature and importance of the work performed by the several employees is adequately allotted, and at the same time there will be a saving of $450 over last year's appropriation.—*Frank McIntyre, Brigadier General, United States Army, Chief of Bureau.*

DIVISION OF MILITIA AFFAIRS, OFFICE OF THE CHIEF OF STAFF.

| *Postage to Postal Union Countries, War Department*— | | |
| For postage stamps for the War Department and its bureaus, as required under the Postal Union, to prepay postage on matters addressed to Postal Union countries (*act Mar. 4, 1913, vol. 37, p. 766, sec. 1*) ..... | 250.00 | 500.00 |
| NOTE.—The department recommends that the foregoing estimates for contingent expenses, stationery and postage to Postal Union countries, War Department, be combined under the one heading, "Contingent expenses, War Department."<br>The merger of these appropriations will simplify administration by obviating the necessity of using two distinct forms for making requisition for stationery and miscellaneous supplies, as well as three forms of expenditure voucher, which will result in a material saving in clerical work and in the cost of blanks and records now necessarily required because the appropriations are separate and distinct. Similar legislation has been enacted for the Navy Department, the Department of Commerce and Labor, and the Department of Agriculture for several years past, in the acts making appropriations for the legislative, executive, and judicial expenses of the Government, and the acts making appropriations for the Department of Agriculture for the fiscal years 1906 to 1914, inclusive.<br>Should this recommendation be favorably acted upon it is suggested that the following wording would accomplish the desired merger:<br>"For contingent and miscellaneous expenses of the War Department and its bureaus and offices, including the purchase of professional and scientific books, law books, including their exchange; books of reference, blank books, pamphlets, periodicals, newspapers (subscriptions to periodicals may be paid for in advance), maps; stationery; typewriters and adding machines, including their exchange; furniture, and repairs to same; carpets, matting, oilcloth, file cases, towels, ice, brooms, soap, sponges, fuel, gas, and heating apparatus for and repairs to the buildings (outside of the State, War, and Navy Department Building) occupied by The Adjutant General's Office, the Bureau of Insular Affairs, and the other offices of the War Department and its bureaus located in the Lemon Building; expenses of horses and vehicles, including their exchange, to be used only for official purposes; freight and express charges; postage stamps to prepay postage on matters addressed to Postal Union countries; street-car tickets, not exceeding $300; temporary labor not to exceed $1,000, and other absolutely necessary expenses."—*John C. | NOTE.—A statement of buildings rented for the fiscal year 1914 in Washington for use of the bureaus of the War Department, with the annual rental of same, reported as required by the acts of July 16, 1892 (27 Stat., 199), and May 1, 1913, sec. 3 (38 Stat., p. 3, sec. 31), will be found in Appendix B.<br>NOTE.—The estimate of the Secretary of War for "Printing and binding," under section 3661, page 720, of the Revised Statutes, will be found under the head of "Miscellaneous" *post.*<br>For report of the Secretary of War as to detailed clerks, condition of business, etc., see Appendix C. | | |

| | | 3,900.00 | 3,900.00 |
| NOTE.—The reason for the change of designation proposed in the above estimate for the next fiscal year is explained in the statement following: | | | |
| *Explanation of estimates for appropriations for salaries of employees and for contingent expenses, public buildings and grounds, for fiscal year ending June 30, 1915.* | | | |
| It is recommended that the designation "park watchmen" be changed to "park police," in order that it may conform to the duties actually performed by the members of the force. When it was first organized and named, the men's duties were purely those of watchmen, as they took care of the parks, watered the plants, etc., and performed no police duties, those being in the hands of the Metropolitan police of the city. Later the park watchmen were by act of Congress given the same powers and duties as the Metropolitan police. They are now clad in police uniforms, make frequent arrests, quell disturbances, and patrol some of the worst districts in the city. They are no longer watchmen, but policemen in every sense of the word. If their designation is changed accordingly, it is believed it will result in an increased authority in their dealings with the public, and will facilitate the securing of a better class of men from the civil service, as many of the eligibles on the civil-service lists for watchmen are utterly unfitted to perform the duties of policemen. | | | |
| The foregoing estimates are the same as the appropriations made in the legislative, executive, and judicial act for the fiscal year ending June 30, 1914. Experience has shown that all of these items are absolutely essential to the proper maintenance of the public grounds under the officer in charge of public buildings and grounds.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | | |

NOTE.—The bureau was unable to utilize the limit of expenditures, viz., $88,300, for its technical force, authorized for the fiscal year 1913, per the legislative, executive, and judicial act of Aug. 23, 1912, because the naval bill, passed one day earlier than the legislative bill, failed to similarly increase the limit of expenditure for all classified employees. This limit was increased by naval act of Mar. 4, 1913, effective after July 1, 1913, and $88,300 is necessary for the fiscal year 1915.

NOTE.—In the event of the abolishment of the Bureau of Equipment, the following employee (transferred from that bureau) should be appropriated for under the Bureau of Construction and Repair, making the total for "Salaries; Bureau of Construction and Repair, 1915," $59,650: 1 clerk of class E, $1,000.

NOTE.—In accordance with section 2 of the act of July 11, 1890 (26 Stat. L., 267), the bureau has to report that none of its employees is at present below a fair standard of efficiency.

| NAVAL MILITIA OFFICE. | | | |
| *Salaries, Naval Militia Office*— | | | |
| For the following, now authorized and being paid from the appropriation for "Arming and equipping Naval Militia," namely, chief clerk, $1,600; stenographer, $1,200; messenger boy, $600; in all, $3,400, which sum shall be paid from the appropriation for "Arming and equipping Naval Militia" for the fiscal year 1915, and no other or further sums shall be expended from said appropriation for or on account of said Naval Militia Office; but all other expenses on account thereof shall be paid out of the appropriations for contingent expenses and for printing and binding for the Navy Department, as in the case of other like expenses of that department (*act Mar. 4, 1913, vol. 37, p. 771, sec. 1*). | | | |
| CONTINGENT EXPENSES. | | | |
| *Contingent Expenses, Navy Department*— | | | |
| For professional and technical books and periodicals, law books, and necessary reference books, including city directories, railway guides, freight, passenger, and express tariff books, for department library (*act Mar. 4, 1913, vol. 37, pp. 771, 772, sec. 1*)..... | $2,000.00 | | |
| For stationery, furniture, newspapers, plans, drawings, drawing materials, horses and wagons to be used only for official purposes, street-car tickets not exceeding $250, freight, expressage, postage, typewriters and computing machines and exchange of same, and other absolutely necessary expenses of the Navy Department and its various bureaus and offices, $40,000; it shall not be lawful to expend, for any of the offices or bureaus of the Navy Department at Washington, any sum out of appropriations made for the Naval Establishment for any of the purposes mentioned or authorized in this paragraph (*same act*)..... | 40,000.00 | | |
| [Toward installing steel fireproof file cases and file boxes required to furnish additional filing space and to replace old wooden file cases and file boxes, $2,500] (*same act*). | | | |
| For the rental of additional quarters for the Navy Department for the fiscal year ending June 30, [1914] *1915*, $30,000, *in accordance with the authority contained in the act approved Mar. 4, 1913, Statutes at Large, volume 37, page 771* [and the Secretary of the Navy is hereby authorized to enter into contract for the rental of a suitable fireproof building or buildings or parts thereof for the use of the Navy Department for a period of not exceeding 10 years from July 1, 1913, at an annual rental of not exceeding $30,000] (*same act*)..... | 30,000.00 | | |
| | | $72,000.00 | $74,500.00 |
| [The amount heretofore appropriated for the rental of the Mills Building for the fiscal year ending June 30, 1913, is hereby made available for the rental of the Mills Building or any other building or buildings or parts thereof for the Navy Department for the period from Apr. 1, to June 30, 1913, and the additional sum of $1,375, to be immediately available, is hereby appropriated for the same purpose]. | | | |
| NOTE.—The estimate of the Secretary of the Navy for "Printing and binding," under section 2, act May 8, 1872 (R. S., 720, sec. 3661), will be found under the title "Miscellaneous," *post*. | | | |
| NOTE.—For reports of the Secretary of the Navy under section 2, act of July 11, 1890 (26 Stat., p. 268), and section 7, act of Mar. 2, 1895 (28 Stat., p. 806), see Appendix C. | | | |

| *Salaries, Office of Secretary of the Interior*—Continued. | | | |
| Clerks: | | | |
| Four, at $2,000 each (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | $8,000.00 | | |
| Thirteen of class 4 (*same acts*) | 23,400.00 | | |
| Eighteen of class 3 (*same acts*) | 28,800.00 | | |
| Twenty-one of class 2 (*same acts*) | 29,400.00 | | |
| Twenty-four of class 1 (*same acts*) | 28,800.00 | | |
| Three, at $1,000 each (*same acts*) | 3,000.00 | | |
| Returns office clerk (*acts June 17, 1910, vol. 36, p. 511, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 1,600.00 | | |
| Female clerk, to be designated by the President to sign land patents (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 1,200.00 | | |
| Eight copyists, at $900 each (*same acts*) | 7,200.00 | | |
| Multigraph operator (*acts June 17, 1910, vol. 36, p. 511, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 900.00 | | |
| Assistant multigraph operator (*act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 720.00 | | |
| Typewriter repairer (*same acts*) | 900.00 | | |
| Two telephone switchboard operators, at $720 each (*same acts*) | 1,440.00 | | |
| Nine messengers, at $840 each (*same acts*) | 7,560.00 | | |
| Seven assistant messengers, at $720 each (*same acts*) | 5,040.00 | | |
| Twenty-one laborers, at $660 each (*same acts*) | 13,860.00 | | |
| Skilled mechanics, one, $900, one, $720 (*same acts*) | 1,620.00 | | |
| Two carpenters, at $900 each (*same acts*) | 1,800.00 | | |
| Assistant superintendent, Patent Office Building (*submitted*) | 1,200.00 | | |
| NOTE.—This position carries with it responsibility for and supervision over the Patent Office Building. The incumbent should be skilled in mechanical and construction work and have more than ordinary executive ability. It has been found necessary to detail an employee to perform the duties of this place, but this has proven unsatisfactory. It is deemed the better plan, in the interest of good administration, to make the position definite and permanent and to provide an adequate salary therefor. | | | |
| Plumber (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 900.00 | | |
| Electrician (*same acts*) | 1,000.00 | | |
| Laborer (*same acts*) | 600.00 | | |
| Six laborers, at $480 each (*same acts*) | 2,880.00 | | |
| Packer (*same acts*) | 660.00 | | |
| Two conductors of elevators, at $720 each (*same acts*) | 1,440.00 | | |
| Eight charwomen, at $240 each (*same acts*) | 1,920.00 | | |
| Captain of the watch (*same acts*) | 1,200.00 | | |
| Forty watchmen, at $720 each (*same acts*) | 28,800.00 | | |
| Additional to two watchmen acting as lieutenants of watchmen, at $120 each (*same acts*) | 240.00 | | |
| Engineer (*same acts*) | 1,200.00 | | |
| Assistant engineer (*same acts*) | 1,000.00 | | |
| Seven firemen, at $720 each (*same acts*) | 5,040.00 | | |
| Clerk to sign, under the direction of the Secretary, in his name and for him, his approval of all tribal deeds to allottees and deeds for town lots made and executed according to law for any of the Five Civilized Tribes of Indians in the Indian Territory (*acts Mar. 18, 1904, vol. 33, p. 123, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 1,200.00 | | |
| | | $277,020.00 | $275,820.00 |
| Old Post Office Department Building: | | | |
| Engineer and electrician (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 1,600.00 | | |
| Machinist (*submitted*) | 1,400.00 | | |
| NOTE.—A machinist is urgently needed to attend to the repairing of engines, generators, and other equipment of the central heating, lighting, and power plant. In many instances it has been found impossible to have these repairs made by outside machinists, and experience has demonstrated that they can be made in the department's shop at about one-half the cost of contract repairs. | | | |
| Assistant engineer (*act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 1,000.00 | | |
| Two steam fitters, at $1,000 each (in lieu of three firemen, at $720 each) (*submitted*) | 2,000.00 | | |
| NOTE.—The department has no regularly employed steam fitters, and has been obliged to utilize the services of firemen. This has proven unsatisfactory and has occasioned embarrassing delays. The firemen being unskilled in this special class of work can not be expected to accomplish as much as skilled steam fitters. | | | |
| One fireman (decrease of 3, as above) (*act Mar. 4, 1913, vol. 37, p. 772, sec. 1*) | 720.00 | | |
| Three watchmen, acting as lieutenants, at $840 each (*same act*) | 2,520.00 | | |
| Twenty watchmen, at $720 each (*same act*) | 14,400.00 | | |
| Conductor of elevator (*same act*) | 720.00 | | |
| Fourteen laborers, at $660 each (*same act*) | 9,240.00 | | |
| Nine laborers, at $480 each (*same act*) | 4,320.00 | | |
| Three skilled mechanics (painter, carpenter, and plumber), at $900 each (*same act*) | 2,700.00 | | |
| | | 40,620.00 | 39,380.00 |
| Office of the Assistant Attorney General: | | | |
| Three members of a board of appeals, to be appointed by the Secretary of the Interior, at $5,000 each (*submitted*) | 15,000.00 | | |
| NOTE (by the Secretary).—There should be created in the Interior Department a board of appeals, to consist of three persons, whose duties would be to hear and determine upon all matters coming before the Interior Department on appeal from the bureau officers, except pension matters. The salaries to be paid to the members of the board should not be less than $5,000 each per annum. Under the present assignment of work these duties are now imposed upon the First Assistant Secretary, and a consideration thereof involves much more time than the general hours of work in the department. With such a board the First Assistant Secretary could in a great measure be relieved of this large and exacting volume of work, thus enabling him to devote more time to matters of administration, and in this way the Secretary of the Interior would be greatly relieved. | | | |

| *Salaries, Office of Secretary of the Interior*—Continued. | | | |
| Office of the Assistant Attorney General—Continued. | | | |
| Assistant attorneys: | | | |
| One (*acts July 31, 1894, vol. 28, p. 193, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | $3,000.00 | | |
| Increase (*submitted*)..... | 750.00 | | |
| NOTE.—This increase was included in the Book of Estimates for 1913, page 75, and received favorable consideration in the Senate. It was also included in the Book of Estimates for 1914, page 77. Little may be said in explanation, as the figures below, in connection with the submitted estimate for additional assistant attorneys, show how materially the work of this office has increased within the last two years. The first assistant attorney is the original general reviewing officer of the work of the assistant attorneys. The present salary was fixed years ago, when the duties of the position required attention only to a very small portion of the work now devolved on this office. Three thousand dollars is ridiculously incommensurate with the service required and rendered. | | | |
| Two, at $2,750 each (*acts July 31, 1894, vol. 28, p. 193, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | 5,500.00 | | |
| One additional assistant attorney, at $2,750 (*submitted*)..... | 2,750.00 | | |
| Four, at $2,500 each (*acts July 31, 1894, vol. 28, p. 193, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | 10,000.00 | | |
| Four additional assistant attorneys, at $2,500 each (*submitted*)..... | 10,000.00 | | |
| Seven, at $2,250 each (*acts July 31, 1894, vol. 28, p. 193, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | 15,750.00 | | |
| Two additional assistant attorneys, at $2,250 each (*submitted*)..... | 4,500.00 | | |
| NOTE.—The increases herein recommended are for five additional attorneys, one at $2,750 and four at $2,500. The increase of two in the $2,250 class is merely in lieu of two attorneys at $2,000, the number of attorneys at $2,000 being correspondingly reduced. There is pressing need for increase in the number of attorneys, due to the great increase in the amount of work coming before the office of the Assistant Attorney General for consideration. This increase in work has been noted for several years in the estimates submitted, but no increase has been granted in the working force. The following table, covering the past five years, shows how steadily this increase has continued. | | | |
| *Cases and miscellaneous matters.* | | | |
| Years ending Oct. 1: | | | |
| 1909..... | 4,755 | | |
| 1910..... | 13,301 | | |
| 1911..... | 16,609 | | |
| 1912..... | 34,783 | | |
| 1913..... | 48,870 | | |
| Beginning with the year 1909 the force was unable to keep the work current. The result has been that the cases on appeal from the decision of the Commissioner of the General Land Office, involving claimed rights under the several public-land laws, have steadily accumulated until there are now pending undisposed of 2,144 cases. With the present force a case can not be reached for examination for from nine months to a year from receipt of the record on appeal. The records in these cases average 300 pages and often reach 3,000 or more pages.<br>These cases generally reach the department only after successive appeals from the local land officers to the Commissioner of the General Land Office, and from the latter officer to the Secretary of the Interior, and the final disposition or settlement of a controversy affecting public lands is often delayed from two to three years. It is submitted that such a delay works unnecessary hardship and often injustice to public-land claimants and it can only be relieved by an increase in the number of attorneys in the office of the Assistant Attorney General to handle these controverted matters. | | | |
| Nine, at $2,000 each (decrease of 2) (*acts July 31, 1894, vol. 28, p. 193, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | 18,000.00 | | |
| NOTE.—The reduction in attorneys at $2,000 is only recommended by way of an addition of two in the $2,250 class. In conclusion it should be said that when the character of work performed by the attorneys in the office of the Assistant Attorney General is understood, it will be readily seen that the salaries provided for in this estimate are far below those paid for like class of work in the other departments. | | | |
| Medical expert (*acts Mar. 4, 1911, vol. 36, p. 1214, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*). | 2,000.00 | | |
| Clerks: | | | |
| One of class 4 (*submitted*)..... | 1,800.00 | | |
| Four of class 3, one of whom shall act as stenographer and one of whom shall be a stenographer and typewriter (*acts Feb. 24, 1899, vol. 30, p. 876, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | 6,400.00 | | |
| Three of class 2 (*submitted*)..... | 4,200.00 | | |
| One of class 1 (*acts May 28, 1896, vol. 29, p. 167, sec. 1; Mar. 4, 1913, vol. 37, p. 772, sec. 1*)..... | 1,200.00 | | |
| | | $100,850.00 | $65,850.00 |
| NOTE.—The increase in the stenographic force is based upon the necessities incident to increase in the force of attorneys. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Contingent Expenses, Department of the Interior*— | | | |
| The following sums, which shall be so apportioned as to prevent deficiencies therein, namely: For contingent expenses of the Office of the Secretary of the Interior and the bureaus, offices, and buildings of the Interior Department, including $11,000 (including $3,500 on account of a system of efficiency ratings) for the Civil Service Commission: For furniture, carpets, ice, lumber, hardware, dry goods, advertising, telegraphing, street-car tickets not exceeding $250, expressage, wagons and harness, motor trucks, motor cycles, and bicycles, maintenance and exchange of same, food, forage, and shoeing of horses, diagrams, awnings, filing and labor-saving devices, constructing model and other cases and furniture, and other absolutely necessary expenses not hereinbefore provided for, including traveling expenses, fuel and lights, typewriting and adding machines, and exchange of same (*act Mar. 4, 1913, vol. 37, p. 776, sec. 1*) | $130,000.00 | | |
| Increase in allotment for Civil Service Commission (*submitted*) | 6,000.00 | | |
| | | $136,000.00 | $130,000.00 |
| NOTE.—The Civil Service Commission reports that it is badly in need of additional equipment, in the way of typewriters, filing devices, desks, chairs, and other office furniture. Owing to shortage in funds, it has been necessary to secure most of the furniture used in the office from the sale of condemned furniture of other departments. Over half of the regular contingent fund is required for fixed charges, such as telephones, electric power, coal, etc., leaving only about $3,500 (of the $7,500 appropriated aside from the amount for the division of efficiency) for miscellaneous supplies, contingencies, and equipment. The commission also furnishes supplies to its field offices from this fund, and it has been found inadequate to meet the demands. Of the above increase of $6,000 the sum of $1,000 is needed to meet the added demands upon the usual requirements covered by this appropriation; and the other $5,000 is to cover the installation of fireproof filing devices. The sum of $3,500 is for the division of efficiency, being the same amount as that appropriated for the fiscal year 1914. | | | |
| *Stationery, Department of the Interior*— | | | |
| For stationery, including tags, labels, index cards, cloth-lined wrappers, and specimen bags, printed in the course of manufacture, and such printed envelopes as are not supplied under contracts made by the Postmaster General, for the Department of the Interior and its several bureaus and offices, including not to exceed $5,500 (including $500 on account of system of efficiency ratings) for the Civil Service Commission, $80,000; and, in addition thereto, sums amounting to $29,650 shall be deducted from other appropriations made for the fiscal year 1915, as follows: Surveying public lands, $1,000; protecting public lands and timber, $2,000; contingent expenses of offices of surveyors general, $2,000; Capitol Building and repairs, $150; Geological Survey, $2,100; Bureau of Mines, $1,500; Indian warehouses, $500; Five Civilized Tribes of Indians, $1,000; Indian schools, $17,000; Freedmen's Hospital, $400; and said sums so deducted shall be credited to and constitute, together with the first-named sum of $80,000, the total appropriation for stationery for the Department of the Interior and its several bureaus and offices for the fiscal year 1915 (*act Mar. 4, 1913, vol. 37, p. 776, sec. 1*) | 80,000.00 | | |
| Increases in allotment for Civil Service Commission (*submitted*) | 1,000.00 | | |
| | | 81,000.00 | 80,000.00 |
| NOTE.—The Civil Service Commission reports that it needs an increase of $1,000 in its stationery appropriation to meet the demands on this fund due to increase in the service. The present appropriation of $5,000 (exclusive of the amount for the division of efficiency) is the same as the commission has had each year since 1906.<br>The expansion of the classified service has caused a great increase in the number of applicants and consequent growth of correspondence, thereby resulting in an increase in the expenditure for stationery. Over half of the fund is expended annually for envelopes used in the shipment and return of examination material, the distribution of applications and pamphlets of information to applicants and the general public, the carrying on of miscellaneous work assigned to field offices, and for the general correspondence of the commission, while the remainder of the fund is expended chiefly for letter paper, carbon sheets, and typewriter supplies, leaving only a small part of the appropriation for desk supplies.<br>The fund has, by judicious management, been sufficient to meet the demands until the last fiscal year, before the close of which the appropriation was exhausted and it was necessary to carry over to the present fiscal year purchases to the amount of $600 which should have been charged to the last fiscal year. This will cause a corresponding shortage in the appropriation for the present fiscal year. | | | |
| *Library, Department of the Interior*— | | | |
| For professional and scientific books, law books, and books to complete broken sets, periodicals, directories, and other books of reference relating to the business of the department, $1,000, of which sum $250 may be used for the Civil Service Commission (*act Mar. 4, 1913, vol. 37, p. 776, sec. 1*) | | 1,000.00 | 1,000.00 |
| *Rent of Buildings, Department of the Interior*— | | | |
| For rent of buildings for the Department of the Interior: | | | |
| Geological Survey (*act Mar. 4, 1913, vol. 37, p. 776, sec. 1*) | 37,400.00 | | |
| Increase (*submitted*) | 7,600.00 | | |
| NOTE.—Although the construction of a public building has been authorized for the Geological Survey and other bureaus of the Department of the Interior, the congestion in the present rented quarters continues to present a serious problem. The nearly disastrous fire in May, 1913, can be attributed to the overcrowded condition of the survey building, and the Public Health Service has made several official reports condemning the congestion and even recommending the stopping of public work unless relief can be had. | | | |

| GENERAL LAND OFFICE. | | |
| *Salaries, General Land Office—* | | |
| Commissioner (*R. S., p. 76, sec. 446; acts July 11, 1890, vol. 26, p. 257, sec. 1; Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | $5,000.00 | |
| Assistant Commissioner (*acts July 7, 1884, vol. 23, p. 186, sec. 1; Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 3,500.00 | |
| Chief clerk (*R. S., p. 74, sec. 440; act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 3,000.00 | |
| Chief law clerk (*acts June 22, 1906, vol. 34, p. 429, sec. 1; Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 2,500.00 | |
| Increase (*submitted*) | 500.00 | |
| NOTE.—As to the increase of $500 submitted for the chief law clerk, no extended explanation is necessary when it is appreciated that the position requires the highest legal ability, and $3,000 is hardly an adequate salary for such work. | | |
| Two law clerks, at $2,200 each (*acts Mar. 3, 1879, vol. 18, p. 364, sec. 1; Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 4,400.00 | |

| Clerks: | | |
| Twenty-seven of class 4 (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 48,600.00 | |
| Fifty-one of class 3 (*same acts*) | 81,600.00 | |
| One additional of class 3 (*submitted*) | 1,600.00 | |
| NOTE.—See explanatory note following the estimate for "Salaries, General Land Office." | | |
| Seventy-four of class 2 (*act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 103,600.00 | |
| Three additional of class 2 (*submitted*) | 4,200.00 | |
| NOTE.—See explanatory note following the estimate for "Salaries, General Land Office." | | |
| Seventy-seven of class 1 (*act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 92,400.00 | |
| Seven additional of class 1 (*submitted*) | 8,400.00 | |
| NOTE.—See explanatory note following the estimate for "Salaries, General Land Office." | | |
| Sixty-five, at $1,000 each (*act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 65,000.00 | |
| Three additional, at $1,000 each (*submitted*) | 3,000.00 | |
| NOTE.—See explanatory note following the estimate for "Salaries, General Land Office." | | |
| Sixty-five copyists, at $900 each (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 58,500.00 | |
| Two additional copyists, at $900 each (*submitted*) | 1,800.00 | |
| NOTE.—See explanatory note following the estimate for "Salaries, General Land Office." | | |
| Twenty-six copyists, at $720 each (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 18,720.00 | |
| Additional compensation to 26 copyists, $180 each (*submitted*) | 4,680.00 | |
| NOTE.—The increase of $180 each recommended in the compensation of the 26 copyists now employed at $720 each results from the fact that many applicants certified from the civil-service register will not accept a salary less than $900; as a result the office gets an inferior class, who are willing to accept $720. | | |
| Two messengers, at $840 each (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 773, sec. 1*) | 1,680.00 | |

| | | $655,430.00 | $631,250.00 |
| EXPLANATORY NOTE.—As to the additional clerical force estimated for herein—namely, 1 clerk, at $1,600; 3 clerks, at $1,400; 7 clerks, at $1,200; 3 clerks, at $1,000; 2 copyists, at $900—7 of said force are required and made necessary on account of the extra work entailed upon this office by the 3-year homestead law of June 6, 1912 (37 Stat., 123). Owing to the continued difficulties encountered in the adjudication of claims under the said 3-year law, and because of the many conservation withdrawals and eliminations, the time required in the adjudication of claims has increased. At the present time, because of the loss of the 24 temporary employees provided for the fiscal year 1913, sundry civil act of Aug. 24, 1912 (37 Stat., 455), the work in the General Land Office is seriously delayed, and many complaints are being made.<br>The remainder of the additional force is required and made necessary in order to retain upon the permanent roll the 2 clerks now employed under the appropriation for "Completing Field Notes of Surveys, etc., in Minnesota and North Dakota," sundry civil act of June 23, 1913 (38 Stat., p. 47), and the 7 clerks now employed under the appropriation for "Deposits by Individuals for Surveying the Public Lands," repayments by railroad companies act of July 2, 1864 (13 Stat., 365, sec. 21). Provision for the employment of these 7 clerks for the current fiscal year 1914, is made by the general deficiency appropriation act of Mar. 4, 1913 (37 Stat., 924). The work of completing the field notes and drafting necessary for the proper filing of plats of surveys in the abandoned districts of Minnesota, North Dakota, Louisiana, and Florida is not yet finished, but the work as it comes in from time to time does not consume the entire time of the 2 clerks engaged thereon and they have been employed upon other duties connected with the work of surveys requiring expert knowledge. The additional appropriation within the last 2 years for surveys and resurveys, amounting to nearly 100 per cent, has necessarily increased the labor in this office of proper supervision and expert technical examination, so that it was believed that an additional force might result in not only clearing away the arrears of work but keeping the work up to date. Actual experience after this had been tried showed the increased amount of returns of surveys required the full time of the expert force, and that, although the arrears were reduced, yet the number of people engaged was insufficient to do more than keep abreast of the current work. In consequence the force of experts secured for the purpose of bringing up the arrears of work on returns of surveys seems to be necessary in order to prevent the work from falling into arrears in the future, and the above number of clerks is recommended for continuation, having been found efficient, and having been trained to render the best technical examinations upon the surveys. As the sundry civil act of Aug. 24, 1912, carrying an extra number of clerks was terminated on June 30, 1913, by failure of Congress to reappropriate the amount for the salaries, it was necessary to secure permission from Congress in the general deficiency act of Mar. 4, 1913, to employ the fund created by railroad repayments under the act of July 2, 1864, for the purpose, but this permission was granted only for 1 year, and the above estimate is intended to provide for the employment of the extra clerks beyond that time, or from July 1, 1914. If the force is not provided for at that time the work of examination of surveys in this office prior to their acceptance will be seriously retarded. Seven of the clerks mentioned are expert surveyors and skilled in the practice of making the necessary tests of the work which is essential to secure their accuracy. The other 2 clerks are required for the clerical assistance necessary for the prompt disposal of the work. | | | |

| *Salaries, Patent Office—* | | |
| Commissioner (*R. S., p. 80, secs. 476, 477; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | $5,000.00 | |
| First assistant commissioner, who shall perform such duties pertaining to the office of commissioner as may be assigned to him by the commissioner (*acts Mar. 4, 1909, vol. 35, p. 891, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 4,500.00 | |
| Assistant commissioner, who shall perform such duties pertaining to the office of commissioner as may be assigned to him by the commissioner (*R. S., p. 80, secs. 476, 477; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 3,500.00 | |
| Chief clerk, who shall be qualified to act as principal examiner (*R. S., p. 75, sec. 440; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 3,000.00 | |
| Two law examiners, at $2,750 each (*acts July 4, 1884, vol. 23, p. 187, sec. 1; Mar. 3, 1891, vol. 26, p. 939, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 5,500.00 | |
| Three examiners in chief, at $3,500 each (*R. S., p. 80, secs. 476, 477; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 10,500.00 | |
| Two additional examiners in chief, at $3,500 each (*submitted*) | 7,000.00 | |
| NOTE.—In the appropriation bill, the item providing for three examiners in chief should take precedence over that providing for two law examiners. It is asked that an increase of two additional examiners in chief at $3,500 each, be provided. The members of this tribunal are selected from among the ablest persons who can be found, and their duties are entirely judicial, being confined to the consideration of the merits of the cases presented to them by way of appeal. The tribunal was created in 1861, and the salaries then fixed at $3,000 per year remained unchanged until 1908. The number of applications filed in 1861 was less than 5,000, while the number of applications filed in 1912, was more than 70,000. This enormous increase in the volume of work in the Patent Office, with its proportionate increase in the work to be performed by the examiners in chief has produced such a congestion and stagnation in the work before them, that an increase in their numbers has become a matter of absolute necessity. | | |
| Examiner of interferences (*R. S., p. 75, sec. 440; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 2,700.00 | |
| Examiner of trade-marks and designs (*acts Mar. 3, 1905, vol. 33, p. 1253, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 2,700.00 | |
| First assistant examiner of trade-marks and designs (*submitted*) | 2,400.00 | |
| NOTE.—In the appropriation bill, this item and that following, providing for 6 assistant examiners of trade-marks and designs, should be placed after the several grades of assistant examiners, by reason of the higher rank of those last mentioned. The work of the trade-mark division has increased to such an extent that the services of a first assistant examiner of trade-marks and designs at $2,400 per annum, is a necessity. There is at present no provision for an assistant of this grade, and the entire time of the present assistant examiners of trade-marks and designs at $1,500, is taken up with the examination of cases. The work of deciding the many legal questions which arise in connection with trade-mark cases now devolves upon the examiner of trade-marks and designs, who should be allowed a capable assistant of a grade proportionate to the work required. | | |
| Six assistant examiners of trade-marks and designs, at $1,500 each (*acts Mar. 4, 1911, vol. 36, p. 1216, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 9,000.00 | |
| NOTE.—See note preceding as to the arrangement of this item in the appropriation bill. | | |
| Examiner of classification (*acts Mar. 4, 1909, vol. 35, p. 891, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 3,600.00 | |
| NOTE.—In the appropriation bill, this item should precede that of the examiner of interferences and the examiner of trade-marks and designs, in order to preserve a logical arrangement. | | |
| Forty-three principal examiners, at $2,700 each (*acts Mar. 4, 1909, vol. 35, p. 891, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 116,100.00 | |
| Examiners: | | |
| Sixty-three, at $2,400 each (*same acts*) | 151,200.00 | |
| Twenty-three additional (*submitted*) | 55,200.00 | |
| NOTE.—It is recommended that the designation of these examiners be changed to first assistant examiners. | | |
| Seventy-three, at $2,100 each (*acts Mar. 4, 1909, vol. 35, p. 891, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 153,300.00 | |
| Thirteen additional (*submitted*) | 27,300.00 | |
| NOTE.—It is recommended that the designation of these examiners be changed to second assistant examiners. | | |
| Eighty-six (decrease of 2), at $1,800 each (*acts Mar. 4, 1909, vol. 35, p. 891, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 154,800.00 | |
| NOTE.—Change of designation to third assistant examiners at $1,800 each, recommended. | | |
| Eighty-six (decrease of 24), at $1,500 each (*same acts*) | 129,000.00 | |
| NOTE.—Change of designation to fourth assistant examiners at $1,500 each, recommended. | | |
| NOTE.—Through an error in preparing the estimates for the Patent Office for the fiscal year ending June 30, 1914, the grades by which the subordinate assistant examiners had heretofore been designated were abolished. The former designations of first assistant, second assistant, third assistant, and fourth assistant, should be restored to avoid confusion, the results of which the office is now experiencing.<br>Statistics show that 213 members of the examining corps of the Patent Office resigned during the last 10 years, from 1903 to 1912, inclusive, and that 24.8 per cent of these were fourth assistant examiners, while 49.76 per cent were third assistant examiners, a total of 74.56 per cent from the lowest and next to the lowest grades in the office. By the time a young man who has entered the office as a fourth assistant examiner has completed his course of law, and reached the grade of third assistant examiner, he has accumulated a valuable business asset in the way of practical knowledge acquired at Government expense. During the three or four years in which he has served as a fourth assistant examiner, and perhaps a third assistant examiner, he has gained an insight | | |

| into the arts and has obtained such a knowledge of patent law and practice that opportunities for greater success await him upon the outside. Prospects for advancement within the office are small, when he looks ahead and sees that within the last 10 years only 2.8 per cent of the resignations were by principal examiners, 3.28 per cent by first assistant examiners, and 19.2 per cent by second assistant examiners. To the ambitious young man the opportunity for advancement is practically closed, and, thus discouraged, he seeks outside employment, carrying with him a fund of knowledge which would be of inestimable value to the Government, and at once enters upon a professional career, where within a few years he attains a degree of success which would not be within his reach were he to remain in the Patent Office. The only way whereby these capable and ambitious young men can be induced to remain in the service will be to enlarge their opportunities for advancement to positions paying reasonable salaries. When this shall have been done, a greater degree of contentment will prevail throughout the younger members of the examining corps and an improvement of the highest value in the work of the Patent Office will be achieved. Looking to this end, it is asked that the number of first assistant examiners be increased from 63 to 86, that the number of second assistant examiners be increased from 73 to 86, that the number of third assistant examiners be decreased from 88 to 86, and that the number of fourth assistant examiners be decreased from 110 to 86, it being believed that this realignment of these positions will be productive of splendid results in the service, and that the desired degree of stability in the examining corps can not be secured without such readjustment of the numbers of assistant examiners in the various grades. Particular attention is called to the matter on pages 114 to 117 of the report of the investigation of the Patent Office by the President's Commission on Efficiency and Economy (62 Cong., 3d sess., H. Doc. 1110), treating this subject. | | | |
| Financial clerk, who shall give bonds in such amount as the Secretary of the Interior may determine (*acts Mar. 3, 1875, vol. 18, p. 365, sec. 1; June 19, 1878, vol. 20, p. 200, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | $2,250.00 | | |
| Librarian (*R. S., p. 75, sec. 440; act Mar. 4. 1913, vol. 37, p. 775, sec. 1*) | 2,000.00 | | |
| Six chiefs of division, at $2,000 each (*acts Mar. 3, 1883, vol. 21, p. 408, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 12,000.00 | | |
| Three assistant chiefs of division, at $1,800 each (*acts Aug. 5, 1882, vol. 22, p. 248, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 5,400.00 | | |
| Three additional assistant chiefs of division, at $1,800 each (*submitted*) | 5,400.00 | | |
| NOTE.—In the office organization are 6 clerical divisions, each presided over by 1 chief. However, there are but 3 assistant chiefs of divisions, and it has been necessary to detail clerks to act as assistant chiefs of 3 of the divisions. This unsatisfactory state of affairs should be remedied by increasing the number of assistant chiefs of division at $1,800 each by 3, so that the number of chiefs of division and of assistant chiefs of division may be equal, and each division be properly officered. | | | |
| Private secretary, to be selected and appointed by the commissioner (*acts June 17, 1910, vol. 36, p. 514, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 1,800.00 | | |
| Translator of languages (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 1,800.00 | | |
| Clerks— | | | |
| Nine of class 4 (*same acts*) | 16,200.00 | | |
| Nine of class 3 (*same acts*) | 14,400.00 | | |
| Seventeen of class 2 (*same acts*) | 23,800.00 | | |
| One hundred and thirty of class 1 (*same acts*) | 156,000.00 | | |
| Ninety, at $1,000 each (*same acts*) | 90,000.00 | | |
| Three skilled draftsmen, at $1,200 each (*same acts*) | 3,600.00 | | |
| Four draftsmen, at $1,000 each (*same acts*) | 4,000.00 | | |
| Messenger and property clerk (*same acts*) | 1,000.00 | | |
| Ninety copyists, at $900 each (*same acts*) | 81,000.00 | | |
| Fifty copyists, at $720 each (*same acts*) | 36,000.00 | | |
| Four messengers, at $840 each (*same acts*) | 3,360.00 | | |
| Twenty-five assistant messengers, at $720 each (*same acts*) | 18,000.00 | | |
| Forty-five examiners' aids, at $600 each (in lieu of 33 laborers, at $480 each, and 12 messenger boys, at $360 each; increase of $6,840 submitted) (*same acts*) | 27,000.00 | | |
| NOTE.—A redistribution of the positions of laborers and messenger boys is submitted, it being believed that a great increase in the efficiency of the service may be brought about at a comparatively small cost. It is desired to place in each of the examining divisions a young man who is to act as an examiner's aid, whose duties shall be to perform the miscellaneous work in the examining division, and thus conserve the time of men who are paid $1,500, $1,800, $2,100, $2,400, and $2,700 per year in doing, for several hours a week, work which may well be done by a young man at $600 per annum. | | | |
| Fourteen laborers, at $600 each (*R. S., p. 27, secs. 167–169; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*). | 8,400.00 | | |
| Twelve laborers, at $480 each (decrease of 33) (*same acts*) | 5,760.00 | | |
| NOTE.—The decrease of 33 laborers, at $480 each, is recommended in view of the estimate for examiners' aids, additional, submitted above. | | | |
| Forty messenger boys, at $360 each. (This grade to be dropped) (*same acts*). | | | |
| Twenty-five copy pullers, who shall be selected without regard to the apportionment, at $480 each (in lieu of 28 messenger boys, at $360 each) (*submitted*) | 12,000.00 | | |
| | | $1,377,470.00 | $1,311,010.00 |
| NOTE.—In place of the messenger boys who are employed in pulling copies, it is proposed to create the new position of copy pullers. Boys are not generally satisfactory in this work, and it is believed that adults may be secured at $480 per annum for this simple work. On account of the small salary, these copy pullers should be selected without regard to the apportionment. All that will be required of them will be merely to read consecutive numbers and draw copies from the stacks wherein such copies are stored. It is not intended that these copy pullers shall be eligible for promotion, inasmuch as their work will be limited to a very narrow scope, and there will be required little in the way of education. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Scientific Library, Patent Office*— | | | |
| For purchase of professional and scientific books and expense of transporting publications of patents issued by the Patent Office to foreign Governments (*R. S., p. 81, sec. 486; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | | | $2,500.00 |
| *Law Library, Patent Office*— | | | |
| For purchase of law and other reference books (*act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | | | 500.00 |
| *Scientific and Law Libraries, Patent Office*— | | | |
| For purchase of professional, scientific, law, and other reference books and publications; and expense of transporting publications of patents issued by the Patent Office to foreign Governments (*act Mar. 4, 1913, vol. 37, p. 775, sec. 1; submitted*) | | $5,000.00 | |
| NOTE.—An increase of $2,000 in the amount appropriated for library purposes is recommended, and a consolidation of the separate appropriations for the scientific library and the law library is suggested as a matter of economy and keeping of accounts. Considerable confusion has arisen heretofore in disposing of questions as to which appropriation certain books should be charged. The trouble will be eliminated by consolidating the appropriations. | | | |
| *Photolithographing, Patent Office*— | | | |
| For producing copies of the weekly issue of patents, designs, and trade-marks; for the reproduction of copies of drawings and specifications of exhausted patents and other papers (*act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | | 140,000.00 | 140,000.00 |
| *Public Use of Inventions and Defending Suits, Patent Office*— | | | |
| For investigating the question of the public use or sale of inventions for two years or more prior to filing applications for patents, and such other questions arising in connection with applications for patents as may be deemed necessary by the Commissioner of Patents; and for expense attending defense of suits instituted against the Commissioner of Patents (*act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | | 500.00 | 500.00 |
| *International Protection of Industrial Property, Patent Office*— | | | |
| For the share of the United States in the expenses of conducting the International Bureau at Berne, Switzerland (*act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | | 750.00 | 750.00 |
| NOTE.—The Patent Office is self-sustaining, and while the estimates scheduled call for an increase of 13 in the number of employees, and an increase of $68,460 in the amount appropriated, it will be remembered there have been surplus net earnings every year, until the amount of such surplus now in the Treasury exceeds $7,200,000. The surplus earnings over expenses for the fiscal year which has just closed were more than $158,000. | | | |
| BUREAU OF EDUCATION. | | | |
| *Salaries, Bureau of Education*— | | | |
| Commissioner (*R. S., p. 85, sec. 517; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | $5,000.00 | | |
| Assistant commissioner (*submitted*) | 4,500.00 | | |
| NOTE.—The duties of the office make it necessary for the commissioner to visit distant parts of the country and to be absent from the office frequently many days in succession. There should be an assistant commissioner to carry on the work of the office in his absence. The increase in the work of the office demands a much larger amount of supervision than has been necessary in the past. The assistant commissioner should be a specialist in secondary education and should serve also as the chief of a high-school division of the bureau. | | | |
| Chief clerk (*R. S., p. 75, sec. 440; act Mar. 4, 1913, vol. 37 p. 775, sec. 1*) | 2,000.00 | | |
| Increase (*submitted*) | 500.00 | | |
| NOTE.—The salary of the chief clerk is now the same as that fixed by the act of March, 1867, creating the bureau and is less than that of chief clerk in most of the bureaus in this and other departments. His duties require judgment, tact, and a broad knowledge of education. | | | |
| Specialist in higher education (*acts June 17, 1910, vol. 36, p. 515, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 3,000.00 | | |
| Increase (*submitted*) | 1,500.00 | | |
| NOTE.—It is impossible to retain the services of an efficient man in this position at the salary now paid, which is considerably less than that paid deans and full professors in the better colleges of the country. | | | |
| Additional specialists and clerks in higher education, including universities, colleges, colleges of agriculture and mechanic arts (land-grant colleges), schools of technology, schools for professional education, and normal schools (*submitted*) | 12,800.00 | | |
| NOTE.—This amount to be used as follows:<br>2 specialists, at $3,500 each ..... $7,000<br>1 specialist ..... 3,000<br>1 clerk of class 3 ..... 1,600<br>1 clerk of class 1 ..... 1,200<br>The interests of more than 600 colleges and universities, including 68 land-grant colleges expending annually more than $3,500,000 of Federal funds, for the proper auditing of which the bureau is responsible and of nearly 600 professional schools, 300 normal schools, and nearly 2,000 technical, commercial, and training schools require more attention than can be given by only one specialist and one clerk. There is particular need for an able man to give all his time and attention to the colleges of agriculture and mechanic arts for the negroes. | | | |
| For the investigation of rural education, industrial education, and school hygiene, including [salaries] *personal services in the District of Columbia and elsewhere* (*acts Mar. 4, 1911, vol. 36, p. 1217, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 15,000.00 | | |
| NOTE.—The words in italics should be substituted for the word "salaries" in brackets for the reason that more effective work can be done by specialists and clerks in these subjects if they can be located in the District of Columbia and travel at the direction of the commissioner than if they must be located in the field away from the District as is now required by Stat. 22, 255. | | | |

*Estimates of appropriations required for the service of the [illegible]ed.*

| General object (title of appropriation), date of acts, references to Statutes at Large, or to [illegible] required for each detailed object. | [illegible]unt appropriated for the fiscal year ending [illegible]e 30, 1914. |
|---|---|
| ***Salaries, Bureau of Education*—Continued.** | |
| Increase (*submitted*) | |

NOTE.—This amount to be used as follows:
For the investigation of rural education, $24,000, as follows:

| | |
|---|---|
| 1 chief of division of rural education and field service | |
| 2 specialists, at $3,500 each | |
| 2 specialists, at $3,000 each | |
| 2 assistants, at $2,000 each | |
| 1 clerk of class 4 | |
| 1 clerk of class 1 | |

Four specialists in rural education can do only a small fraction of the work needed in this division. They can [illegible] respond to one-fourth of the requests from State, county, and local school officials for information, advice, and assistance. The additional amount estimated will enable the bureau to respond to the more important and urgent of these demands. The salaries indicated in this note are necessary to obtain the services of competent specialists.

For the investigation of industrial education, $31,700, as follows:

| | |
|---|---|
| 1 specialist | $4,500 |
| 2 specialists, at $4,000 each | 8,000 |
| 1 specialist | 3,500 |
| 3 assistants, at $2,500 each | 7,500 |
| 2 assistants, at $2,000 each | 4,000 |
| 1 clerk of class 4 | 1,800 |
| 2 clerks of class 1 | 2,400 |

The most extensive and important demand on our schools and our systems of education is for such extension and readjustment as will enable them to give the industrial and vocational education needed and demanded by modern industrial life. Many requests come to this bureau for information and help which it is unable to give. There is need for a careful and fundamental study of the problems involved. This bureau is the proper agency for such study. The amount estimated will enable the bureau to make the study and to give the help needed and requested from all parts of the country.

For the investigation of school hygiene, $9,800, as follows:

| | |
|---|---|
| 1 specialist | $4,000 |
| 1 specialist | 3,000 |
| 1 clerk of class 3 | 1,600 |
| 1 clerk of class 1 | 1,200 |

The health of children is an important interest of the nation. The establishment of health is the first principle in education. Every community is interested in the sanitation of schoolhouses and grounds and the hygienic conduct of the school. Thousands of requests come to this bureau for information, advice, and direction which it is unable to give. The part-time services of one specialist in this subject are wholly inadequate. The sum estimated will enable the bureau to give much valuable help.

For the investigation of city school administration and education in city schools, including personal services in the District of Columbia and elsewhere (*submitted*) ..... 10,500.00

NOTE.—This amount to be used as follows:

| | |
|---|---|
| 1 specialist | $4,500 |
| 1 assistant | 3,000 |
| 1 clerk of class 4 | 1,800 |
| 1 clerk of class 1 | 1,200 |

The bureau has no specialist in city school systems and is unable to render any efficient service to the thousands of city school officials who apply to it. The amount estimated will not be sufficient for the full services needed but will be enough for a beginning.

For the investigation of the education of exceptional children, including personal services in the District of Columbia and elsewhere (*submitted*) ..... 8,800.00

NOTE.—This amount to be used as follows:

| | |
|---|---|
| 1 specialist | $4,000 |
| 1 assistant | 2,000 |
| 1 clerk of class 3 | 1,600 |
| 1 clerk of class 1 | 1,200 |

The better education of exceptional and abnormal children, including weak-minded and retarded children, children defective in moral sense and with criminal tendencies, cripples, the deaf, dumb, and blind, has become for teachers, school officials, publicists, and statesmen a problem not less important than difficult. This bureau fails in a large part of the purpose for which it was established unless it helps in the solution of this problem. The amount estimated will enable it to do this.

For the investigation of the education of adult illiterates, including personal services in the District of Columbia and elsewhere (*submitted*) ..... 10,000.00

NOTE.—This amount to be used as follows:

| | |
|---|---|
| 1 specialist | $3,000 |
| 2 specialists, at $2,000 each | 4,000 |
| 1 clerk of class 1 | 1,200 |
| 2 copyists | 1,800 |

There are in the United States more than 5,000,000 illiterate men and women and many millions barely able to read and write. This illiteracy is a burden and a menace to State and Nation. The States and local communities, individuals, and benevolent societies would cooperate in its reduction if practicable plans were worked out and demonstrated. The amount estimated will enable the bureau to begin this important work.

For the investigation of school and home gardening in cities and manufacturing towns, including personal services in the District of Columbia and elsewhere (*submitted*) ..... 5,700.00

NOTE.—For a large part of the children under 14 years of age in cities and manufacturing towns gardening done at home under the intelligent direction of the school is the best form of industrial education and might be made a most profitable occupation. There is only need for information, demonstration, and direction to make it common. The sum estimated is needed to enable the bureau to begin this work.

| *Salaries, Bureau of Education*—Continued. | | | |
| For the investigation of home education, including personal services in the District of Columbia and elsewhere (*submitted*) | $5,000.00 | | |
| NOTE.—The home is the primary and fundamental educational institution. Schools and other agencies are only supplementary. If education in the home fails no other agency can make good the failure. With our changing civilization and social and industrial life there is need for a more careful study of home education. The sum estimated is needed to enable the bureau to extend this work already begun in a small way. | | | |
| Specialist in educational theory and practice and director of investigations in education (*submitted*) | 4,000.00 | | |
| NOTE.—National, State, and local associations appoint many committees and States and cities create many commissions to investigate and report on various phases and problems of education. Many of these committees and commissions fail more or less completely for want of material and intelligent assistance and direction. The library of this bureau, one of the most complete of its kind in the world, contains large collections of materials for most of these investigation.. The specialist here estimated for could make these collections available and at the same time give the assistance and direction needed. His services would also be valuable to other specialists in the bureau and to hundreds of individual students of education upon whose investigations the country depends for most of its knowledge of education. | | | |
| Editor (*acts Mar. 4, 1909, vol. 35, p. 892, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 2,000.00 | | |
| Increase (*submitted*) | 1,000.00 | | |
| NOTE.—The editor's duties are very exacting and they require in addition to a knowledge of English and editorial technique, a broad and comprehensive knowledge of education and a wide acquaintance with educators in the United States and other countries. It is believed to be impossible to obtain the continued services of a man of the necessary qualifications at a salary less than that estimated. | | | |
| Assistant editor (*submitted*) | 2,200.00 | | |
| NOTE.—The editorial work of the office has increased fourfold within the last three years and must increase still more within the next year. This additional work demands an able assistant. | | | |
| Librarian (*submitted*) | 2,400.00 | | |
| NOTE.—The library of more than 140,000 volumes, reports, and pamphlets, and an annual accession of more than 10,000 pieces, is now under the direction of a clerk acting as librarian. The use of the library as a source library for students and schools in all parts of the country is increasing. There is great need for a skilled librarian in charge. | | | |
| Statistician (*R. S., p. 75, sec. 440; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 1,800.00 | | |
| Increase (*submitted*) | 200.00 | | |
| NOTE.—The increase in the complexity of school systems and the number of schools has added much to the duties and labors of the statistician. His compensation should be increased at least by the amount estimated. | | | |
| Specialist in charge of land-grant college statistics (*acts Mar. 2, 1905, vol. 28, p. 798, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 1,800.00 | | |
| Increase (*submitted*) | 400.00 | | |
| NOTE.—The continued services of a man capable of doing the work of this position can not be retained for the amount now paid. The position has been vacant three times in less than three years. The nature of the work is such that it can not be done effectively by a succession of new men. | | | |
| Translator (*R. S., p. 75, sec. 440; act Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 1,800.00 | | |
| Additional translator (*submitted*) | 1,800.00 | | |
| The bureau undertakes to keep the people of the United States informed as to the significant educational progress in all the more important countries of the world. Such information is necessary to the best development of our own system of education. An additional translator is needed for this work. | | | |
| Collector and compiler of statistics (*acts Aug. 5, 1882, vol. 22, p. 249, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*) | 2,400.00 | | |
| Two additional collectors and compilers of statistics, at $2,000 each (*submitted*) | 4,000.00 | | |
| NOTE.—Material for prompt and reliable statistical reports can not be issued by this bureau without frequent visits to State and city education offices and a first-hand study of their returns. For this two additional collectors and compilers of statistics are needed. | | | |
| One specialist in foreign and domestic systems of education (*submitted*) | 3,500.00 | | |
| Two assistants in foreign and domestic systems of education, at $1,800 each (*submitted*) | 3,600.00 | | |
| NOTE.—The specialist and two assistants in foreign and domestic systems of education should be in lieu of one specialist in foreign educational systems and one specialist in educational systems below. The full comparative study of foreign and domestic systems of education demanded by present conditions requires this enlargement and closer organization of this division of the bureau. | | | |
| Specialists: One in foreign educational systems and one in educational systems, at $1,800 each (*acts July 11, 1890, vol. 26, p. 260, sec. 1; Mar. 4, 1913, vol. 37, p. 775, sec. 1*). | | | |
| NOTE.—These are not included in the estimates. They are included above as two assistants in foreign and domestic systems of education. | | | |

| ***Salaries and Contingent Expenses, Offices of Surveyors General***—Continued. | | |
| NOTE.—In the wording of the proposed items of appropriations, all matter "italicized" is submitted as new law. That inclosed by "brackets" is to be omitted. | | |
| EXPLANATORY NOTE.—Unless the increased appropriation for clerk hire and for incidental expenditures in the offices of the surveyors general herein estimated for is granted there can be no office work performed in connection with mineral surveys, such as the preparation of plats, diagrams, and computation of field notes, inasmuch as the Comptroller of the Treasury, in a decision rendered Feb. 28, 1913, holds that such work must be performed by the regular salaried force of the offices of the surveyors general, who are already overburdened with agricultural and other work not mineral. The comptroller also holds that the deposits made by the applicants for such work from which the compensation of such office force is paid must be covered into the Treasury as revenues. In accordance with an agreement between the comptroller's office and the office of the Auditor for the Interior Department, the present practice, which has obtained for over 36 years, of paying these clerks direct from the deposits, has been permitted to be continued with the understanding that the matter shall be brought to the attention of Congress at the next regular session and an appropriation therefor included in the estimates. As first stated, if this comptroller's decision is adhered to, these clerks must be dismissed and all mineral office work discontinued unless the appropriation asked for is granted, or unless Congress in making the appropriations for the support of the offices of the surveyors general specifically provides that the clerk hire and other office expenses, including the purchase of necessary stationery and drafting instruments, and rent of additional quarters necessary for the execution of surveys applied for by applicants under the provisions of the several statutes referred to in the above estimates shall be paid for out of the moneys deposited to the credit of the United States to cover the cost of such work. Attention is invited to the fact that the "janitors" appropriated for in the Utah and Washington offices are performing messenger work and they should be designated as messengers. | | |
| [Proposed Consolidated Appropriations.] | | |
| NOTE.—It is recommended that the above appropriations relating to the offices of the surveyors general be consolidated in accordance with the following form: | | |
| SURVEYORS GENERAL AND THEIR CLERKS. | | |
| *Salaries, Offices of Surveyors General*— | | |
| For salary of surveyor general and ex officio secretary of the Territory of Alaska, at $4,000 per annum (*act Mar. 4, 1913, vol. 37, p. 777, sec. 1*) | $4,000.00 | |

| *Contingent Expenses, Offices of Surveyors General*—Continued. | | | |
| the regular annual appropriations made for the support of the offices of the surveyors general, and that the deposits made by the applicants to defray the cost of such work should be covered into the Treasury as "Miscellaneous receipts" in order to harmonize the expenditures in said offices with the provisions of sections 2226 and 2227, Revised Statutes. Unless the additional appropriations asked for herein are granted it will be impossible for the surveyors general to comply with the requirements of the Comptroller's decision, and in order to execute the work for which the deposits are made it will be necessary for Congress in making the appropriations for the support of the offices of the surveyors general to specifically provide that the clerk hire and other office expenses, including the purchase of necessary stationery and drafting instruments, and rent of additional quarters necessary for the execution of surveys applied for by applicants under the provisions of the several statutes referred to in the above estimates, shall be paid for out of the moneys deposited to the credit of the United States to cover the cost of such work. | | | |
| NOTE.—Heretofore 26 separate appropriations have been made for salaries and contingent expenses of officers of surveyors general, necessitating much extra bookkeeping, liabilities of errors in designating appropriations, and numerous other inconveniences. If the 26 appropriations are consolidated into the two above recommended it will greatly reduce the accounting and bookkeeping work. A lump-sum appropriation has already been made for district land offices, and it should be adopted for the offices of surveyors general, as much better results can be obtained in the administration of said offices by a consolidated appropriation for the support thereof. Aside from the surveys applied for under the deposit system, the amount of work to be performed in the offices of the surveyors general is determined by the amount of surveys executed under the regular annual appropriations for surveys, which lump-sum appropriation is allotted to the several States as the conditions therein seem to require from time to time. Yet the appropriations for clerk hire and incidental expenses are fixed annual amounts for the individual offices. The surveys applied for in one State may be three times the amount applied for in an adjoining State, while the office appropriation for the one may be equal to the corresponding appropriation for the other. Should the appropriations for the offices of the surveyors general be made in accordance with this consolidated estimate there would be no occasion for the work in any one office to fall in arrears for want of office force.—*Clay Tallman, Commissioner.* | | | |

| *Salaries and Expenses, Special Attorneys, etc., Bureau of Corporations—* | | | |
| For compensation and per diem, to be fixed by the Secretary of Commerce, of special attorneys, special examiners, special agents, and other employees, for the purpose of carrying on the work of said bureau, as provided by the act approved Feb. 14, 1903, entitled "An act to establish the Department of Commerce and Labor," the per diem to be subject to such rules and regulations as the Secretary of Commerce may prescribe, in lieu of subsistence, at a rate not exceeding $4 per day to each of said special attorneys, special examiners, special agents, and also of other officers and employees of the Bureau of Corporations while absent from their homes on duty outside of the District of Columbia, and for their actual necessary traveling expenses, including necessary sleeping-car fares; in all (*acts Feb. 14, 1903, vol. 32, p. 827, sec. 6; Mar. 4, 1913, vol. 37, p. 782, sec. 1*)..... | | 475,500.00 | 175,000.00 |

NOTE.—The increase is due entirely to the plan projected for additional work to be done by the Bureau of Corporations. This plan has to do with:

First. *The facts on stock and bond issues, holding companies, interlocking directorates, etc.*—The organic act of the Bureau of Corporations provides that "the commissioner shall have power and authority to make, under the direction and control of the Secretary of Commerce, diligent investigation into the organization, conduct and management" of the business of any corporation doing an interstate or foreign business, excepting common carriers. Under this power the Bureau of Corporations could procure reports for file and public record from every corporation doing an interstate business on certain essentials with reference to its organization, management, or control, including the amount and character of its stock issue: the physical value of its properties, the amount of promotion stock issued on organization, the amount of bonds issued, whether bonus in stock was issued to float the bonds, the present value of its property, whether as a holding company it controls other corporations, whether its stock is held by some other corporation that controls its management and policy, the names of its directors, whether its directors hold offices in other corporations, and similar information which will tend to disclose whether its stock is "watered," whether it is affiliated with and controls or is controlled by other interlocking directorates, etc. There is no Government agency procuring these facts. The Bureau of Corporations would propose to do this work unless some other agency were provided by law.

Second. *The economy and efficiency of trusts.*—One of the alleged advantages claimed by monopoly, by which it is claimed that monopoly is justified as an ultimate fact in industrial evolution, is the alleged cheapness of its production. The question is whether the trust form of organization is really efficient. If it be found that smaller competitive units in industry can produce commodities more cheaply or as cheaply as monopolistic units, and that they have other and equal advantages claimed for the monopolistic or trust system, then the problem is finally settled in favor of the competitive system, and the chief argument for the regulation of monopoly is destroyed. This is a scientific question of fact, and it is the plan of the Bureau of Corporations to investigate the question. It is a very large and serious undertaking and will require a very large increase in the force and some change in the character of service of the Bureau of Corporations. We may not be able to solve the problem dogmatically, but we can adduce a great body of facts which will throw light upon the question. Forty or fifty additional special investigators and as many expert accountants ought to be provided for this work.

Both of these plans involve large increases in the filing, computing, and statistical divisions and for traveling expenses.

Third. *Interstate corporations and conflicting State laws.*—There is a wide divergence and conflict in the laws of the States, respectively, with reference to the conditions imposed upon foreign corporations doing business in the several States. A comparative study of such laws of the various States is anticipated in the hope of bringing about a more uniform system in the regulation of foreign corporations doing an interstate business. The laws as to commercial paper and the laws pertaining to divorce have been largely made uniform among the States by the publication of facts. A similar condition will result, it is believed, with reference to interstate foreign corporate business, to the great benefit and advantage of the business community, if the facts are made public.

The investigations continuing from the previous administration, such as the "harvester," "steel," "tobacco," "water transportation," etc., still remain to be completed. In addition thereto, there are the investigations directed by Congress since the 4th of March last, such, for instance, as the "cotton pool," "Oklahoma oil," and "fertilizers," as well as the investigations upon the question of "trade agreements," "fixed price on resale of articles," and similar investigations with which you are conversant and in which you are interested.

To continue the routine work of the bureau along these lines and to engage as well in constructive work along the larger lines hereinbefore outlined, constitutes the reasons for asking for this increase in appropriation.

| *Salaries, Bureau of the Census*—Continued. | | |
| NOTE.—There is a decrease of 3 in the number of clerical places, 1 at $1,380, 1 at $1,200, and 1 at $900. For these places estimates are made at $1,400, $1,200, and $900 under the appropriation "Salaries, Office of Secretary of Commerce," to take care of 3 employees now on detail to the office of the Secretary. The change in rates of compensation in the clerical grades is recommended, as such change will result in a more economical and efficient handling of the force.<br>The following is the arrangement in which the clerical places now appear in the appropriation act for 1914 fiscal year:<br>11 clerks of class 4.<br>20 clerks of class 3.<br>39 clerks of class 2.<br>305 clerks of class 1.<br>83 clerks at $1,000 each.<br>86 clerks at $900 each.<br>544<br>The number of clerical places provided in the estimates is 541, which, taking into consideration the 3 places estimated for in the Secretary's office, equals the number of clerical places appropriated for in the fiscal year 1914. | | |
| *Collecting Statistics, Bureau of the Census*—<br>For securing information for census reports, provided for by law, semimonthly reports of cotton production, periodical reports of stocks of baled cotton in the United States and of the domestic and foreign consumption of cotton; per diem compensation of special agents and expenses of the same and of detailed employees, whether employed in Washington, D. C., or elsewhere; the cost of transcribing State, municipal, or other records; the temporary rental of quarters outside of the District of Columbia; for supervising agents, and the employment by them of such temporary service as may be necessary in collecting the statistics required by law; including the expenses of attendance of officers or employees of the Bureau of the Census at meetings or conventions of members of societies or associations, but only on the written authority and direction of the Secretary of the Department of Commerce: *Provided*, That the compensation of not to exceed 5 special agents provided for in this paragraph may be fixed at an amount not to exceed $6 per day (increase of $571,000 submitted) (*acts Mar. 6, 1902, vol. 32, p. 51, secs. 1–12; Feb. 14, 1903, vol. 32, p. 826, sec. 4; May 22, 1909, vol. 35, p. 239, sec. 1; Apr. 30, 1912, vol. 37, p. 106, secs. 1–7; July 22, 1912, vol. 37, p. 198, secs. 1–6; Mar. 4, 1913, vol. 37, p. 784, sec. 1* | $925,000.00 | $354,000.00 |
| NOTE.—The principal purposes for which this appropriation in 1915 is intended and the approximate expenditures and personnel required in connection with each, with comparable information so far as possible to give the same are as follows:<br>Census of manufactures, $566,400. The last previous census of manufactures was taken in 1909 at a cost for field work of $517,044. The increased cost is largely accounted for by the fact that the census of manufactures in 1909 was taken in connection with other field work, which greatly reduced the cost of each branch of the work. Of the total it is estimated that the transportation of employees will cost $71,000; subsistence, $144,960; office expenses in principal cities, $3,000; and salaries of special agents, $347,440, divided as follows: | | |

| | |
|---|---|
| 10 agents, at $6 per day for 80 days | $4,800 |
| 32 agents, at $5 per day for 80 days | 12,800 |
| 38 agents, at $4.50 per day for 80 days | 13,680 |
| 15 agents, at $4 per day for 80 days | 4,800 |
| 1,112 agents, at $3.50 per day for 80 days | 311,360 |

Cotton statistics, $261,800. This covers the cost of collecting statistics of cotton for which payment is made on a piece price basis to 753 local agents, which payments vary from $25 to $800 each, dependent upon the number of gins reported and the number of reports, $257,500; for travel and subsistence of office employees, $2,800; and for telegraphing reports, $1,500. The corresponding figure for 1914 was $262,500, and 740 local agents.

Tobacco statistics, $5,740. This amount is for travel and subsistence of office employees in collecting statistics. The corresponding figure for 1914 was $7,000.

Transcripts of records of deaths, $33,460. Covers the cost of transcribing records of deaths in registration areas for which payment is made on a piece price basis to 64 local agents, payments varying from $2 to $3,600 each, dependent upon the number of deaths occurring in the district for which the agent makes the reports. The corresponding figure for 1914 was $30,000, which amount is increased in the estimates for 1915 by the sum of $3,460, for travel and subsistence of employees inspecting registration work and in extending the registration areas.

Transcripts of records of births, $18,000. This is asked for in order to resume the publication of these statistics which have not been collected since 1911.

Statistics of cities, $24,000. This is exclusively for the travel and subsistence of clerks detailed for field work in collecting these statistics. The corresponding figure for 1914 was $23,500.

Expert special agents, $15,600. This is for the payment of expert special agents at salaries of not to exceed $6 per day each, except in the case of 5 who may be employed at not to exceed $8 per day. These experts are employed only at such times and for such periods as the office may require and it is impossible to give the number of each or the length of service that may be required of any of them. The corresponding figure for 1914 was $20,000, which amount has been reduced $4,400 to provide for two assistant statisticians at $2,200 each.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Clerk Hire, Steamboat-Inspection Service*— | | | |
| For the compensation, not exceeding $1,800 a year to each person, of clerks to boards of steamboat inspectors, to be appointed by the Secretary of Commerce in accordance with the provisions of section 4414, Revised Statutes, the act of Apr. 9, 1906 (34 Stats., 108), and the act of Mar. 4, 1911 (increase of $10,220 submitted) (*act Mar. 4, 1913, vol. 37, p. 785, sec. 1*) | | $93,220.00 | $83,000.00 |
| NOTE.—The department recommends the changing of the limitation of salaries of clerks to boards of steamboat inspectors from $1,500 to $1,800, as it considers that some of the clerks acting as chief clerks should receive higher compensation. This will involve an increase in appropriation of $7,000. Four additional clerks, at $900 each per annum, also are desired for offices where the volume of work is now so great as to make it hard to handle. | | | |
| *Contingent Expenses, Steamboat-Inspection Service*— | | | |
| For the payment of fees to witnesses; for traveling and other expenses when on official business of the Supervising Inspector General, supervising inspectors, traveling inspectors, local and assistant inspectors, and clerks; for instruments, furniture, stationery, janitor service, and every other thing necessary to carry into effect the provisions of title 52, Revised Statutes, of the act of Apr. 4, 1888, amending the act of June 19, 1886, as amended by the acts of Mar. 1, 1895, Feb. 15, 1897, Mar. 3, 1905, Apr. 9, 1906, and May 28, 1908 (decrease of $7,500 submitted) (*acts Apr. 4, 1888, vol. 25, p. 80, sec. 2; June 19, 1886, vol. 24, p. 79, sec. 1; Mar. 1, 1895, vol. 28, p. 699, sec. 1; Feb. 15, 1897, vol. 29, p. 530, sec. 1; Mar. 3, 1905, vol. 33, p. 1026, secs. 1, 2; Apr. 9, 1906, vol. 34, p. 106, sec. 1; May 28, 1908, vol. 35, p. 428, secs. 1–15; Mar. 4, 1913, vol. 37, p. 785, sec. 1*) | | 82,500.00 | 90,000.00 |
| NOTE.—Increased expenditures under this appropriation will amount to $7,500, $3,000 for expenses of the Los Angeles office created by the act of Congress approved Mar. 4, 1913 (37 Stats., 1013); $4,500 for expenses of two traveling inspectors, request for which is made in the estimates under salaries. A reduction of $15,000 is made under this item on account of saving made by a change in the law reimbursing travel on actual expense basis instead of mileage; net reduction, $7,500. | | | |
| BUREAU OF NAVIGATION. | | | |
| *Salaries, Bureau of Navigation*— | | | |
| Commissioner (*acts July 5, 1884, vol. 23, p. 118, secs. 1–7; Feb. 14, 1903, vol. 32, p. 826, sec. 4; Mar. 4, 1913, vol. 37, p. 785, sec. 1*) | $4,000.00 | | |

| | | $312,780.00 | $290,940.00 |
| *Provided*, That apprentices may be promoted after satisfactory apprenticeship with the approval of the Civil Service Commission to positions corresponding to the journeyman grades for which their duties logically prepare them without regard to apportionment: *Provided*, That they thus acquire no rights to transfer to other lines of work. | | | |
| NOTE.—In several cases the order of positions has been changed in order to segregate the positions according to the four lines of work done at the bureau, namely, scientific, clerical, construction, and operation. | | | |
| *Equipment, Bureau of Standards*— | | | |
| For apparatus, machinery, tools, and appliances used in connection with the buildings or with the work of the bureau, laboratory supplies, materials, and supplies used in the construction of apparatus, machinery, or other appliances, including their exchange; piping, wiring, and construction incident to the installation of apparatus, machinery, or appliances; furniture for laboratories and offices, cases for apparatus $60,000, of which $10,000 is to be immediately available (increase of $10,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | | 60,000.00 | 50,000.00 |
| *Repairs and Alterations, Bureau of Standards*— | | | |
| For repairs and necessary alterations to buildings (increase of $2,000 submitted) (*same act*) | | 4,000.00 | 2,000.00 |
| NOTE.—This increase of $2,000 is made necessary by the fact that it will be necessary to repaint the interiors of the several buildings. Some mechanical alterations are necessary, owing to the rearrangement of space incident to the completion of the new electrical laboratory. | | | |
| *General Expenses, Bureau of Standards*— | | | |
| For fuel for heat, light, and power; office expenses, stationery, books and periodicals (subscriptions to periodicals may be paid in advance); traveling expenses (including expenses of attendance upon meetings of technical and professional societies when required in connection with standardization, testing, or other official work of the bureau); street car tickets not exceeding $100; expenses of the visiting committee; expenses of attendance of American member at the meeting of the International Committee of Weights and Measures; and contingencies of all kinds, including a delivery wagon ($2,500 to be immediately available for the purchase of fuel) (increase of $5,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | | 30,000.00 | 25,000.00 |
| NOTE.—The increase of $5,000 is due to the large amount of light, heat, and power necessarily caused by the addition of the new electrical laboratory, of which $2,500 should be made immediately available for the purchase of fuel. | | | |
| *Improvement and Care of Grounds, Bureau of Standards*— | | | |
| For grading, construction of roads and walks, piping grounds for water supply, lamps, wiring for lighting purposes, and other expenses incident to the improvement and care of grounds (increase of $7,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | | 10,000.00 | 3,000.00 |
| NOTE.—This increase is required for the purpose of constructing roads and other permanent improvements on the grounds, which could not be made heretofore, and on account of additions to the site. | | | |
| *High Potential Investigation, Bureau of Standards*— | | | |
| To investigate the dangers to life and property due to the transmission of electric currents at high potentials, and the precautions to be taken and the best methods of construction, installation, and operation to be followed in the distribution and return of such currents, in order to reduce to a minimum such dangers; also to investigate the best means of protecting life and property from lightning, including personal services in the District of Columbia and in the field (*act Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | | 15,000.00 | 15,000.00 |
| NOTE.—This fund is required to continue the investigation concerning the dangers to life and injury to property arising in connection with the use of electricity for light, power, transportation, and other purposes. There is great need of improvement in many respects in electrical practice—to reduce the danger to linemen, station employees, operators of electrical machinery, and the public generally. The bureau is securing the cooperation of manufacturers in improving the design and construction of electrical apparatus so as to reduce the danger to life; of constructing engineers to the end of securing the use of better materials and installing dangerous apparatus with greater thought as to the life hazard; of operating companies in securing the adoption of stricter rules for the protection of employees and in educating employees as to the danger, providing them with more and better protective devices; of public-service commissions and city officials in adopting more complete regulations and having more frequent inspections.<br>The work of the bureau is largely to prepare standard rules and specifications which shall be suitable for general use and to secure their adoption and enforcement by State and city officials. In this work it is necessary to consult all the interests affected and to make a thorough study of working conditions in order to determine what is needed and what is practically obtainable. A good beginning has been made in the work; but it should be carried much further. | | | |
| *Refrigeration Constants, Bureau of Standards*— | | | |
| For investigations incident to the establishment of units and standards of refrigeration, and the determination of the physical constants of materials used in the refrigeration industries, such as ammonia, aqueous ammonia solutions, carbonic acid, brines, and so forth, and the determination of the thermal conductivities of materials, including personal services in the District of Columbia and in the field (*acts Aug. 24, 1912, vol. 37, p. 476, sec. 1; Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | | 15,000.00 | 15,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Testing Machines, Bureau of Standards—* | | |
| For the maintenance and operation of testing machines, including personal services in connection therewith in the District of Columbia and in the field, for the determination by the Bureau of Standards of the physical constants and the properties of materials as authorized by law (*acts June 25, 1910, vol. 36, p. 765, sec. 1; Mar. 4, 1913, vol. 37, p. 787, sec. 1*)..... | $30,000.00 | $30,000.00 |
| *Investigation of Fire-Resisting Properties, Bureau of Standards—* | | |
| For the investigation of fire-resisting properties of building materials and the conditions under which they may be most efficiently used, including personal services in the District of Columbia and in the field (*act Mar. 4, 1913, vol. 37, p. 787, sec. 1*)..... | 25,000.00 | 25,000.00 |
| *Radio Communication, Bureau of Standards—* | | |
| For the investigation and standardization of methods and instruments employed in radio communication, including personal services in the District of Columbia and in the field (*submitted*)..... | 10,000.00 | |
| NOTE.—This fund is needed to enable the bureau to maintain a suitable laboratory for the testing of instruments used in radio communication and to make such investigations as are necessary in order to render the assistance required by the War and Navy Departments in their work in radio communication, and to cooperate effectively with the Bureau of Navigation in enforcing Federal laws covering radio communication. These laws specify the wave length, damping, and power of the electric waves employed in radio communications, on shipboard and on land, and the instruments and methods used in testing the apparatus are investigated and approved by the Bureau of Standards. | | |
| *Standard Materials, Bureau of Standards—* | | |
| For the purchase, preparation, analysis, and distribution of standard materials to be used in checking analytical methods and calibrating physical apparatus, including personal services in the District of Columbia and in the field (*submitted*)..... | 5,000.00 | |
| NOTE.—This fund is needed to enable the bureau to maintain on a permanent and independent basis its series of standard samples of determined composition or high purity. Of such samples the bureau now issues 38, and the number will increase greatly in consequence of an incessant and enlarging demand.<br>There is a growing tendency in commercial and Government circles to base purchases of material on chemical analysis. Analytical operations are, however, all affected by errors, due to a variety of causes, which the utmost skill and care on the part of the operator can not altogether eliminate. By the use of certain of these accurately analyzed samples analysts may check both the correctness of the methods used by them and their skill as analysts, and, on the other hand, employers may obtain information on the character of the work done by their employees. Instructors and students in educational institutions also need aids of this kind, for otherwise neither can obtain any clear idea of the skill imparted and acquired. Certain other samples serve as standards for the preparation of volumetric solutions or as reference standards for checking calorimetric tests of fuels and other combustible substances. The first cost of materials is often large and their preparation and analysis or purification involve much additional expense. As stock becomes depleted, it must be renewed.<br>However conscientiously such materials might be prepared by private concerns, the public would not place in them the confidence that is accorded to samples issued by the Bureau of Standards. The bureau distributes these samples at approximate cost. During the past fiscal year 1,857 were called for. | | |
| *Investigation of Problems in Connection with Public Utilities, Bureau of Standards—* | | |
| For the investigation of the standards and methods of measurement and for determination of the quality and cost of service required in the regulation by States and cities of public utility companies, such as electric light and power companies, city and interurban electric railway companies, telephone companies, gas companies, water companies, and other public utility companies; and for furnishing technical data and expert advice to State and city officials, upon request, in connection with the regulation or operation of public utilities, or of the fulfillment of municipal contracts for street lighting, water, gas, or electric power, etc., including personal services in the District of Columbia and in the field (*submitted*)..... | 100,000.00 | |
| NOTE.—This fund is needed to enable the bureau to carry on investigations and to fix standards of service in connection with electric lighting and power distribution, telephone communication, electric street and interurban railway transportation, gas for heat, light, and power, and other public utilities that will be of assistance to the public service commissions of the States and to city authorities in the regulation and control of these utilities. For the Federal Government, through the Bureau of Standards, to cooperate with and assist the State commissions in their technical work would not mean that the Federal Government would infringe upon the authority of the States. The Bureau of Standards would do its work in this connection, as elsewhere, without attempting to exercise any legal authority. There is a wide field for its activities in carrying on and publishing investigations of a technical character for the purpose of establishing standards and methods that may be adopted generally by the State commissions. Uniformity of requirement and practice is greatly needed, and without some coordinating agency it will be hard to secure such uniformity. The bureau can not formulate satisfactory rules and standards without consulting with the commissioners and with utility companies in all parts of the country in order to become familiar with conditions and requirements in different sections of the country and to ascertain the views of the various commissioners and utility companies. A considerable force of able and experienced engineers and other experts will be required for this work, as well as funds for traveling and other expenses. The cost will, however, be far less than if each State attempts to do this work for itself, and the effects will be to secure greater uniformity and better results than could be obtained without such cooperative assistance by the Federal Government.<br>It is of great importance that all the commissions be in possession of full technical information in regard to the utilities which they are required to regulate in order that they may act intelligently and justly as between the utility companies and the public. | | |
| *Investigation of Metal Failures, Bureau of Standards—* | | |
| For the investigation of the materials used in the construction of rails, wheels, axles, and other railway equipment, and the cause of their failure, including personal services in the District of Columbia and in the field (*submitted*)..... | 30,000.00 | |
| NOTE.—The large loss of life and property due to failures of rails, wheels, axles, and other railway equipment make it imperative that the bureau undertake such investigations regarding the properties of these materials as will assist manufacturers in the improvement of their quality and provide the necessary technical data for the use of the Interstate Commerce Commission in formulating regulations regarding railroad equipment. | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

| *Investigation of Textiles, Paper, Leather, and Rubber, Bureau of Standards—* | | |
| For the investigation of the properties of textiles, paper, leather, and rubber with reference to the development of standards of quality and methods of measurement, including personal services in the District of Columbia and in the field (*submitted*) | $15,000.00 | |
| NOTE.—The increased tendency on the part of the Government and the public to purchase textiles, paper, leather, and rubber according to specifications and tests, makes it necessary for the bureau to develop standards of quality and methods of testing. This is especially important in view of the fact that laws and regulations are rapidly being prepared and enacted regarding the branding and quality of these materials, both of which involve standards and methods of testing. | | |
| *Color Standards, Bureau of Standards—* | | |
| For the development of color standards and methods of color measurements, with especial reference to their use in the industries, including personal services in the District of Columbia and in the field (*submitted*) | 7,500.00 | |
| NOTE.—The industries engaged in the manufacture of paper, textiles, dairy products, oils, dyes, inks, and many others, are in urgent need of primary and secondary color standards satisfactory for their proper use; development of such standards to enable the industries further to define any given color. | | |
| *Alteration of Mechanical Laboratory, Bureau of Standards—* | | |
| For necessary alterations to the mechanical laboratory, including an additional story, to be immediately available and remain available until expended (*submitted*) | 50,000.00 | |
| NOTE.—It is proposed to convert the attic of the mechanical laboratory to provide more space for the mechanical plant and instrument shop. | | |
| *Testing Structural Materials, Bureau of Standards—* | | |
| For the continuation of the investigation of the structural materials, such as stone, clays, cement, etc., investigation of the methods of measurement and technical processes in the manufacture of pottery, brick, tile, terra cotta, and other clay products, and the study of the properties of the materials used in that industry, and for the investigation of the properties of building stone, with special reference to its use as a material of construction, including personal services in the District of Columbia and in the field (increase of $50,000 submitted) (*acts June 25, 1910, vol. 36, p. 765, sec. 1; Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | 125,000.00 | $75,000.00 |
| NOTE.—The present appropriation is entirely inadequate to meet the demands for testing on the part of the Government departments and bureaus. The amount requested is necessary in order that facilities for doing this work may be increased, especially in many lines where there is great need for the development of standard specifications and suitable methods of measurements.<br>The pottery, brick, tile, terra-cotta, and other industries engaged in the production of clay products are greatly in need of reliable and authoritative data concerning the properties of these products and the materials which enter into them. In few industries is there any greater opportunity of the improvement by the application of precise measurements and of scientific knowledge of the nature of the products.<br>With reference to building stone very little and definite reliable information exists regarding the properties and character of building stones. It is desired to make an investigation of the properties of the principal kinds of building stones with a view to giving more reliable data as to their nature as building materials. | | |
| *Testing of Miscellaneous Materials, Bureau of Standards—* | | |
| For the testing of miscellaneous materials, including the supplies for the Government departments and independent establishments, including personal services in the District of Columbia and in the field, as authorized by law (*submitted*) | 20,000.00 | |
| NOTE.—At the instance of the Secretary of Agriculture, the Bureau of Standards will provide for the work heretofore done by the contracts laboratory and such other testing of materials as falls within the field of the work of the Bureau of Standards. The amount estimated for above is somewhat less than that required for the work heretofore, and appropriation for this work in the Department of Agriculture will hereafter be omitted. | | |
| *Equipment of Extra Laboratory Rooms, Bureau of Standards—* | | |
| For the equipment of extra laboratory rooms in the additional story to be added to the mechanical laboratory, to be immediately available, and to be available until expended (*submitted*) | 10,000.00 | |
| NOTE.—The additional space is required to provide for the testing of materials heretofore done by the Department of Agriculture, but to be transferred to the Bureau of Standards. The necessary increase in the other chemical work of the bureau also calls for additional space and its equipment as soon as possible.<br>NOTE.—The estimate of the Secretary of Commerce for "Printing and binding," under sec. 2, act of May 8, 1872 (Rev. Stat., 720, sec. 3661), will be found under the title of "Miscellaneous," *post*.<br>NOTE.—For report of the Secretary of Commerce as to detailed clerks, condition of business, etc., see Appendix C. | | |

| One cabinetmaker, at $1,000 (*submitted*) | 1,000.00 | | |
| One chief watchman, at $900 (*submitted*) | 900.00 | | |
| Four watchmen, at $720 each (3 transferred from office of Secretary of Commerce and 1 additional submitted) (*act Mar. 4, 1913, vol. 37, p. 736, sec. 6*) | 2,880.00 | | |
| Ten charwomen, at $240 each (5 transferred from office of Secretary of Commerce and 5 additional submitted) (*same act*) | 2,400.00 | | |
| Two conductors of elevators, at $720 each (*submitted*) | 1,440.00 | | |
| | | $114,040.00 | [1] $63,217.50 |

NOTE.—[1] Of this amount $24,397.50 was transferred from the appropriation for "Salaries, office of Secretary of Commerce," $4,717.50 represents the salaries attached to positions transferred from Oct. 16, 1913, to June 30, 1914, $19,680 represents the salaries of positions transferred for the entire fiscal year. The positions transferred from the office of the Secretary of Commerce carry with them annual salaries amounting to $26,340.

Twenty-nine thousand four hundred dollars was appropriated by act approved May 1, 1913, for the fiscal year 1914. The urgent deficiency act, approved Oct. 22, 1913, provided positions at annual rate of $12,560 and appropriated $9,420 for said positions for period from Oct. 1, 1913, to June 30, 1914.

*Contingent Expenses, Department of Labor—*

For contingent and miscellaneous expenses of the offices and bureaus of the department, for which appropriations for contingent and miscellaneous expenses are not specifically made, including the purchase of stationery, furniture and repairs to the same, carpets, matting, oilcloth, file cases, towels, ice, brooms, soap, sponges, laundry, street-car tickets, lighting and heating; for the purchase, exchange, and care of vehicles, to be used only for official purposes; freight and express charges, postage to foreign countries, telegraph and telephone service, typewriters and adding machines, including their exchange; machinists' and carpenters' tools and supplies; repairs to the building occupied by the office of the Secretary of Labor (increase of $8,900 submitted) (*acts Mar. 4, 1913, vol. 37, p. 736, secs. 1–11; Oct. 22, 1913, vol. 38, p. 225, sec. 1*) ..... 45,000.00 [2] 36,100.00

And in addition thereto such sum as may be necessary, not in excess of $13,500, to facilitate the purchase through the central purchasing office as provided in the act of June 17, 1910 (36 Stat. L., p. 531) of certain supplies for the Immigration Service, shall be deducted from the appropriation "Expenses of regulating immigration" made for the fiscal year 1915 and added to the appropriation "Contingent expenses, Department of Labor," for that year; and the total sum thereof shall be and constitute the appropriation for contingent expenses for the Department of Labor, to be expended through the central purchasing office (Division of Publications and Supplies), Department of Labor.

NOTE.—[2] Of this amount, $26,100 was transferred from the Department of Commerce.

| COURT OF CLAIMS. | | |
| *Salaries, Court of Claims—* | | |
| Chief Justice, at $6,500, and four judges, at $6,000 each (*R. S., p. 194, sec. 1049; acts Feb. 12, 1903, vol. 32, p. 825, sec. 1; Mar. 4, 1913, vol. 38, p. 790, sec. 1*) | 30,500.00 | |
| Chief clerk (*R. S., p. 194, sec. 1054; act Mar. 4, 1913, vol. 38, p. 790, sec. 1*) | 3,500.00 | |
| Assistant clerk (*same acts*) | 2,500.00 | |
| Bailiff (increase of $300 submitted) (*acts June 7, 1870, vol. 16, p. 148, sec. 1; Mar. 4, 1913, vol. 38, p. 790, sec. 1*) | 1,800.00 | |
| NOTE.—The salary of the bailiff of this court was fixed at $1,500 per annum by the act of 1870 (16 Stats., 148), and although the duties of the office have greatly increased since that time the salary has remained the same. The office is identical with that of marshal in the other Federal courts. This is deemed a meritorious increase and is in accord with the increase allowed by the Senate in the last two appropriation bills. | | |
| One clerk (*act Mar. 4, 1913, vol. 38, p. 790, sec. 1*) | 1,600.00 | |
| Two clerks, at $1,800 each (increase of $400 each submitted; in lieu of two clerks, at $1,400 each, dropped) (*same act*) | 3,600.00 | |
| NOTE.—These men are really stenographic clerks to the judges. They are first-class stenographers, and besides their clerical duties in chambers take dictation from all of the judges. One of them is an experienced court reporter, and when called upon to do so takes arguments of counsel in court, testimony, and other matter requiring a verbatim report. The other has charge of matters pertaining to the French Spoliation jurisdiction and assists the judges in preparing the findings in that class of cases. Their work is confidential and frequently requires their presence after office hours. The pay of stenographic clerks or secretaries to judges of other courts and the general efficiency of these men warrant the court in asking for the increase. | | |
| One clerk, at $1,400 (a decrease of 2, as above) (*same act*) | 1,400.00 | |
| Two clerks, at $1,200 each (*same act*) | 2,400.00 | |
| One stenographer (*same act*) | 1,200.00 | |
| Chief messenger (*same act*) | 1,000.00 | |
| Two assistant messengers, at $720 each (*same act*) | 1,440.00 | |
| Three firemen, at $720 each (*same act*) | 2,160.00 | |
| One captain of the watch, at $1,000 (in lieu of 1 watchman at $720 dropped, an increase of $280 submitted) (*same act*) | 1,000.00 | |
| NOTE.—The custody of the building occupied by the Court of Claims is under the direction of the court, with a custodian, but there are three watchmen of equal grade and the court deems it wise to designate one of them as captain of the watch, upon whom greater responsibility may be imposed for the more efficient care of the building. | | |
| Two watchmen, at $720 each (a decrease of 1, as above) (*same act*) | 1,440.00 | |
| One elevator conductor (*same act*) | 720.00 | |
| Two laborers, at $660 each (*same act*) | 1,320.00 | |
| Two charwomen, at $240 each (*same act*) | 480.00 | |
| Custodian of building: Pay of a custodian of the building occupied by the Court of Claims, to be paid on the order of the court, notwithstanding section 1765 of the Revised Statutes, or section 3 of the act of June 20, 1874, chapter 328 (18 Stats., 109) (*same act*) | 500.00 | |
| | | 58,560.0 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

| *Auditors, Court of Claims—* | | | |
| To defray the cost of the employment of auditors, stenographer to the Chief Justice, at $1,800 (an increase of $200 submitted), and additional stenographers when deemed necessary in the Court of Claims, to be disbursed under the direction of the court (*act Mar. 4, 1913, vol. 37, p. 790, sec. 1*)..... | | $12,000.00 | $7,000.00 |
| NOTE.—The duties of the stenographer to the Chief Justice are not only of a confidential nature, but are practically those of an executive clerk. Besides his stenographic work, he has charge of all motions in chambers, keeps the judges' books and the chambers' docket containing record of argued and submitted cases, attends to the printing of findings and opinions of the court and the preparation of the announcement of same, and attends on the judges during conferences. Prior to the act of May 22, 1908 (34 Stats., 993), making appropriations for the fiscal year ending June 30, 1909, this man was on the regular pay roll as clerk at $1,600, and it is now desired that he be again placed on the regular pay roll, where he properly belongs, at $1,800 per annum. The necessity for an increase in the auditors' force of the court becomes more apparent and more urgent each year, and the court asks that the appropriation for auditors be increased to $12,000. An auditor of this court should be practically the same as what is known in Federal practice as a master. In cases referred to him he could make reports of the facts which shall be subject to exception by either side, and the court on hearing argument on the exceptions can confirm the report or sustain the exception, thus making a proceeding conforming as nearly as may be to Federal practice. This would emphasize the points which would be raised between the parties, and should result in careful and certain findings, thereby benefiting honest claimants and saving considerable amounts where claims are wanting in merit. It should also tend to lessen the number of motions for new trials, amendments to findings, changes, etc., and enable the court to more promptly take care of the great volume of business in congressional cases which are now requiring the attention of individual judges. A committee of the court will be pleased to avail itself of any opportunity extended by the Appropriations Committee of both House and Senate to make further statement in regard to the increases set forth in these estimates. | | | |
| *Contingent Expenses, Court of Claims—* | | | |
| For stationery, court library, repairs, including repairs to bicycles, fuel, electric light, electric elevator, and other miscellaneous expenses (*act Mar. 4, 1913, vol. 37, p. 790, sec. 1*)..... | 3,900.00 | | |
| For one stationary chemical engine and installing same, estimated cost, $1,000 (*submitted*).... | 1,000.00 | | |
| | | 4,900.00 | 3,900.00 |
| NOTE.—This is necessary for the protection against fire of the building owned by the United States and occupied by the Court of Claims. Besides the files and papers belonging to the court, there are valuable papers stored in this building belonging to the Treasury Department and the Department of Justice, and this protection against fire is necessary. | | | |
| *Reporting Decisions, Court of Claims—* | | | |
| For reporting the decisions of the Court of Claims and superintending the printing of the forty-ninth volume of the reports of the Court of Claims, to be paid on the order of the court, $1,000, said sum to be paid to the reporter, notwithstanding section 1765 of the Revised Statutes or section 3 of the act of June 20, 1874, chapter 328 (18 Stats., 109) (*act Mar. 4, 1913, vol. 37, p. 790, sec. 1*)..... | | 1,000.00 | 1,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Salaries, Office of the Secretary of Agriculture*—Continued. | | | |
| One chief engineer (*acts Feb. 9, 1889, vol. 25, p. 659, sec. 3; Mar. 2, 1889, vol. 25, p. 853, sec. 3; Feb. 26, 1907, vol. 34, p. 993, sec. 4; Mar. 4, 1913, vol. 37, pp. 828, 829, sec. 1*) | $2,000.00 | | |
| One assistant chief engineer (*same acts*) | 1,400.00 | | |
| One assistant engineer (*same acts*) | 1,200.00 | | |
| Two assistant engineers, at $1,000 each (*same acts*) | 2,000.00 | | |
| Eight firemen, at $720 each (increase of 1 by transfer from statutory roll of Weather Bureau) (*same acts*) | 5,760.00 | | |
| Eight elevator conductors, at $720 each (*same acts*) | 5,760.00 | | |
| One construction inspector (*same acts*) | 1,400.00 | | |
| One cabinet-shop foreman (in lieu of 1 cabinetmaker or carpenter, at $1,200) (*same acts*) | 1,200.00 | | |
| Four cabinetmakers or carpenters, at $1,200 each (decrease of 1 as above) (*same acts*) | 4,800.00 | | |
| Two cabinetmakers or carpenters, at $1,100 each (*same acts*) | 2,200.00 | | |
| Eight cabinetmakers or carpenters, at $1,020 each (*same acts*) | 8,160.00 | | |
| Two cabinetmakers or carpenters, at $900 each (*same acts*) | 1,800.00 | | |
| One electrician (*same acts*) | 1,100.00 | | |
| One electrical wireman (*same acts*) | 1,000.00 | | |
| One electrical wireman (*same acts*) | 900.00 | | |
| Two electrician's helpers, at $720 each (*same acts*) | 1,440.00 | | |
| Two painters, at $1,000 each (*same acts*) | 2,000.00 | | |
| Two painters, at $900 each (*same acts*) | 1,800.00 | | |
| Five plumbers or steam fitters, at $1,020 each (*same acts*) | 5,100.00 | | |
| One plumber's helper (*same acts*) | 840.00 | | |
| Two plumber's helpers, at $720 each (*same acts*) | 1,440.00 | | |
| One blacksmith (*same acts*) | 900.00 | | |
| One lieutenant of the watch (*same acts*) | 1,000.00 | | |
| Two lieutenants of the watch, at $960 each (*submitted*) | 1,920.00 | | |
| NOTE.—Under a recent reorganization of the watch force it was necessary to detail two watchmen as lieutenants, but they were given no increase in salary. This item will provide for these men. | | | |
| Thirty-eight watchmen, at $720 each (increase of 4 submitted) (*acts Feb. 9, 1889, vol. 25, p. 659, sec. 3; Mar. 2, 1889, vol. 25, p. 853, sec. 3; Feb. 26, 1907, vol. 34, p. 993, sec. 4; Mar. 4, 1913, vol. 37, pp. 828, 829, sec. 1*) | 27,360.00 | | |
| NOTE.—During the past few years the department's growth has necessitated the occupancy of several additional buildings, but no increase has been made in the watch force to carefully guard these buildings. It is estimated that at least 38 watchmen will be needed to properly safeguard the interests of the department. At the present time it is necessary to carry several temporary watchmen almost continuously. | | | |
| Five mechanics, at $1,200 each (*same acts*) | 6,000.00 | | |
| Two skilled laborers, at $960 each (*same acts*) | 1,920.00 | | |
| One janitor (*same acts*) | 900.00 | | |
| Twenty-one assistant messengers, messenger boys, or laborers, at $600 each (increase of 3 by transfer, 2 from the lump-fund roll of the Secretary's Office, and 1 with change of title from elevator conductor at the same salary from the lump fund of the Office of Experiment Stations for Drainage Investigations) (*same acts*) | 12,600.00 | | |
| Nineteen laborers, messenger boys, or charwomen, at $480 each (decrease of 2 by change to charwomen, as below) (*same acts*) | 9,120.00 | | |
| One charwoman (*same acts*) | 540.00 | | |
| Two charwomen, at $480 each (in lieu of 2 laborers, messenger boys, or charwomen, at $480, as above) (*same acts*) | 960.00 | | |
| Fifteen charwomen, at $240 each (increase of 7) (*same acts*) | 3,600.00 | | |
| NOTE.—These changes involve an increase of $1,680. It is contemplated to eliminate charwomen in excess of $240 per annum, with but three exceptions, as it is apparent that male laborers can be secured at $480 and kept at work constantly throughout the day, whereas there is little if any work for full-day charwomen to perform after 10 o'clock in the morning. These changes also contemplate the addition of 3 messenger boys for the office of Solicitor, at $480 each, and 1 additional charwoman, at $240. | | | |
| For extra labor and emergency employments (*same acts*) | 14,000.00 | | |
| | | $332,380.00 | $303,820.00 |
| NOTE 1.—Apparent increase, $28,560; actual increase, $12,080, as follows: | | | |
| PROMOTIONS. | | | |
| Assistant Secretary of Agriculture, from $5,000 to $6,000 | $1,000 | | |
| 1 law clerk, from $3,000 to $3,250 | 250 | | |
| | $1,250 | | |
| NEW PLACES. | | | |
| 1 chief, office of information | 2,500 | | |
| 1 law clerk | 2,250 | | |
| 1 clerk, class 1 | 1,200 | | |
| 2 lieutenants of the watch, at $960 each | 1,920 | | |
| 4 watchmen, at $720 each | 2,880 | | |
| 7 charwomen, at $240 each | 1,680 | | |
| | 12,430 | | |
| | 13,680 | | |
| PLACES DROPPED. | | | |
| 1 law clerk | 1,600 | | |
| Actual increase | 12,080 | | |

| Total | | 13,695 | |
| Total salaries, Office of the Secretary of Agriculture (increase of $28,560) | | | $332,380.00 |
| WEATHER BUREAU. | | | |
| ***Salaries, Weather Bureau***— | | | |
| One chief of bureau (*acts Oct. 1, 1890, vol. 26, p. 653, secs. 4, 5; Mar. 4, 1913, vol. 37, p. 829, sec. 1*) | | $6,000.00 | |
| NOTE.—One Assistant Chief of Weather Bureau, at $3,250, is omitted. | | | |
| One chief clerk and executive assistant (*same acts*) | | 3,000.00 | |
| One chief of Division of Stations and Accounts (by transfer and change of title from assistant chief of Division of Accounts, at $2,750) (*same acts*) | | 2,750.00 | |
| One chief of printing division (*same acts*) | | 2,500.00 | |
| Three chiefs of division, at $2,000 each (*same acts*) | | 6,000.00 | |
| Eight clerks, class 4 (increase of 1 submitted) (*same acts*) | | 14,400.00 | |
| Eleven clerks, class 3 (increase of 2 submitted) (*same acts*) | | 17,600.00 | |
| Twenty-three clerks, class 2 (increase of 2 submitted) (*same acts*) | | 32,200.00 | |
| NOTE.—An increase of 1 clerk of class 4, 2 clerks of class 3, and 2 clerks of class 2 are submitted as above in order that the Weather Bureau may obtain the number of higher grade clerks that the importance of the work performed at the central office at Washington requires. They will add to the efficiency of the personnel, and these changes involve an actual increase of only 1 in the total number of clerks for the bureau, as elsewhere recommendations are made for the omission of 4 copyists or typewriters, at $900 each. | | | |
| Thirty clerks, class 1 (*same acts*) | | 36,000.00 | |
| Twenty-two clerks, at $1,000 each (*same acts*) | | 22,000.00 | |
| Ten clerks, at $900 each (increase of 1 in lieu of 1 copyist or typewriter at same salary) (*same acts*) | | 9,000.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Salaries, Weather Bureau*—Continued. | | | |
| NOTE.—Five copyists or typewriters, at $900 each, are omitted. It has been found impossible to secure suitable employees at this salary. Four of these places are dropped. The other place is transferred to clerk, at $900, as above. | | | |
| One telegraph operator (*acts Oct. 1, 1890, vol. 26, p. 653, secs. 4, 5; Mar. 4, 1913, vol. 37, p. 829, sec. 1*) | $1,200.00 | | |
| One assistant foreman of division (decrease of 1 as below) (*same acts*) | 1,600.00 | | |
| One chief compositor (in lieu of 1 assistant foreman of division, at $1,600, with decrease of $200, as above) (*same acts*) | 1,400.00 | | |
| One lithographer (*same acts*) | 1,500.00 | | |
| Two lithographers, at $1,200 each (decrease of 1, as above) (*same acts*) | 2,400.00 | | |
| One pressman (in lieu of 1 lithographer at same salary as above) (*same acts*) | 1,200.00 | | |
| Five compositors, at $1,250 each (decrease of 1) (*same acts*) | 6,250.00 | | |
| Fourteen printers, at $1,200 each (*same acts*) | 16,800.00 | | |
| Eleven printers, at $1,000 each (*same acts*) | 11,000.00 | | |
| Four folders and feeders, at $720 each (*same acts*) | 2,880.00 | | |
| One chief instrument maker (in lieu of 1 chief mechanic at $1,400) (*same acts*) | 1,400.00 | | |
| Three instrument makers, at $1,200 each (in lieu of 3 skilled mechanics at $1,200) (*same acts*) | 3,600.00 | | |
| Two skilled mechanics, at $1,200 each (decrease of 3 as above) (*same acts*) | 2,400.00 | | |
| Seven skilled mechanics, at $1,000 each (*same acts*) | 7,000.00 | | |
| One skilled mechanic (*same acts*) | 840.00 | | |
| One skilled mechanic (*same acts*) | 720.00 | | |
| Six skilled artisans, at $840 each (*same acts*) | 5,040.00 | | |
| One engineer (*same acts*) | 1,300.00 | | |
| One fireman and steam fitter (*same acts*) | 840.00 | | |
| Five firemen, at $720 each (decrease of 1 by transfer to the Secretary's roll) (*same acts*) | 3,600.00 | | |
| One captain of the watch (*same acts*) | 1,000.00 | | |
| One electrician (*same acts*) | 1,200.00 | | |
| One gardener (increase of $160 submitted) (*same acts*) | 1,000.00 | | |
| NOTE.—This employee is an exceptionally capable man and without assistance keeps the lawns, flower beds, and premises about the Weather Bureau in creditable condition. | | | |
| Four repairmen, at $840 each (increase of 2 in lieu of 2 repairmen at $720, with increase of $120 in each case) (*same acts*) | 3,360.00 | | |
| NOTE.—The small increase asked for 2 repairmen as above should be allowed, as these men have been connected with the Weather Bureau for several years. They are unusually valuable employees, and it is doubtful if their services can be retained at their present compensation. | | | |
| Six repairmen, at $720 each (decrease of 2, as above) (*same acts*) | 4,320.00 | | |
| Four watchmen, at $720 each (*same acts*) | 2,880.00 | | |
| Seventeen messengers, messenger boys, or laborers, at $720 each (*same acts*) | 12,240.00 | | |
| Six messengers, messenger boys, or laborers, at $660 each (*same acts*) | 3,960.00 | | |
| Thirty-one messengers, messenger boys, or laborers, at $600 each (*same acts*) | 18,600.00 | | |
| Eighty-eight messengers, messenger boys, or laborers, at $480 each (increase of 1 by transfer of 1 laborer from the lump fund at same salary) (*same acts*) | 42,240.00 | | |
| Five messengers, messenger boys, or laborers, at $450 each (*same acts*) | 2,250.00 | | |
| Twenty-seven messenger boys, at $360 each (*same acts*) | 9,720.00 | | |
| One charwoman (*same acts*) | 360.00 | | |
| Three charwomen, at $240 each (*same acts*) | 720.00 | $328,270.00 | $325,860.00 |
| NOTE.—Apparent increase, $2,410; actual decrease, $820, as follows: | | | |
| PROMOTIONS. | | | |
| 1 gardener, from $840 to $1,000 | $160.00 | | |
| 2 repairmen, at $840, in lieu of 2 repairmen, at $720 | 240.00 | | |
| NEW PLACES. | | | |
| 1 clerk, class 4 | 1,800.00 | | |
| 2 clerks, class 3 | 3,200.00 | | |
| 2 clerks, class 2 | 2,800.00 | | |
| | $8,200.00 | | |
| PLACE DECREASED. | | | |
| 1 assistant foreman of division, at $1,600, to 1 chief compositor, at $1,400 | 200.00 | | |
| PLACES DROPPED. | | | |
| 1 assistant chief of bureau | 3,250.00 | | |
| 4 copyists or typewriters, at $900 each | 3,600.00 | | |
| 1 compositor | 1,250.00 | | |
| TRANSFER TO SECRETARY'S ROLL. | | | |
| 1 fireman | 720.00 | | |
| | 9,020.00 | | |
| Actual decrease | 820.00 | | |
| TRANSFER FROM DIVISION OF ACCOUNTS, WHICH APPROPRIATION HAS BEEN REDUCED ACCORDINGLY. | | | |
| 1 assistant chief of division of accounts | 2,750.00 | | |
| TRANSFER FROM LUMP FUND, WHICH APPROPRIATION HAS BEEN REDUCED ACCORDINGLY. | | | |
| 1 laborer | 480.00 | | |
| | 3,230.00 | | |

| CHANGE OF TITLE. | |
| 1 copyist or typewriter, $960, changed to clerk, at same salary. | |
| 1 lithographer, $1,200, changed to pressman, at same salary. | |
| [*Contingent*] *Miscellaneous Expenses, Weather Bureau*— | |
| For fuel, lights, repairs, and other expenses for the care and preservation of the public buildings and grounds and the improvement of the existing public buildings of the Weather Bureau in the city of Washington; for stationery and blank books, furniture and repairs to same, and freight and express charges; for subsistence, care, and purchase of horses and vehicles, and repairs of harness, for official purposes only; for advertising, dry goods, twine, mats, oils, paints, glass, lumber, hardware, ice, washing towels, and other miscellaneous supplies and expenses not otherwise provided for, in the city of Washington, $25,000 (*acts Oct. 1, 1890, vol. 26, p. 654, sec. 9; Mar. 4, 1913, vol. 37, p. 829, sec. 1*)..... | $25,000.0 |
| NOTE.—There is no change in the above appropriation. | |
| *General Expenses, Weather Bureau*— | |
| [For carrying into effect in the District of Columbia and elsewhere in the United States, in the West Indies or on adjacent coasts, in the Hawaiian Islands, and in Bermuda the provisions of an act approved October 1, 1890, so far as they relate to the weather service transferred thereby to the Department of Agriculture, and for every expenditure requisite for and incident to the establishment, equipment, and maintenance of meteorological observation stations, including cooperation with other bureaus of the Government and societies and institutions of learning for the dissemination of meteorological information, as follows:] | |
| [For the employment of professors of meteorology, inspectors, district forecasters, local forecasters, section directors, research observers, observers, assistant observers, operators, skilled mechanics, repairmen, station agents, messengers, messenger boys, laborers, and other necessary employees, $590,500;] | |
| [For fuel, gas, electricity, freight and express charges, furniture, stationery, and all other necessary supplies and miscellaneous expenses, $106,500;] | |
| [For instruments, shelters, apparatus, storm-warning towers, and repairs thereto, $43,500;] | |
| [For rent of offices and repairs and improvements to buildings now completed and located outside of the District of Columbia, and care and preservation of grounds, including construction of necessary outbuildings and sidewalks on public streets abutting Weather Bureau grounds, $100,000;] | |
| [For official traveling expenses, $24,500;] | |
| [For telephone rentals and for telegraphing, telephoning, and cabling reports and messages, rates to be fixed by the Secretary of Agriculture by agreements with the companies performing the service, $306,000;] | |
| [For the maintenance and repair of Weather Bureau telegraph, telephone, and cable lines, $4,000:] | |
| [For investigations in climatology and evaporation, including the erection of temporary buildings for living quarters for observers, for river, rain, snow, ice, crop, evaporation, aerial, storm, hurricane, and other observations, warnings, and reports, and for pay of special observers and displaymen, $120,000;] | |
| *For carrying into effect in the District of Columbia and elsewhere in the United States, in the West Indies, or on adjacent coasts, in the Hawaiian Islands, and in Bermuda, the provisions of an act approved Oct. 1, 1890, so far as they relate to the Weather Service transferred thereby to the Department of Agriculture; for the employment of professors of meteorology, district forecasters, local forecasters, section directors, research observers, observers, assistant observers, operators, skilled mechanics, assistant foremen, proof readers, compositors, folders and feeders, repairmen, station agents, messengers, messenger boys, laborers, special observers, displaymen, and other necessary employees; for fuel, gas, electricity, freight, express charges, furniture, stationery; for instruments, shelters, apparatus, storm-warning towers and repairs thereto; for rent of offices; for official traveling expenses; for telephone rentals and for telegraphing, telephoning, and cabling reports and messages, rates to be fixed by the Secretary of Agriculture by agreements with the companies performing the service; for the maintenance and repair of Weather Bureau telegraph, telephone, and cable lines; and for every other expenditure requisite for and incident to the establishment, equipment, and maintenance of meteorological observation stations, including cooperation with other bureaus of the Government and societies and institutions of learning for the dissemination of meteorological information, as follows (acts Oct. 1, 1890, vol. 26, p. 654, sec. 9; July 7, 1898, vol. 30, p. 706, sec. 1; Mar. 4, 1913, vol. 37, pp. 829, 830, sec. 1):* | |
| *For weather forecasts and warnings of storms, cold waves, frosts, heavy snows, and for the necessary observations and reports, $780,000 (same acts)*..... | $780,000.00 |
| *For the gauging and reporting of rivers, the issuing of river forecasts and warnings, and for river, rain, and snow reports, $78,000 (same acts)*..... | 78,000.00 |
| *For investigations in meteorology, climatology, seismology, and evaporation, including the erection of temporary buildings for living quarters for observers, and for crop, aerial, evaporation, and other necessary reports, $405,000 (same acts)*..... | 405,000.00 |
| *For marine meteorological work, and lake and ocean reports, $25,000 (same acts)*..... | 25,000.00 |
| NOTE.—There is a decrease in the above items, as compared with the present appropriation bill, of $7,000. The appropriation for general expenses is rearranged according to the recommendations of a Weather Bureau committee appointed for the purpose, and subdivided to conform to the principal activities of the bureau rather than to the character of the expenditures as heretofore. Care has been taken to retain practically the same provisions and phraseology as are in the existing appropriation bill under the following projects, namely: Forecasts and warnings; river and flood work; climatological investigations; marine meteorological work; printing office; and buildings. | |

| [For the maintenance of a printing office in the city of Washington, including the purchase of necessary supplies and materials for printing weather maps, bulletins, circulars, forms, and other publications, and for pay of additional assistant foremen, proof readers, compositors, pressmen, lithographers, and folders and feeders, when necessary, $16,750;] | | | |
| *For the maintenance of a printing office in the city of Washington, for the printing of weather maps, bulletins, circulars, forms, and other publications, including the pay of additional employees, when necessary, $26,000 (acts Oct. 1, 1890, vol. 26, p. 654, sec. 9; July 7, 1898, vol. 30, p. 706, sec. 1; Mar. 4, 1913, vol. 37, pp. 879, 880, sec. 1)* | $26,000.00 | | |
| NOTE.—There is an increase in the above appropriation of $9,250, and the phraseology of the item has been changed. This increase will be used to purchase a rapid rotary Harris press, and for additional work that will be required to be done in the printing office during the next fiscal year. | | | |
| [For the acquisition of sites outside of the District of Columbia and the erection thereon of two buildings for use as Weather Bureau observatories, to be constructed under the supervision of the Chief of the Weather Bureau, plans and specifications to be approved by the Secretary of Agriculture, and for all necessary labor, materials, and expenses connected with this work, $45,000;] | | | |
| *For the erection of a building at Neah Bay, Wash., to be constructed under the supervision of the Chief of the Weather Bureau, plans and specifications to be approved by the Secretary of Agriculture, and for all necessary labor, materials, and expenses connected with this work, $3,000 (same acts)* | 3,000.00 | | |
| NOTE.—There is a decrease in the above appropriation of $42,000, and the phraseology of the item has been changed. The present appropriation bill provides for the construction of two observatory buildings, which it is proposed to locate at Sandy Hook, N. J., and Cincinnati, Ohio. These estimates contain a recommendation for the construction of a building at Neah Bay, Wash., at a cost of $3,000. Neah Bay is an isolated place on the coast of Washington and is the terminus of one of the Weather Bureau telegraph lines. The proposed building is desired for a place of residence and office for the Weather Bureau employee, as a rented building can not be obtained. The employee at this place has been occupying for a number of years an old storehouse, which was originally built for one of the Indian agencies. It has been repaired from time to time, so as to make it as comfortable as possible; but it is now in such condition that it is unfit for human habitation, and it is beyond repairing. | | | |
| [Hereafter officials and employees of the Weather Bureau, when transferred from one station to another for official duty, shall be allowed all traveling expenses authorized by existing laws applicable to said bureau, notwithstanding any changes in appointments that may be required by such transfers:] | | | |
| NOTE.—The above provision is omitted, as it is now permanent law. | | | |
| In all, for general expenses, [$1,356,750] *$1,317,000* (decrease of $39,750) | | $1,317,000.00 | $1,356,750.00 |

*General Expenses, Bureau of Animal Industry*—

For carrying out the provisions of the act approved May 29, 1884, establishing a Bureau of Animal Industry, and the provisions of the act approved Mar 3, 1891, providing for the safe transport and humane treatment of export cattle from the United States to foreign countries, and for other purposes; the act approved Aug. 30, 1890, providing for the importation of animals into the United States, and for other purposes; and the provisions of the act of May 9, 1902, extending the inspection of meats to process butter, and providing for the inspection of factories, marking of packages, etc.; and the provisions of the act approved Feb. 2, 1903, to enable the Secretary of Agriculture to more effectually suppress and prevent the spread of contagious and infectious diseases of live stock, and for other purposes; and also the provisions of the act approved Mar. 3, 1905, to enable the Secretary of Agriculture to establish and maintain quarantine districts, to permit and regulate the movement of cattle and other live stock therefrom, and for other purposes: *Provided*, That hereafter all the provisions of the said act approved Mar. 3, 1905, shall apply to any railroad company or other common carrier, whose road or line forms any part of a route over which cattle or other live stock are transported in the course of shipment from any quarantined State or Territory or the District of Columbia, or from the quarantined portion of any State or Territory or the District of Columbia, into any other State or Territory or the District of Columbia; and for carrying out the provisions of the act of June 29, 1906, entitled "An act to prevent cruelty to animals while in transit by railroad or other means of transportation;" *and for carrying out the provisions of the act approved Mar. 4, 1913, regulating the preparation, sale, barter, exchange, or shipment of any virus, serum, toxin, or analogous products manufactured in the United States, and the importation of such products intended for use in the treatment of domestic animals;* and to enable the Secretary of Agriculture to collect and disseminate information concerning live stock, dairy, and other animal products; to prepare and disseminate reports on animal industry; to employ and pay from the appropriation herein made as many persons in the city of Washington or elsewhere as he may deem necessary; to purchase in the open market samples of all tuberculin, serums, antitoxins, or analogous products, of foreign or domestic manufacture, which are sold in the United States, for the detection, prevention, treatment, or cure of diseases of domestic animals, to test the same, and to disseminate the results of said tests in such manner as he may deem best; to purchase and destroy diseased or exposed animals or quarantine the same whenever in his judgment essential to prevent the spread of pleuropneumonia, tuberculosis, or other diseases of animals from one State to another: *Provided, That the following language in section 6, act of May 29, 1884 (ch. 60, sec. 6, 23 Stat. L., p. 32), is repealed: "Provided, That the so-called splenetic or Texas fever shall not be considered a contagious, infectious, or communicable disease within the meaning of sections 4, 5, 6, and 7 of this act, as to cattle being transported by rail to market for slaughter, when the same are unloaded only to be fed and watered in lots on the way thereto," as follows:*

NOTE.—The new language above in regard to the act regulating the preparation, sale, barter, exchange, or shipment of any virus, serum, toxin, or analogous products manufactured in the United States, etc., has been inserted in order to complete the citation of laws for the enforcement of which the appropriation for general expenses is made. Later on a specific item is carried to provide money for the enforcement of this law.

NOTE.—It is also proposed to repeal the provision referred to above in regard to splenetic or Texas fever, because it has been clearly demonstrated that splenetic, southern, or Texas fever in cattle is a communicable disease. For this reason it is desired to repeal the section of the law which specifically excepts this disease from that class of animal diseases, and thus to prohibit the interstate shipment of animals carrying this infection. Cattle of the quarantined area, in the opinion of the bureau, should be dipped to rid them of ticks which transmit the disease in order that the movement of such cattle to nonquarantined areas may not be attended with the danger of spreading the disease. It is thought that this measure will greatly lessen the spread of Texas fever infection and will materially promote the work of eradicating ticks throughout the Southern States.

For inspection and quarantine work, including all necessary expenses for the eradication of scabies in sheep and cattle, the inspection of southern cattle, the supervision of the transportation of live stock and the inspection of vessels, the execution of the 28-hour law, the inspection and quarantine of imported animals, including the establishment and maintenance of quarantine stations and the alteration of buildings thereon; the inspection work relative to the existence of contagious diseases, and the tuberculin and mallein testing of animals, [$654,000] *$640,520, of which sum not more than $5,000 may be used for the construction of a superintendent's house on the ground of the United States animal quarantine station for the port of Boston, at Littleton, Mass.* [*Provided*, That of this sum not less than $75,000 shall be set aside for demonstrating the best method

| of preventing and eradicating hog cholera] (*acts May 29, 1884, vol. 23, p. 31, secs. 1–11; Aug. 30, 1890, vol. 26, p. 414, secs. 1–10; Mar. 3, 1891, vol. 26, p. 1089, secs. 1–7; Mar. 2, 1895, vol. 28, p. 732, sec. 1; Feb. 2, 1903, vol. 32, p. 791, secs. 1–3; Mar. 3, 1905, vol. 33, p. 1264, secs. 1–6; June 29, 1906, vol. 34, p. 607, sec. 1; Mar. 4, 1913, vol. 37, pp. 831–833, sec. 1*)..... | $640,520.00 | |
| NOTE.—Apparent decrease $13,480. $75,000 for eradicating hog cholera has been eliminated from the appropriation and appears below as a separate item. Four inspectors' assistants, at $1,000 each and 12 inspectors' assistants, at $840 each, amounting to $14,080, have also been transferred from the statutory roll to this appropriation; therefore, there is an actual increase in this item of $47,440. | | |
| *For demonstrating the best method of preventing and eradicating hog cholera, $75,000, of which sum not more than $25,000 may be used for the construction and equipment of an anti-hog cholera serum plant, which amount shall be immediately available* (*same acts*)..... | 75,000.00 | |
| NOTE.—This is apparently a new item involving an increase of $75,000, but, in reality, it is simply a transfer of this item from the appropriation above for inspection and quarantine work. The question of eradicating this disease is one of great interest to the United States, as there are enormous losses over the whole country and the work should be continued. During the last six months the department has been in receipt of many requests for aid and cooperation in eradicating hog cholera and it has been impossible to comply with all of them. The language of the item has also been changed. | | |
| For all necessary expenses for the eradication of southern cattle ticks, [$325,000;] *$400,000, of which sum $50,000 may be used for live stock demonstration work, in cooperation with the Bureau of Plant Industry, in areas freed of ticks: Provided, however,* That no part of this appropriation shall be used in the purchase of materials for or in the construction of dipping vats upon land not owned solely by the United States, except at fairs or expositions where the Department of Agriculture makes exhibits or demonstrations; nor shall any part of this appropriation be used in the purchase of materials or mixtures for use in dipping vats except in experimental or demonstration work carried on by the officials or agents of the Bureau of Animal Industry (*same acts*)..... | 400,000.00 | |
| NOTE.—This is an increase of $75,000. Owing to the high price of cattle and the uncertainty of the cotton crop, several of the Southern States are manifesting an increased interest in tick eradication, and to this end they are taking steps to obtain additional State and county appropriations, and are demanding an extension of department cooperation and assistance. It is considered that if $50,000 of the $400,000 appropriation desired could be used for the purpose of demonstrating in counties released from quarantine for Texas fever ticks the benefits to be derived by raising a better class of cattle and obtaining some revenue from the cattle industry rather than relying solely on the cotton industry, that great good could be accomplished and the work of tick eradication in territory adjacent would be benefited. Federal and State employees are continually explaining to farmers in the Southern States the benefits to be derived from tick eradication, thereby enabling them to raise better cattle and indulge in diversified farming. However, observations in counties where ticks have been eradicated show that many people do not know how to set about improving conditions. They need to provide themselves with thoroughbred bulls to cross on their native cows and they need instruction as to the care of calves and the growing of forage for the use of live stock. It may be that of the $50,000 to be used in the development of the cattle industry in the area recently released from quarantine the department might purchase a few thoroughbred bulls and place them in localities where the people are unable to obtain service of this kind, provided suitable parties and places for the care of the bulls could be secured. It has been demonstrated that a common southern cow worth $10 or $12 bred to a thoroughbred Shorthorn or Hereford bull, with proper care and management, produce calves which at 15 to 18 months old bring from $60 to $80 for beef. There should be hundreds of these demonstrations in the area released from quarantine. | | |
| For all necessary expenses for investigations and experiments in dairy industry, cooperative investigations of the dairy industry in the various States, inspection of renovated butter factories and markets [$177,900], *$256,490* (*same acts*)..... | 256,490.00 | |
| NOTE.—There is an increase in the above appropriation of $78,590 for the extension of research and educational work under way and for the inauguration of new work along both the above-mentioned lines. As research work along the broader lines advances, it opens up new problems for study, and these give rise to a normal growth, particularly as research work is still limited as compared with the expanse of the industry. Demands for educational work along lines of dairying are rapidly increasing, particularly in connection with the county demonstration work and with market-milk inspection. There are still a great many dairy problems that are not being studied by anyone. It is important that investigations regarding some of these be undertaken and that new features in connection with educational work be inaugurated. | | |
| [For all necessary expenses for investigations and experiments in animal husbandry, $52,180;] | | |
| *For all necessary expenses for investigations and experiments in animal husbandry; for experiments in animal feeding and breeding, including cooperation with the State agricultural experiment stations, including repairs and additions to and erection of buildings absolutely necessary to carry on the experiments, and experiments in the breeding of horses for military purposes, including the employment of labor in the city of Washington and elsewhere, rent outside of the District of Columbia, and all other necessary expenses, $197,840: Provided, That of the sum thus appropriated, $2,500 may be used for experiments in the feeding and breeding of ostriches and for investigations and experiments in the study of the ostrich industry* (*same acts*)..... | 197,840.00 | |
| NOTE.—This is a consolidation of three items and an increase of $43,160. For a number of years the appropriations for this bureau for use in animal husbandry have been in two different forms, namely, for animal-husbandry investigations and for cooperative experiments in animal feeding and breeding. At the last session of Congress a third appropriation was added for experiments in ostrich feeding and breeding. It is possible legally to pay the expenses of any animal-husbandry project from the appropriations for animal husbandry or from the appropriation for cooperative experiments in animal feeding and breeding. It is believed that this does not make for good administration, and these two items and the one for breeding ostriches have been combined. | | |

| For all necessary expenses for scientific investigations in diseases of animals, including the maintenance and improvement of the bureau experiment station at Bethesda, Maryland, and the necessary alterations of buildings thereon, and the necessary expenses for investigations of tuberculin, serums, antitoxins, and analogous products, [$78,680] $77,360 *(acts May 29, 1884, vol. 23, p. 31, secs. 1–11: Aug. 30, 1890, vol. 26, p. 414, secs. 1–10: Mar. 3, 1891, vol. 26, p. 1089, secs. 1–7: Mar. 2, 1895, vol. 28, p. 732, sec. 1: Feb. 2, 1903, vol. 32, p. 791, secs. 1–3: Mar. 3, 1905, vol. 33, p. 1264, secs. 1–6: June 29, 1906, vol. 34, p. 607, sec. 1: Mar. 4, 1913, vol. 37, pp. 831–833, sec. 1* ..... | $77,360.00 | |
| NOTE.—A decrease of $1,320. The places of one laboratory assistant, at $1,200, and two laboratory assistants, at $900 each, total $3,000, have been transferred from the statutory roll to this appropriation, and nine laborers, at $480 each, total $4,320, have been transferred to the statutory roll, resulting in a net decrease in this appropriation of $1,320. | | |
| [That from and after July 1, 1913, it shall be unlawful for any person, firm, or corporation to prepare, sell, barter, or exchange in the District of Columbia, or in the Territories, or in any place under the jurisdiction of the United States, or to ship or deliver for shipment from one State or Territory or the District of Columbia to any other State or Territory, or the District of Columbia, any worthless, contaminated, dangerous, or harmful virus, serum, toxin, or analogous product intended for use in the treatment of domestic animals, and no person, firm, or corporation shall prepare, sell, barter, exchange, or ship as aforesaid any virus, serum, toxin, or analogous product manufactured within the United States and intended for use in the treatment of domestic animals, unless and until the said virus, serum, toxin, or analogous product shall have been prepared, under and in compliance with regulations prescribed by the Secretary of Agriculture, at an establishment holding an unsuspended and unrevoked license issued by the Secretary of Agriculture as hereinafter authorized. That the importation into the United States, without a permit from the Secretary of Agriculture, of any virus, serum, toxin, or analogous product for use in the treatment of domestic animals, and the importation of any worthless, contaminated, dangerous, or harmful virus, serum, toxin, or analogous product for use in the treatment of domestic animals, are hereby prohibited. The Secretary of Agriculture is hereby authorized to cause the Bureau of Animal Industry to examine and inspect all viruses, serums, toxins, and analogous products, for use in the treatment of domestic animals, which are being imported or offered for importation into the United States, to determine whether such viruses, serums, toxins, and analogous products are worthless, contaminated, dangerous, or harmful, and if it shall appear that any such virus, serum, toxin, or analogous product, for use in the treatment of domestic animals, is worthless, contaminated, dangerous, or harmful, the same shall be denied entry and shall be destroyed or returned at the expense of the owner or importer. That the Secretary of Agriculture be, and hereby is, authorized to make and promulgate from time to time such rules and regulations as may be necessary to prevent the preparation, sale, barter, exchange, or shipment as aforesaid of any worthless, contaminated, dangerous, or harmful virus, serum, toxin, or analogous product for use in the treatment of domestic animals, and to issue, suspend, and revoke licenses for the maintenance of establishments for the preparation of viruses, serums, toxins, and analogous products, for use in the treatment of domestic animals, intended for sale, barter, exchange, or shipment as aforesaid. The Secretary of Agriculture is hereby authorized to issue permits for the importation into the United States of viruses, serums, toxins, and analogous products, for use in the treatment of domestic animals, which are not worthless, contaminated, dangerous, or harmful. All licenses issued under authority of this act to establishments where such viruses, serums, toxins, or analogous products are prepared for sale, barter, exchange, or shipment as aforesaid, shall be issued on condition that the licensee shall permit the inspection of such establishments and of such products and their preparation; and the Secretary of Agriculture may suspend or revoke any permit or license issued under authority of this act, after opportunity for hearing has been granted the licensee or importer, when the Secretary of Agriculture is satisfied that such license or permit is being used to facilitate or effect the preparation, sale, barter, exchange, or shipment as aforesaid, or the importation into the United States of any worthless, contaminated, dangerous, or harmful virus, serum, toxin, or analogous product for use in the treatment of domestic animals. That any officer, agent, or employee of the Department of Agriculture duly authorized by the Secretary of Agriculture for the purpose may, at any hour during the daytime or nighttime, enter and inspect any establishment licensed under this act where any virus, serum, toxin, or analogous product for use in the treatment of domestic animals is prepared for sale, barter, exchange, or shipment as aforesaid. That any person, firm, or corporation who shall violate any of the provisions of this act shall be deemed guilty of a misdemeanor, and shall, upon conviction, be punished by a fine of not exceeding $1,000, or by imprisonment not exceeding one year, or by both such fine and imprisonment, in the discretion of the court. That there is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, to be expended as the Secretary of Agriculture may direct, for the purposes and objects of this act, the sum of $25,000, which appropriation shall become available on July 1, 1913, and may be expended at any time before July 1, 1914;] | | |
| *For all necessary expenses for enforcing the provisions of the act approved Mar. 4, 1913 (37 Stat. L., pp. 837, 838), regulating the preparation, sale, shipment, etc., of any virus, serum, toxin, or analogous product manufactured within the United States, or imported into the United States, intended for use in the treatment of domestic animals, $25,000 (same acts)* ..... | 25,000.00 | |
| NOTE.—The act regulating the production and traffic in viruses, serums, toxins, and analogous products intended for use in the treatment of domestic animals is omitted, because there is no necessity for repeating it, and a brief paragraph carrying an appropriation for the next fiscal year is substituted. | | |

| *General Expenses, Bureau of Plant Industry*— | | | |
| For all necessary expenses in the investigation of fruits, fruit trees, grain, cotton, tobacco, vegetables, grasses, forage, drug, medicinal, poisonous, fiber, and other plants and plant industries, in cooperation with other branches of the department, the State experiment stations, and practical farmers, and for the erection of necessary farm buildings: *Provided*, That the cost of any building erected shall not exceed $1,500; for field and station expenses, including fences, drains, and other farm improvements; for repairs in the District of Columbia and elsewhere; for rent outside of the District of Columbia; and for the employment of all investigators, local and special agents, agricultural explorers, experts, clerks, illustrators, assistants, and all labor and other necessary expenses in the city of Washington and elsewhere required for the investigations, experiments, and demonstrations herein authorized, as follows: | | | |
| For investigations of plant diseases [including diseases of ginseng], and pathological collections, [$30,000;] *$37,000 (act Mar. 4, 1913, vol. 37, pp. 834-836, sec. 1)* | | $37,000.00 | |

NOTE.—There is an increase in the above item of $7,000, as follows:

Central laboratory of plant pathology, $5,000. The crown-gall work has opened up certain lines of research work which require an additional assistant equipped to handle the biochemical problems. The bacteriological and pathological features of the spoiled-corn work are important and pressing. A beginning has been made upon this, but a special assistant is very much needed for this work. Additional equipment, consisting of microscopes, photomicrographic apparatus, electric incubators, uniform temperature chambers, inoculating chambers, etc., are needed.

Pathological collections, $1,000. An enlargement of the facilities in this office is required to meet the urgent need of our numerous pathological workers for the maintenance and enlargement of the collections of fungi which are essential to the efficient prosecution of their several lines of work. All of our pathological workers depend upon this office for facilities of this character, and the steady growth and diversification of the research work requires its enlargement.

Plant-inspection work, $1,000. The rapidly increasing plant-introduction work of the department has largely increased the requirements for inspection of such material to determine its freedom from plant disease. Under the plant quarantine act all shipments of plants to the department from foreign countries require such inspection, and the present force is inadequate to handle it.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

| *General Expenses, Bureau of Plant Industry*—Continued. | | |
| For the control of diseases of orchard and other fruits, [$40,675] *$52,675 (act Mar. 4, 1913, vol. 37, pp. 834–836, sec. 1)* | $52,675.00 | |
| NOTE.—There is an increase in the above item of $12,000, as follows: Office and laboratory, $1,000. The steady increase of the work of this laboratory necessitates an increase for temporary clerical assistance, stationery, office and laboratory supplies. General orchard diseases, $1,000. The steadily increasing and urgent demand for information regarding the control of this economic group of diseases makes necessary an increase for field expenses involved in its prosecution. Citrus and subtropical fruit diseases, $2,500. A beginning has been made upon the investigations of the diseases of citrus and other subtropical fruits in Florida, and additional assistance is required to adequately meet the requirements of this work. Grape and small fruit diseases, $2,500. The amount available for this project, which covers the diseases of grapes, strawberries, raspberries, blackberries, cranberries, etc., is insufficient to meet the continually enlarging demands. An additional assistant with funds sufficient for his field expenses is required. Spraying demonstrations and experiments, $2,000. The spraying demonstrations covered by this project is essentially pioneer work and includes the first applications of improved methods of fruit-disease control that have been developed through research work. It is exceedingly valuable and effective and requires some enlargement to meet the present needs. Physiological fruit diseases, $3,000. The appearance of serious diseases of the type covered by the investigations under this project, especially in the Pacific Northwest, in the very important apple industry of that section, makes an extension of this work necessary. | | |
| For the control of diseases of forest and ornamental trees and shrubs, [$29,510;] *including a study of the nature and habits of the parasitic fungi causing the chestnut tree bark disease, the white-pine blister rust, and other epidemic tree diseases, for the purpose of discovering new methods of control, and by putting into application methods of control already discovered, $69,510 (same act)* | 69,510.00 | |
| NOTE.—There is an apparent increase of $40,000 in the above item, and is due to the fact that the appropriation for chestnut tree bark diseases has been transferred to this item and reduced to that amount. | | |
| For the control of diseases of cotton, [truck, and forage crops, and related plants, $25,000;] *potatoes, truck crops, forage crops, drug and related plants, $42,000 (same act)* | 42,000.00 | |
| NOTE.—Increase of $17,000, as follows: Cotton diseases, $5,000. The enlargement of the pathological work on cotton root rot and wilts in the States of Alabama, Louisiana, Mississippi, and Texas is very greatly needed: also investigations of the new root disease which has appeared in the Egyptian cotton plantings in the southwest. Truck-crop diseases, $10,000. The serious outbreaks of potato leaf roll, and powdery dry rot in the high plains and Rocky Mountain regions require an adequately organized and equipped attack for their solution. It is proposed to establish a field station for this purpose at some suitable point, probably in the Greeley district of Colorado, in cooperation with the Colorado State Experiment Station, and center this work there. Additional funds are also required for investigating the wilt disease of potatoes in the Delta region of California, and for the prosecution of the work on phytophthora in the North Atlantic States, particularly in Maine. Some enlargement of the spraying work in localities where truck-crop industries are being abandoned because of disease damage is needed. The work on sweet potato diseases and disease-resistance asparagus breeding require some additional funds. Forage-crop diseases, $2,000. A good beginning has been made on investigations of diseases affecting the cowpea and there is very great need for work on other diseases affecting forage crops, including alfalfa, clover, and velvet beans. The root disease of alfalfa in the southwest calls for a thorough investigation, which it has not been possible to make with the funds available. Transfer from other funds. During the present year $4,000 was transferred to this item from horticultural investigations, but in future this work will be provided for under the item for cotton truck-disease investigations. | | |
| For investigating the physiology of crop plants and for testing and breeding varieties thereof, [$33,380;] *$44,540 (same act)* | 44,540.00 | |
| NOTE.—Apparent increase, $11,160, but as one photographer at $840 has been transferred to the statutory roll, there is an actual increase of $12,000, as follows: Indian cooperation, $2,000. To extend and make more effective the work conducted with the Indians at Sacaton, Ariz., Shiprock, N. Mex., Pyramid Lake, Nev., and Palm Springs, Cal., and elsewhere, in connection with the study of the life history of Egyptian and other long-fiber cotton and other dry-land tree crops suited for growth without irrigation. Establishment of date culture and breeding new varieties of dates, $6,000. For the practical working out of new methods for the rapid propagation of choice varieties which it is impossible to secure in sufficient numbers for commercial planting from the Old World, and the establishment of date culture in the Rio Grande Valley of Texas. A crisis has been reached in the development of the date industry in the Southwest, where it is essential that varieties found adapted shall be propagated in sufficient numbers to permit commercial plantings. Adapted varieties obtainable are certain to be largely planted with resultant disastrous effects. Fig culture, $1,000. For the breeding and testing of new varieties of figs and capri figs, and the establishment on a commercial basis of new varieties already developed. Breeding hardy citrus fruits, $2,000. For the further breeding and selection of hardy citrus fruits and the testing in the Gulf States of the Southwest and on the Pacific coast of the large number of new hardy citrus fruits now ready for testing in the field. Miscellaneous, $1,000. For additional scientific equipment, apparatus, and field expenses. | | |
| For soil-bacteriology and plant-nutrition investigations, [$30,000;] *$35,000 (same act)* | 35,000.00 | |
| NOTE.—There is an increase in the above item of $5,000, as follows: Investigations in soil bacteriology, $2,500. The enlargement of the scope of the investigations of the causes of the insufficient formation of humus in soils in the Southwest requires an additional laboratory assistant and additional laboratory equipment and pathological work which is of the utmost importance in connection with certain problems that have developed in connection with irrigation agriculture. Plant-nutrition investigations, $2,500. To determine the principal factors of nutrition on the composition of the seed with special reference to oil-producing seeds, such as soy beans, flax and sunflowers, requires additional funds. As illustrating the importance of this work it may be said that experiments with potassium fertilizers have shown that a deficiency of this element leads to a rapid deterioration of the plant prior to maturity. In the case of tobacco in the South during the last season, it indicates that a more liberal use of potash would probably have increased the value of the fine-cured tobacco crop by a million dollars. | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *General Expenses, Bureau of Plant Industry*—Continued. | | |
| For acclimatization and adaptation investigations of cotton, corn, and other crops introduced from tropical regions, and for the improvement of cotton by cultural methods, breeding, and selection, [$38,000;] *$45,000 (act Mar. 4, 1913, vol. 37, pp. 834–836, sec. 1)*. | $45,000.00 | |
| NOTE.—There is an increase in the above item of $7,000. A point has been reached in this work where it is necessary to instruct farmers how to select and rogue their fields in order to preserve uniformity and maintain yields of improved varieties of cotton, and additional funds are necessary. This work can be taken up in a preliminary way with local communities where men who have acquired the necessary experience can serve as guides and instructors for the communities. | | |
| [For drug plant, poisonous plant, tea culture, and general physiological and fermentation investigations, $50,000;] *For the investigation, testing, and improvement of plants yielding drugs, spices, poisons, oils, and related products and by-products, and for general physiological and fermentation investigations, $59,380 (same act)*..... | 59,380.00 | |
| NOTE.—This is a rearrangement of the old item with additional phraseology. Apparent increase $9,380, but as one clerk, at $900, and one messenger or laborer, at $720, have been transferred to the statutory roll, the actual increase is $11,000, as follows:<br>Physiological and fermentation investigations. To extend the studies of the physiological factors affecting the keeping qualities of fruits and vegetables with reference to their successful storage, it is necessary to provide an additional well-trained laboratory assistant and more laboratory facilities for the prosecution of the work. This will require $3,000 additional. The results obtained in the investigations in relation to the oxidizing enzymes to plant conditions indicate the advisability of a more vigorous attack upon this problem in connection with a number of obscure disease conditions. An additional assistant and additional laboratory equipment are needed, for which $2,500 additional should be provided. A physiological study of the moulds and their relations to the deterioration of seeds and grains requires additional facilities and expenses amounting to $1,000. A physiological study of the chemical requirements of plants with a view to determining the ways in which plants use the materials of the soil which is one of the fundamental features of agriculture, requires additional greenhouse and laboratory equipment, and additional assistance for which a total of $3,500 should be provided. Through a physiological study of the immunity of plants to disease it is hoped to obtain information as to how such plants differ from those susceptible to disease, and an addition of $1,000 is required for this work. | | |
| For crop technological and fiber plant investigations, $10,010 (*same act*)..... | 10,010.00 | |
| For investigating the ginning, handling, grading, baling, and wrapping of cotton, and the establishment of standards for the different grades thereof, and for carrying into effect the provisions of law relating thereto, [$46,120;] *$30,580:* Provided, That of the sum thus appropriated $10,000 is to be used for testing the waste, tensile strength, and bleaching qualities of the different grades of cotton as standardized by the Government (*same act*)..... | 30,580.00 | |
| NOTE.—There is an apparent decrease in the above item of $15,540, but as $25,000 for cooperative cotton marketing has been transferred to the appropriation for office of markets, and 1 laborer, at $540, has been transferred to the statutory roll, aggregating $25,540, there is an actual increase of $10,000. The cotton grading and standardization work has progressed to the point where there is a steadily increasing demand for the grades which are to be had at cost, the proceeds being deposited in the Treasury. To meet this additional demand, which it is expected will largely increase during the coming year, as well as prosecute the necessary experiments in connection with tinges and stains and to provide fireproof storage facilities for the standard grades preserved in vacuum, this additional amount is needed. | | |
| For investigating the handling, grading, and transportation of grain, and the fixing of definite grades thereof, [$65,000;] *$76,320 (same act)*..... | 76,320.00 | |
| NOTE.—There is an apparent increase in the above item of $11,320, but as 2 clerks, at $840 each, $1,680, have been transferred to the statutory roll, the actual increase is $13,000, as follows:<br>Office and laboratory, $1,000. Additional clerical assistance in the grain standardization work will be required during the next fiscal year.<br>Grain standardization laboratory, $12,000. Up to the present time practically no work has been done with grains on the Pacific coast, and before standard grades can be established with wheat, oats, barley, a study must be made of the storage, handling, and transporting of grains to that section. The department has been for several years urging the establishment of a laboratory in that region, and it is believed that this should now be done, as there is no laboratory west of Kansas City, Mo. The establishment and maintenance of this laboratory for the next fiscal year will require the amount asked. | | |
| For biophysical investigations in connection with the various lines of work herein authorized, [$20,000;] *$50,000 (same act)*..... | 30,000.00 | |
| NOTE.—There is an increase in the above item of $10,000, as follows:<br>Special biophysical investigations, $5,000. The urgent appeals to the department for an investigation of the cause of "mottle leaf" or chlorosis in citrus orchards in the Southwest made necessary the beginning of an investigation of this problem about two years ago. The investigations thus far made indicate that the trouble is associated with the high lime content and light humus content of the soil. The work has not progressed sufficiently far, however, to make possible any definite recommendation to the growers, and as groves that were highly productive five years ago are being dug up by the owners because of this trouble it is considered advisable to push the work more vigorously than has thus far been possible. The subject is one of the greatest importance in the permanence of irrigation orchards, especially where commercial fertilizers are extensively used.<br>Cooperative biophysical investigations, $5,000. The destructive effect of the low temperatures during the winter of 1912–13, particularly in the West and Southwest, has aroused very great interest in the introduction and improvement of methods of prevention of frost injury to plants. The subject is one which needs investigation both in the field and in the laboratory, and it is desired to undertake it in cooperation with certain State experiment stations. | | |

| For studying and testing commercial seeds, including the testing of samples of seeds of grasses, clover, or alfalfa, and lawn-grass seeds secured in the open market, and where such samples are found to be adulterated or misbranded the results of the tests shall be published, together with the names of the persons by whom the seeds were offered for sale, [$26,000;] *$28,700 (act Mar. 4, 1913, vol. 37, pp. 834-836, sec. 1)*..... | $28,700.00 | |
| NOTE.—There is an apparent increase in the above item of $2,700, but as 1 messenger boy, at $300, has been transferred to the statutory roll, the actual increase is $3,000, as follows:<br>Seed testing, $1,500. Provision should be made for an additional assistant in this work to meet the growing demands upon the laboratory.<br>Adulterated seed investigations, $700. This is needed for the purchase of seed in the open market as required in the prosecution of this work.<br>Seed importation act, $800. The enforcement of the seed importation act of Aug. 24, 1912, requires a considerable increase in work of this office. It is estimated that for supplies, traveling expenses, etc., an increase of this amount will be required. | | |
| For the investigation and improvement of cereals and methods of cereal production, and the study of cereal diseases, and for the investigation of the cultivation and breeding of flax for seed purposes, including a study of flax diseases, *and for the investigation and improvement of broom corn and methods of broom-corn production*, [$104,925] *$135,405: Provided*, That not less than [$30,000] *$40,000* shall be set aside for the study of corn improvement and methods of corn production (*same act*)..... | 135,405.00 | |
| NOTE.—There is an apparent increase in the above item of $30,480, but as 1 clerk, at $900, 1 clerk, at $840, and 1 laborer, at $780, aggregating $2,520, have been transferred to the statutory roll, the actual increase is $33,000, as follows:<br>Office and laboratory, $2,000. Enlarged demands for clerical assistance and miscellaneous supplies require additional funds.<br>Improvement and production of cereals, etc., $7,500. For increasing experimental work with wheat, oats, and barley, and the extension of the work to flax for seed production and the effective attack upon the problems connected with broom-corn production.<br>Maintenance of cereal field stations, $8,500. To make adequate provision for the enlarged work prosecuted at the field stations maintained in connection with the prosecution of these investigations with small grains and the establishment of four field stations for cereal work in cooperation with experiment stations in Southern States.<br>Cereal tillage and rotation, $1,000. This increase is for traveling expenses to permit the careful supervision of the rotation and tillage experiments and the establishment of temporary headquarters during the growing season at some point in the far West, which will obviate the necessity of travel to and from Washington.<br>Cereal disease investigations, $4,000. The success obtained in determining methods of control for the common cereal smuts, except that of corn, and the enormous loss resulting from corn smut make it highly important that a full investigation be undertaken at once. Preliminary experiments are under way. Various blights and wilts exist and an additional assistant is needed to effectively prosecute this work.<br>Corn improvement and production, $10,000. The enlargement of the present lines of investigation which will make it possible to reach in a more comprehensive way the important corn-producing sections is desirable, and the work is prosecuted largely in cooperation with corn growers and local corn producers. | | |
| For the investigation and improvement of tobacco and the methods of tobacco production and handling, [$31,630;] *$25,000* (*same act*)..... | 25,000.00 | |
| NOTE.—There is a decrease in the above item of $6,630. The decrease in this item is due to a proposed modification of the work which will involve the abandonment of some features of the field work, including variety testing, curing, etc., a great deal of this work having reached a point where it is believed that it can be very satisfactorily carried on by the State or local organizations. It is proposed to utilize the funds chiefly for laboratory work, there still being a number of important problems to solve. Experiments will also be made looking to the development of crop rotations which will include tobacco, which has heretofore been grown largely as a special crop. | | |
| [For the investigation and improvement of forage crops and methods of forage-crop production, $25,000;] | | |
| NOTE.—The above item is omitted and forage-crop work will hereafter be provided under the special seed item. | | |
| [For testing and breeding fibrous plants, including the testing of flax straw, in cooperation with the North Dakota Agricultural College, which may be used for paper making, $10,840;] | | |
| NOTE.—The above item is omitted because of changed economic conditions brought about by the placing of wood pulp on the free list which eases the paper situation so that the demands for substitutes for wood pulp will continue to be less important for a number of years than they have been in the past. | | |
| For the breeding and physiological study of alkali-resistant and drought-resistant crops, [$19,280;] *$22,280* (*same act*)..... | 22,280.00 | |
| NOTE.—There is an increase in the above item of $3,000, as follows:<br>Breeding and physiology of alkali-resistant and drought-resistant plants, $2,000. To effectively carry on the water requirement experiments and closely related work will require an additional assistant and a considerable increase in field expenses, including additional apparatus, equipment, etc.<br>Egyptian cotton breeding in arid southwest, $1,000. The rapid development of Egyptian cotton in the Salt River Valley necessitates the continuance and enlargement of the breeding work, together with a competent field assistant to instruct the farmers in methods of roguing their fields so as to secure uniformity of staple and purity of seed. | | |
| [For the investigation and improvement of sugar-producing plants, including their utilization and culture, $38,595;] | | |
| *For beet sugar investigations, including studies of diseases and the improvement of the beet and methods of culture, $31,495* (*same act*)..... | 31,495.00 | |
| NOTE.—This is a rearrangement of the old item with a change of phraseology, and carries an apparent decrease of $7,100, but as there was, during the present year, a transfer of $1,000 from horticultural investigations for sugar-beet seed work, which amount will not be available during the coming fiscal year, the actual decrease is $8,100. This decrease is due to the discontinuance of allotment for sugar-cane investigations and work on minor sugar-producing plants, as it is desired to concentrate the work on the sugar beet. | | |

| For investigations in economic and systematic botany and the improvement and utilization of wild plants and grazing lands, [$22,000;] *$24,000 (act Mar. 4, 1913, vol. 37, pp. 834–836, sec. 1)* ..... $24,000.00 | | |
| NOTE.—There is an increase in the above item of $2,000, and is required for the general office and laboratory to provide adequate laboratory and greenhouse facilities for working out the best methods of propagating the highly desirable varieties of blue berries that are resulting from the experimental work under this project. | | |
| To investigate and encourage the adoption of improved methods of farm management and farm practice, and for farm demonstration work, [$375,000;] *$365,520: Provided*, That of the amount hereby appropriated the sum of [$8,800] *$9,180* may be used in the investigation and utilization of cacti and other dry-land plants as food for stock (*same act*)..... 365,520.00 | | |
| NOTE.—A change of phraseology has been made in this item and there is an apparent decrease of $9,480; but as 1 clerk, at $1,000, 3 clerks, at $1,200, 1 clerk, at $900, 2 clerks, at $720, 1 messenger, at $720, 1 laborer, at $660, 1 map tracer, at $600, 1 laborer, at $480, and 2 charwomen, at $240, aggregating $10,480, have been transferred to the statutory roll, the actual increase is $1,000, as follows:<br>Office administration and records, $1,000. The very large recent increase in the work of the office of farm management involves some enlargement of the expenses for assistance, office supplies, etc. | | |
| For farmers' cooperative demonstrations and for the study and demonstration of the best methods of meeting the ravages of the cotton-boll weevil, [$375,000;] *$378,240 (same act)*. 378,240.00 | | |
| NOTE.—There is an apparent increase in the above item of $3,240, but as 1 clerk, at $1,000, 6 clerks, at $720 each, 1 messenger or laborer, at $720, 1 laborer, messenger, or messenger boy, at $480, and 1 charwoman, at $240, aggregating $6,760, have been transferred to the statutory roll the actual increase is $10,000. This increase is to provide for the administration of farmers' cooperative demonstration work, including additional supplies needed, and some addition to the force of assistants. The funds provided for work of this character in the Southern States which require supervision by this office are steadily increasing and appear very likely to do so during the coming year. | | |
| For the investigation and improvement of methods of crop production under semiarid or dry-land conditions, [$130,000;] *$145,000: Provided*, That the limitation in this act as to the cost of farm buildings shall not apply to this paragraph (*same act*)..... 145,000.00 | | |
| NOTE.—There is an increase in the above item of $15,000, as follows:<br>Administrative expenses, increase of $1,500. Some additional clerical assistance and additional office supplies will be required for this work on account of its recent enlargement.<br>Methods of crop production under semiarid, or dry-land conditions, increase of $14,000, is required for the enormous increase of the work at the field stations and the proposed work at stations in Texas and Oklahoma, and the inauguration of cooperative work at Archer, Wyo., and Colby, Kans.<br>Northern great plains field stations, decrease of $500, which is due to the fact that the station is now fairly well established, so that some reduction in its initial expenditure can be made. | | |
| [For studying methods of clearing off "logged off" lands with a view to their utilization for agricultural and dairying pusposes; for their irrigation; for testing powders in clearing them; and for the utilization of by-products arising in the process of clearing, in coperation with the States, companies, or individuals, or otherwise, $5,000;] | | |
| NOTE.—The above item has been omitted because the statistical data needed in connection with the project has been obtained, and because the amount specified is not sufficient to undertake investigational and demonstration work. | | |
| For investigations in connection with western irrigation agriculture, the utilization of lands reclaimed under the reclamation act, and other areas in the arid and semiarid regions, [$75,000;] *$70,380 (same act)*..... 70,380.00 | | |
| NOTE.—There is an apparent decrease of $4,620, but as six messengers, at $720, and one messenger boy, at $300, aggregating $4,620, have been transferred to the statutory roll, there is no change in this item. | | |
| For the investigation and improvement of fruits, and the methods of fruit growing, harvesting, packing, storing, handling, and shipping, and for experimental shipments of fruits within the United States and to foreign countries, [$92,000;] *$107,500 (same act)*.. 107,500.00 | | |
| NOTE.—There is an apparent increase in the above item of $15,500, but as one clerk, at $840, one messenger boy, at $360, and one messenger boy, at $300, aggregating $1,500, have been transferred to the statutory roll, the actual increase is $17,000, as follows:<br>Office and laboratory, $1,500, which is needed to provide additional assistance and office supplies.<br>Fruit transportation and storage investigations, $5,000. This is desired to make possible a more effective study of the problems involved in the safe carriage of fruit in transit to foreign countries in connection with export shipments; and the provision of additional laboratory facilities for necessary experimental work in fruit refrigeration including some increase for field expenses due to the enlarged activities in this work.<br>Viticultural investigations, $1,000, which is required for the normal growth and extension of this important feature of the work.<br>Fruit production investigations, $2,500, which is needed to make possible a satisfactory prosecution of the investigations of the subtropical fruits and the provision for an additional assistant for general field work.<br>Nut culture investigations, $2,000, which is needed for an additional assistant to meet the needs for field work with pecan and walnut investigations.<br>Pomological breeding investigations, $2,000, which is needed for the normal expansion and increase of important lines of fruit breeding work already under way.<br>Miscellaneous pomological investigations, $500, which is needed for the increased activities in miscellaneous work, especially for work on the improvement of the native persimmon.<br>Fruit history investigations, $250, which is needed for traveling expenses.<br>Fruit nomenclature investigations, $750, which is needed for clerical assistance and traveling expenses.<br>Fruit identification investigations, $1,500, which is needed for an additional assistant in the fruit identification work, the demands for which to meet the needs of farmers and fruit growers are increasingly heavy. | | |
| To cultivate and care for experimental gardens and grounds, manage and maintain conservatories, greenhouses, and plant and fruit propagating houses, $11,690 (*same act*)..... 11,690.00 | | |

| [For horticultural investigations, including the study of producing, handling, shipping, and marketing truck and related crops, including the continuance of the potato and sugar-beet seed work provided for in the agricultural act of August 10, 1912 (37 Stat. L., p. 301), and the study of landscape and vegetable gardening, floriculture, and related subjects, $50,960: *Provided*, That of this amount $10,000 may be used to investigate the diseases, cultivation, and acclimating of potatoes, and the development of improved and disease-resistant types thereof.] | | |
| *For horticultural investigations, including the study of producing, handling, and shipping truck and related crops, including potatoes, and the study of landscape and vegetable gardening, floriculture, and related subjects, $56,320; (act Mar. 4. 1913, vol. 37, pp. 834–836, sec. 1)*..... | $56,320.00 | |
| NOTE.—This is a rearrangement of the old item, with changed phraseology, and carries an apparent increase of $5,360; but, as one clerk, at $900, and one charwoman, at $240, have been transferred to the statutory roll, and there is made available for horticultural investigations $4,000, which, during the present year, was transferred to cotton and truck disease investigations, and $1,000 transferred to sugar-plant investigations for potato and sugar-beet seed work in irrigated regions of the West (Jerome, Idaho, station), the actual increase is $11,500, as follows:<br>Truck crop investigations, $1,000, which is required for the normal expansion of the varied lines of work included under this project.<br>Landscape gardening, etc., $500, which is needed for equipment and field expenses.<br>Irish potato investigations, $10,000. The Irish potato investigations which have heretofore been prosecuted under several projects, have been consolidated into a single project in the interest of simpler administration and more effective prosecution of this work. The amount allotted to this work for the present year, including the establishment and maintenance of the potato field station in Idaho, is $20,000. To properly man and develop this work which involves the continuance of the development of disease-resistant types and strains, the testing of varieties best adapted for truck growing, the determination of localities best adapted to seed-potato production, the breeding of sorts better adapted to American conditions than those now in existence, including the testing in different potato regions of many thousands of new seedlings that have been bred in this work, will require the above increase. | | |
| For continuing the necessary improvements to establish and maintain a general experiment farm and agricultural station on the Arlington estate, in the State of Virginia, in accordance with the provisions of the act of Congress approved April 18, 1900, $15,000; (*same act*)..... | 15,000.00 | |
| For investigations in foreign seed and plant introduction, including the study, collection, purchase, testing, propagation, and distribution of rare and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants from foreign countries and from our possessions, and for experiments with reference to their introduction and cultivation inthis country, [$83,000;] *$81,100 (same act)*..... | 81,100.00 | |
| NOTE.—There is an apparent decrease in the above item of $1,900, but as one clerk at $840, one clerk at $720, three messengers at $720, four laborers at $600, one laborer at $900, one laborer at $540, one laborer at $480, and one messenger boy at $360, amounting to $8,400, have been transferred to the statutory roll, there is an actual increase of $6,500, to provide for work of bulb propagation, now carried on under purchase and distribution of valuable seeds. | | |
| *For the purchase, propagation, testing, and distribution of new and rare seeds, and for the investigation and improvement of grasses, alfalfa, clover, and other forage crops, $175,000: Provided, That of this amount not to exceed $100,000 may be used for the purchase and distribution of such new and rare seeds (same act)*..... | 175,000.00 | |
| NOTE.—This item is new and takes the place of the paragraph for forage crop investigations, $25,000, and for the purchase and distribution of valuable seeds, $296,000, making a decrease of $146,000. It is the idea of this wording to enable the Secretary of Agriculture to return, in the handling of the appropriation for the purchase and distribution of valuable seeds, to the original idea of the founders of this movement, namely, to distribute new and rare seeds of special value to agriculture, and at the same time extend the field of the appropriation to cover the improvement of grasses, alfalfa, clover, and other forage crops, and to make special provision for the amount which may be used for the purchase and distribution of such new and rare seeds. The success attained in the distribution of the dry-land seeds under the proviso in the last appropriation act has clearly demonstrated the advantages to be derived from an arrangement which will permit of distributing such seeds in sufficient quantity to enable the cultivators to plant an area large enough to enable them to determine the value and possibility of economically cultivating and harvesting the new crop. | | |
| For general administrative expenses connected with the above-mentioned lines of investigation, including the office of the chief of bureau, the assistant chief of bureau, the chief clerk, the officers in charge of publications, records, supplies, and property, and for miscellaneous expenses incident thereto, [$35,690;] *$32,490 (same act)*..... | 32,490.00 | |
| NOTE.—There is an apparent decrease in the above item of $3,200, but as one clerk, at $1,600, has been transferred to the statutory roll of this bureau, and one clerk, at $1,600, to the statutory roll of the Secretary's office, there is no change in this subappropriation. | | |
| In all, for general expenses, [$1,944,305,] *$2,237,135* (increase of $292,830)..... | $2,237,135.00 | $1,944,305.00 |

[*Purchase and Distribution of Valuable Seeds*]—

[For purchase, propagation, testing, and distribution of valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants; all necessary office fixtures and supplies, fuel, transportation, paper, twine, gum, postal cards, gas, electric current, rent outside of the District of Columbia, official traveling expenses, and all necessary material and repairs for putting up and distributing the same; for repairs and the employment of local and special agents, clerks, assistants, and other labor required, in the city of Washington and elsewhere, $296,000, of which amount not less than $257,000 shall be allotted for congressional distribution. And the Secretary of Agriculture is hereby directed to expend the said sum, as nearly as practicable, in the purchase, testing, and distribution of such valuable seeds, bulbs, shrubs, vines, cuttings, and plants, the best he can obtain at public or private sale, and such as shall be suitable for the respective localities to which the same are to be apportioned, and in which same are to be distributed as hereinafter stated, and such seeds so purchased shall include a variety of vegetable and flower seeds suitable for planting and culture in the various sections of the United States: *Provided*, That the Secretary of Agriculture, after due advertisement and on competitive bids, is authorized to award the contract for the supplying of printed packets and envelopes and the packeting, assembling, and mailing of the seeds, bulbs, shrubs, vines, cuttings, and plants, or any part thereof, for a period of not more than five years nor less than one year, if by such action he can best protect the interests of the United States. | [*Purchase and Distribution of Valuable Seeds*]—Continued. proportion of five-sixths of all seeds, bulbs, shrubs, vines, cuttings, and plants shall, upon their request, after due notification by the Secretary of Agriculture that the allotment to their respective districts is ready for distribution, be supplied to Senators, Representatives, and Delegates in Congress for distribution among their constituents, or mailed by the department upon the receipt of their addressed franks, in packages of such weight as the Secretary of Agriculture and the Postmaster General may jointly determine: *Provided, however*, That upon each envelope or wrapper containing packages of seeds the contents thereof shall be plainly indicated, and the Secretary shall not distribute to any Senator, Representative, or Delegate seeds entirely unfit for the climate and locality he represents, but shall distribute the same so that each Member may have seeds of equal value, as near as may be, and the best adapted to the locality he represents: *Provided, also*, That the seeds allotted to Senators and Representatives for distribution in the districts embraced within the twenty-fifth and thirty-fourth parallels of latitude shall be ready for delivery not later than the 10th day of January: *Provided, also*, That any portion of the allotments to Senators, Representatives, and Delegates in Congress remaining uncalled for on the 1st day of April shall be distributed by the Secretary of Agriculture, giving preference to those persons whose names and addresses have been furnished by Senators and Representatives in Congress, and who have not before during the same season been supplied by the department: *And provided also*, That the Secretary shall report, as provided in this act, the place, quantity, and price of seeds purchased, and the date of purchase; but nothing in this paragraph shall be construed to prevent the Secretary of Agriculture from sending seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, testing, propagation, and distribution of valuable seeds, bulbs, mulberry and other rare and valuable trees, shrubs, vines, cuttings, and plants: *Provided further*, That $39,000 of which sum, or so much thereof as the Secretary of Agriculture shall direct, may be used for the purchase and distribution of drought-resistant field seeds through the Great Plains area and other dry-land sections of the United States.] (*act Mar. 4, 1913, vol. 37, pp. 856, 857, sec. 1*) | | | $296,000.00 |

| FOREST SERVICE. | | | |
| *Salaries, Forest Service*— | | | |
| One forester, who shall be chief of bureau (*acts Feb. 1, 1905, vol. 33, p. 628, secs. 1-5; Mar. 4, 1913, vol. 37, pp. 837, 838, sec. 1*) | $5,000.00 | | |
| One administrative assistant (*same acts*) | 2,000.00 | | |
| One chief of office of accounts and fiscal agent (by transfer from the statutory roll of the division of accounts) (*same acts*) | 2,500.00 | | |
| Seven district fiscal agents, at $2,000 each (by transfer from the statutory roll of the division of accounts) (*same acts*) | 14,000.00 | | |
| One forest supervisor (*same acts*) | 2,700.00 | | |
| One forest supervisor (*same acts*) | 2,600.00 | | |
| Eight forest supervisors, at $2,400 each (increase of 3 in lieu of 5 forest supervisors at $1,600, being a net decrease of $800) (*same acts*) | 19,200.00 | | |
| NOTE.—Plans are being made to consolidate several of the existing forests which are now under separate administration for the purpose of reducing the overhead cost of supervision. By reducing the number of supervisors and forest headquarters it is expected to effect a considerable saving without loss of efficiency. This will impose increased responsibilities upon some of the supervisors and it is believed that they should be given the increased compensation. | | | |

| Six hundred and ninety assistant forest rangers, at $1,100 each, *and the number of assistant forest rangers employed under this item may be decreased or increased during such parts of the year as the Secretary of Agriculture may deem necessary for the efficient and economical administration of the national forests, and any part of the moneys herein specifically appropriated for the compensation of assistant forest rangers which shall not be expended during any part of the year shall remain available for expenditure for such purpose at the same rate per annum throughout the year* (*same acts*) | 759,000.00 | | |
| NOTE.—This new language is to enable the number of assistant forest rangers to be increased or decreased to meet the varying requirements of the seasons. During the summer months the fire danger on the forests and the volume of business resulting from the use of forest resources is greatly increased. The force employed at this season must necessarily be largely in excess of the number employed during other seasons, and since this period varies in different parts of the country and in different years, there should be flexibility in adjusting the number of men employed to the changing needs of the forests. This can not be done if provision is made for a given number of men throughout the whole 12 months of the year. | | | |

| Four watchmen, at $840 each (*acts Feb. 1, 1905, vol. 33, p. 628, secs. 1–5; Mar. 4, 1913, vol. 37, pp. 837, 838, sec. 1*) | $3,360.00 | | |
| One messenger or laborer (*same acts*) | 960.00 | | |
| Three messengers or laborers, at $900 each (*same acts*) | 2,700.00 | | |
| Four messengers or laborers, at $840 each (*same acts*) | 3,360.00 | | |
| Three messengers or laborers, at $780 each (*same acts*) | 2,340.00 | | |
| Four messengers or laborers, at $720 each (*same acts*) | 2,880.00 | | |
| Six messengers or laborers, at $660 each (*same acts*) | 3,960.00 | | |
| Five messengers, messenger boys, or laborers, at $600 each (change of title) (*same acts*) | 3,000.00 | | |
| Two messengers, messenger boys, or laborers, at $540 each (change of title) (*same acts*) | 1,080.00 | | |
| NOTE.—The changes of titles in the two grades named above is in the interest of efficiency. Under civil-service rules messenger boys are not eligible for promotion to messenger, and, unless the proposed changes are made, when a vacancy occurs in the positions at salaries of $540 and $600, it must be filled by the appointment of inexperienced persons from the register instead of the promotion of trained messenger boys of long experience. | | | |
| Three messengers or messenger boys, at $480 each (*same acts*) | 1,440.00 | | |
| Three messengers, or messenger boys, at $420 each (*same acts*) | 1,260.00 | | |

| Eleven charwomen, at $240 each (*same acts*) | 2,640.00 | | |
| | | $2,305,160.00 | $2,239,560.00 |
| NOTE.—There is an apparent increase in the above appropriation for salaries of $65,600; actual increase, $49,100. This increase covers the substitution of 3 supervisors at $2,400 for 5 supervisors at $1,600, the transfer from the miscellaneous to the statutory roll of 1 deputy supervisor, 5 forest rangers, and 34 clerks, and the transfer of 1 chief of office of accounts and fiscal agent and 7 district fiscal agents from the Division of Accounts and Disbursements. These changes are as follows: | | | |
| PLACES DECREASED. | | | |
| 5 forest supervisors, at $1,600 each, changed to 3 forest supervisors, at $2,400 each | $800.00 | | |
| TRANSFERS FROM LUMP FUND TO STATUTORY ROLL. | | | |
| 1 deputy supervisor | $1,800.00 | | |
| 5 forest rangers, at $1,500 each | 7,500.00 | | |
| 1 clerk | 1,600.00 | | |
| 1 clerk | 1,400.00 | | |
| 2 clerks, at $1,300 each | 2,600.00 | | |
| 20 clerks, at $1,200 each | 24,000.00 | | |
| 10 clerks, at $1,100 each | 11,000.00 | | |
| | 49,900.00 | | |
| Actual increase | 49,100.00 | | |
| TRANSFERS FROM THE DIVISION OF ACCOUNTS, WHICH APPROPRIATION HAS BEEN REDUCED ACCORDINGLY. | | | |
| 1 chief of office of accounts and fiscal agent | 2,500.00 | | |
| 7 district fiscal agents, at $2,000 each | 14,000.00 | | |
| | 16,500.00 | | |
| Apparent increase | 65,600.00 | | |

| legal [and fiscal] officers while performing Forest Service work; and for rent outside of the District of Columbia, as follows: | | |
| NOTE.—The proviso in regard to ranger stations has been omitted since the public land laws prohibit the occupancy of land included within the claims of bona fide homestead settlers who have established residence before the creation of the forests for ranger stations; hence the proviso appears to be unnecessary. A new provision has been added in regard to medical supplies as under the act of Mar. 11, 1912 (37 Stat., 74), Congress extended to the employees of the Forest Service the benefits of the liability act of May 30, 1908 (35 Stat., 556). This proviso should be adopted in recognition of the same principle, that the employees of the Forest Service are liable to injury on account of the frequently hazardous character of their work, and that the Government should take all practicable precautions to reduce or alleviate such injuries. Furthermore, since the Government has assumed liability in the case of accident or injury, it is desirable that preventive measures be taken to reduce this liability by furnishing medical supplies for the immediate relief of employees engaged in fire fighting and other hazardous field work. | | |

| Wichita National Forest, Oklahoma, $3,800, [and not to exceed $2,000 may be expended in the erection of a headquarters building;] | 3,800.00 | |
| Wyoming National Forest, Wyoming, $7,170 | 7,170.00 | |
| [Zuni National Forest, New Mexico and Arizona, $3,734;] | | |
| NOTE.—This forest has been combined with the Manzano National Forest of New Mexico. | | |
| Additional national forests created or to be created under section 11 of the act of March 1, 1911 (36 Stat., p. 963), and lands under contract for purchase or for the acquisition of which condemnation proceedings have been instituted for the purposes of said act, [$57,590;] *$77,590* | 77,590.00 | |
| NOTE.—In submitting the estimates above for the national forests reductions have been made by transfers to the statutory roll, as explained in a note under that appropriation. Reductions have also been made on account of the completion of timber estimates and appraisals on a number of the national forests and retrenchment made possible in certain cases by a decrease in the field force and simplification of administrative methods. Against this gross reduction necessary increases have been provided for on a number of national forests to administer the increased cut of timber under new sale contracts which have been approved or will be approved in the near future. Other increases have been necessary for the estimate and appraisal of additional bodies of timber which are now in demand; to cover the cost of growing and distributing nursery stock under the provisions of the act of Mar. 4, 1911, to settlers on territory covered by the act of Apr. 28, 1904; and to provide for the administration and protection of additional national forests which are being acquired in Eastern States for the protection of navigable streams, under the terms of the act of Mar. 1, 1911. The amount appropriated for the national forests for the fiscal year 1914 is $1,895,591; the amount estimated as above for the fiscal year 1915 is $1,888,568, being a net decrease of $7,023. | | |
| [That the Secretary of Agriculture is hereby directed and required to select, classify, and segregate, as soon as practicable, all lands within the boundaries of national forests that may be opened to settlement and entry under the homestead laws applicable to the national forests, and the sum of $100,000 is hereby appropriated for the purposes aforesaid: *Provided*, That not to exceed $35,000 of this sum may be expended under the direction of the Secretary of Agriculture for the examination, survey, and platting of certain lands now listed or to be listed within national forests chiefly valuable for agriculture and describing such lands by metes and bounds, as required by the act of June 11, 1906 (34 Stat., p. 233), and the act of Mar. 3, 1899 (30 Stat., p. 1095), and hereafter such surveys, and the plats and field notes thereof, shall be made by employees of the Forest Service, to be designated by the United States surveyor general, and such surveys, and the plats and field notes thereof, shall be approved by the United States surveyor general:] | | |
| *For the selection, classification, and segregation of lands within the boundaries of national forests that may be opened to homestead settlement and entry under the homestead laws applicable to the national forests, $100,000 (act Mar. 4, 1913, vol. 37, pp. 839–842, sec. 1)* | 100,000.00 | |
| NOTE.—There is an increase in the above item for classification of lands of $35,000. The original paragraph for the classification and survey of lands, which has been subdivided into two paragraphs, appropriated $65,000 for this purpose. Careful study of the field conditions and the organization required to segregate agricultural lands within a reasonable period, particularly in areas where there is immediate demand for settlement, has shown that this work can not be done efficiently with an outlay of less than $100,000. | | |

| *For the survey, and platting of certain lands, chiefly valuable for agriculture, now listed or to be listed within the national forests, under the act of June 11, 1906 (34 Stat., p. 233), and the act of March 3, 1899 (30 Stat., p. 1095), as provided by the act of March 3, 1913, $85,000; Provided* [*further*], That any unexpended balance of an appropriation of $35,000 to be expended "under the direction of the Secretary of Agriculture for survey and listing of lands within the forest reserves chiefly valuable for agriculture and describing the same by metes and bounds or otherwise," and so forth, provided by the act of [August 10, 1912,] *March 4, 1913*, entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 19[13] *14*," be, and the same is, hereby continued and made available for and during the fiscal year ending June 30, 19[14] *15*, for the purpose of this appropriation (*act Mar. 4, 1913, vol. 37, pp. 839–842, sec. 1*) ..... | $85,000.00 | |
| NOTE.—There is an increase in this item for survey of lands of $50,000. The original paragraph for the classification and survey of lands, which has been subdivided into two paragraphs, appropriated $35,000 for this purpose. Six hundred and forty-one claims will require survey during the fiscal year ending June 30, 1915, and an appropriation for $85,000, together with the continuation of any unexpended balance for this purpose in the appropriation for 1914, is necessary to bring this work up to date and avoid delay to settlers in patenting claims for which they have offered final proof. Some minor changes have also been made in the wording of the proviso. | | |
| For fighting and preventing forest fires and for other unforeseen emergencies, $150,000 (*same act*) ..... | 150,000.00 | |
| For the purchase and maintenance of necessary field, office, and laboratory supplies, instruments, and equipments, $160,000 (*same act*) ..... | 160,000.00 | |
| For investigations of methods for wood distillation and for the preservative treatment of timber, for timber testing and the testing of such woods as may require test to ascertain if they be suitable for making paper, and for other investigations and experiments to promote economy in the use of forest products, $140,000 (*same act*) ..... | 140,000.00 | |
| For experiments and investigations of range conditions within national forests, and of methods for improving the range by reseeding, regulation of grazing, and other means, $25,000 (*same act*) ..... | 25,000.00 | |
| For the purchase of tree seed, cones, and nursery stock, for seeding and tree planting within national forests, and for experiments and investigations necessary for such seeding and tree planting, $165,640: *Provided*, That the Secretary of Agriculture may procure such seed, cones, and nursery stock by open purchase without advertisements for proposals whenever in his discretion such method is most economical and in the public interest and when the cost thereof will not exceed $500 (*same act*) ..... | 165,640.00 | |
| For silvicultural, dendrological, and other experiments and investigations independently or in cooperation with other branches of the Federal Government, with States and with individuals, to determine the best methods for the conservative management of forests and forest lands, $83,728 (*same act*) ..... | 83,728.00 | |
| For market and other miscellaneous forest investigations, and for collating, digesting, recording, illustrating, and distributing the results of the experiments and investigations herein provided for, $40,160 (*same act*) ..... | 40,160.00 | |
| For the construction and maintenance of roads, trails, bridges, fire lanes, telephone lines, cabins, fences, and other improvements necessary for the proper and economical administration, protection, and development of the national forests, $400,000: [*Provided*, That hereafter the Secretary of Agriculture, whenever he may deem it necessary for the protection of the national forests from fire, may permit the use of timber free of charge for the construction of telephone lines:] *Provided* [*further*], That no part of the money herein appropriated shall be used to pay the transportation or traveling expenses of any forest officer or agent except he be traveling on business directly connected with the Forest Service and in furtherance of the works, aims, and objects specified and authorized in and by this appropriation: *And provided also*, That no part of this appropriation shall be paid or used for the purpose of paying for, in whole or in part, the preparation or publication of any newspaper or magazine article, but this shall not prevent the giving out to all persons without discrimination, including newspaper and magazine writers and publishers, of any facts or official information of value to the public (*same act*) ..... | 400,000.00 | |
| [That hereafter an additional 10 per centum of all moneys received from the national forests during each fiscal year shall be available at the end thereof, to be expended by the Secretary of Agriculture for the construction and maintenance of roads and trails within the national forests in the States from which such proceeds are derived; but the Secretary of Agriculture may, whenever practicable, in the construction and maintenance of such roads, secure the cooperation or aid of the proper State or Territorial authorities in the furtherance of any system of highways of which such roads may be made a part.] | | |
| NOTE.—The above item is omitted, as it is now permanent legislation. | | |
| In all, for general expenses, [$3,160,119;] *$3,238,096* (increase of $77,977) ..... | $3,238,096.00 | $3,160,119.00 |
| Not to exceed 15 per centum of the total of all sums appropriated under "General expenses, Forest Service," may be used in the discretion of the Secretary of Agriculture as provided above under general expenses for Forest Service for all expenses necessary for the general administration of the Forest Service. | | |
| [That hereafter the Secretary of Agriculture is authorized to reimburse owners of horses, vehicles, and other equipment lost, damaged, or destroyed while being used for necessary fire fighting, trail, or official business, such reimbursement to be made from any available funds in the appropriation to which the hire of such equipment is properly chargeable.] | | |

*General Expenses, Forest Service*—Continued.

[That hereafter the employees of the Forest Service who are assigned to permanent duty in Alaska may, in the discretion of the Secretary of Agriculture, without additional expense to the Government, be granted leave of absence not to exceed 30 days in any one year, which leave may, in exceptional and meritorious cases where such an employee is ill, be extended, in the discretion of the Secretary of Agriculture, not to exceed 30 days additional in any one year.]

NOTE.—The above item is omitted as it is now permanent legislation.

*That hereafter all moneys received as contributions toward cooperative work in forest investigations, or the protection and improvement of the national forests, shall be covered into the Treasury and shall constitute a special fund, which is hereby appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of said investigations, protection or improvements by the Forest Service, and for refunds to the contributors of amounts heretofore or hereafter paid in by them in excess of their share of the cost of said investigations, protection, or improvements.*

NOTE.—The insertion of this paragraph reenacts the provisions of the agricultural appropriation act of June 30, 1906 (34 Stat., 669), and amends it by adding the words "or the protection and improvement of the national forests." When the act of June 30, 1906, was passed it was the intention of the department and of Congress to provide for the safe handling of moneys contributed towards all cooperative work to be carried on by the Forest Service. A subsequent opinion of the comptroller, however, limited the application of the act to strictly investigative work, and since that time the moneys contributed towards the construction of fire lanes, trails, and such other improvements on the national forests have necessarily been handled by the contributors. This method has proved unsatisfactory both to the contributors and to the Government and the amendment to the existing law is recommended in order to facilitate the handling of such work and at the same time to afford a maximum of security by surrounding such transactions with all the safeguards provided by the Treasury Department.

*That hereafter the Secretary of Agriculture may, when necessary for the purpose of increasing the public benefits or public use of the national forests, rent or lease to responsible persons or corporations suitable spaces or portions of ground for the construction of summer residences, hotels, stores, mills, or any structures needed for recreation, convenience, or business purposes.*

NOTE.—Under existing law the Secretary of Agriculture is authorized to permit the occupancy of national forest land for any use not inconsistent with the purposes for which the forests are created, but the permission to occupy such land may be terminated at any time in the discretion of the Secretary. Such permits are sufficient to meet the public needs when the use of the land does not involve expenditures of any considerable sum of money in the erection of buildings or other improvements on the land. When, however, the use of the land necessitates the investment of considerable sums, as, for example, in the erection of hotels, mills, canneries, stores, and other business structures, or summer residences and other buildings for recreation, the revocable permit offers a serious difficulty, which can be readily overcome by extending the authority of the Secretary to the granting of leases. To increase the public benefits and public use of the national forests the adoption of the paragraph inserted in the estimates for 1915 is recommended.

NOTE 1.—Salaries of district foresters, assistant foresters, engineers, forest examiners, rangers, guards, laborers, etc., carried on the lump fund named below on Aug. 31, 1913:

| TRANSFERRED FROM DIVISION OF ACCOUNTS, WHICH APPROPRIATION HAS BEEN REDUCED ACCORDINGLY. | | | |
| 1 clerk, class 3 | $1,600.00 | | |
| | $8,540.00 | | |
| Apparent increase | 7,640.00 | | |
| CHANGE OF TITLE. | | | |
| 1 chief clerk, $2,000, to 1 executive clerk, $2,000. | | | |
| 1 supervising clerk, $2,500, to 1 chief clerk, $2,500. | | | |
| *General Expenses, Bureau of Chemistry*— | | | |
| For all necessary expenses, for chemical apparatus, chemicals and supplies, repairs to apparatus, gas, electric current, official traveling expenses, telegraph and telephone service, express and freight charges, for the employment of such assistants, clerks, and other persons as the Secretary of Agriculture may consider necessary for the purposes named, in the city of Washington and elsewhere, in conducting investigations, collecting and reporting the results of such investigations, and for rent outside of the District of Columbia, for carrying out the investigations and work herein authorized, as follows: | | | |
| For conducting the investigations contemplated by the act of May 15, 1862, relating to the application of chemistry to agriculture, [$65,000;] *$52,400* | $52,400.00 | | |
| NOTE.—Apparent decrease $12,600, but as one laboratory helper, messenger boy, or laborer, at $600, has been transferred to the statutory roll the actual decrease in this item is $12,000. This is on account of the discontinuance of the project on fermented food products. | | | |
| For collaboration with other departments of the Government desiring chemical investigations and whose heads request the Secretary of Agriculture for such assistance, and for other miscellaneous work, [$40,000;] *$14,000* | 14,000.00 | | |
| NOTE.—There is a decrease in the above item of $26,000. This item is decreased because the work of testing contract supplies should be transferred to the Department of Commerce. | | | |
| For investigating the character of the chemical and physical tests which are applied to American food products in foreign countries, and for inspecting the same before shipment when desired by the shippers or owners of these products intended for countries where chemical and physical tests are required before the said products are allowed to be sold therein, and for all necessary expenses in connection with such inspection and studies of methods of analysis in foreign countries, $4,280 | 4,280.00 | | |
| *For investigating the preparation for market, the handling, grading, packing, freezing, drying, storing, and transportation of poultry and eggs, and for experimental shipments of poultry and eggs within the United States, $50,000* | 50,000.00 | | |
| NOTE.—Apparent increase, $50,000. This amount has been transferred from the lump appropriation for the enforcement of the food and drugs act, under which appropriation the work has been formerly done, and that appropriation has been reduced accordingly. There is, therefore, no increase involved in this change. | | | |
| *For investigating the handling, grading, packing, canning, freezing, storing, and transportation of fish, and for experimental shipments of fish, for the utilization of waste products, and the development of new sources of food, $15,000* | 15,000.00 | | |
| NOTE.—This is a new item and involves an increase of $15,000. It is for a line of work urgently needed on account of the great economic loss from faulty methods of handling fish and the loss from waste products. The amount estimated is the lowest with which the work can be started to advantage. | | | |
| *For the inspection and other necessary investigation of the production, packing, handling, storing, and shipping of oysters and other shell fish in the United States and the waters bordering on the United States, for the purpose of furnishing information for the control of oysters and other shell fish under the food and drugs act, $25,000* | 25,000.00 | | |
| NOTE.—This is a new item and involves an increase of $25,000. The oyster is a valuable food product, but, like milk, must be handled with great care to prevent contamination. There is urgent need of scientific investigation of the best ways of producing and handling them. Owing to the extent of the oyster beds at least $25,000 will be necessary for the first year's work. | | | |
| *For the biological investigation of food and drug products and substances used in the manufacture thereof, $20,000* | 20,000.00 | | |
| NOTE.—This is a new item and involves an increase of $20,000. Biological problems are arising constantly in connection with the food and drugs act that must be solved before action can be taken. The solution of other problems along these lines will be of great benefit to the economic welfare and health of the people. The amount requested will enable the work to be started. | | | |
| In all, for general expenses, [$109,280,] *$180,680* (increase of $71,400); (*R. S., p. 87, sec. 520; act Mar. 4, 1913, vol. 37, p. 844, sec. 1*) | | $180,680.00 | $109,280.00 |

| 4 assistant chemists, at $1,440 each | 5,760 | |
| Total | 24,860 | |
| AGRICULTURAL INVESTIGATIONS. | | |
| In Washington: | | |
| 1 chief of laboratory | 3,500 | |
| 1 chief of laboratory | 3,000 | |
| 1 laboratory assistant | 2,400 | |
| 2 assistant chemists, at $2,040 each | 4,080 | |
| 1 assistant chemist | 2,000 | |
| 3 assistant chemists, at $1,800 each | 5,400 | |
| 4 assistant chemists, at $1,620 each | 6,480 | |
| 5 assistant chemists, at $1,440 each | 7,200 | |
| 1 scientific assistant | 1,800 | |
| Total | 35,860 | |
| Out of Washington: | | |
| 1 chief of laboratory | 2,520 | |
| 1 assistant chemist | 1,440 | |
| 1 unskilled laborer | 600 | |
| 1 collaborator | 300 | |
| Total | 4,860 | |
| AMERICAN FOOD PRODUCTS. | | |
| Out of Washington: | | |
| 1 assistant chemist, at $1,620 (estimated) | 1,350 | |
| 2 assistant chemists, at $1,440 each | 2,880 | |
| Total | 4,230 | |
| *Enforcement of the Food and Drugs Act*— | | |
| For enabling the Secretary of Agriculture to carry into effect the provisions of the act of June 30, 1906, entitled "An act for preventing the manufacture, sale, or transportation of adulterated, or misbranded, or poisonous, or deleterious foods, drugs, medicines, and liquors, and for regulating traffic therein, and for other purposes," in the city of Washington and elsewhere, including chemical apparatus, chemicals and supplies, repairs to apparatus, gas, electric current, official traveling expenses, telegraph and telephone service, express and freight charges, and all other expenses, employing such assistants, clerks, and other persons as may be considered necessary for the purposes named, and rent outside of the District of Columbia, [$675,000.] *$654,301; and hereafter the Secretary of Agriculture may employ and designate scientific experts to make investigations and act as boards or committees to report to him upon questions arising in the enforcement of said act of June 30, 1906 (acts June 30, 1906, vol. 34, pp. 768–772, sec. 1; Mar. 4, 1913, vol. 37, pp. 844, 845, sec. 1)* | $654,301.00 | $675,000.00 |
| NOTE 1.—There is an apparent decrease in the above appropriation of $20,699, but taking into consideration the transfer of $50,000 from this appropriation to the lump-fund appropriation for general expenses for poultry and egg investigations, and the transfer of one clerk, at $1,200; one clerk, at $1,000; one clerk, at $960; two clerks, at $900 each; one laboratory helper, at $900; and two charwomen, at $240 each to the statutory roll of this bureau ($6,340), making a total of $56,340, there is an actual increase of $35,641. The enactment of the Sherley amendment and the net-weight amendment to the food and drugs act, and the application of the food and drugs act to meat and meat-food products have greatly increased the work. It is important that certain lines of scientific investigation in connection with food and drug products be extended. New language authorizing the Secretary to employ and designate experts to make investigations has also been added. | | |
| NOTE 2.—Salaries of chiefs of laboratories, chemists, assistant chemists, bacteriologists, special agents, experts, etc., carried on the lump fund named below on Aug. 31, 1913: | | |
| ENFORCEMENT OF THE FOOD AND DRUGS ACT. | | |

| BUREAU OF SOILS. | | | |
| *Salaries, Bureau of Soils*— | | | |
| One soil physicist, who shall be chief of bureau (*R. S., p. 87, secs. 522, 523; act Mar. 4, 1913, vol. 37, p. 845, sec. 1*) | $4,000.00 | | |
| One chief clerk (*same acts*) | 2,000.00 | | |
| One executive assistant (*same acts*) | 2,000.00 | | |
| Four clerks, class 4 (increase of one by transfer from lump fund) (*same acts*) | 7,200.00 | | |
| Two clerks, class 3 (*same acts*) | 3,200.00 | | |
| Four clerks, class 2 (*same acts*) | 5,600.00 | | |
| One clerk (*same acts*) | 1,260.00 | | |
| Eight clerks, class 1 (*same acts*) | 9,600.00 | | |
| Five clerks, at $1,000 each (increase of one by transfer from lump fund) (*same acts*) | 5,000.00 | | |
| Three clerks, at $900 each (*same acts*) | 2,700.00 | | |
| One soil cartographer (*same acts*) | 1,800.00 | | |
| One soil bibliographer or draftsman (change of title from 1 soil bibliographer at same salary) (*same acts*) | 1,400.00 | | |
| NOTE.—This change of title is recommended to enable the bureau to employ the services of a soil bibliographer or draftsman as the needs of the bureau may develop from time to time. The change of title will materially improve the efficiency of the position. | | | |
| One photographer (*same acts*) | 1,200.00 | | |
| Five draftsmen, at $1,200 each (increase of one by transfer from lump fund) (*same acts*) | 6,000.00 | | |

| Three messengers, messenger boys, or laborers, at $480 each (*same acts*) | 1,440.00 | | |
| Two laborers, at $600 each (increase of one by transfer from lump fund) (*same acts*) | 1,200.00 | | |
| One laborer (*same acts*) | 300.00 | | |
| One charwoman or laborer (*same acts*) | 480.00 | | |
| | | $59,420.00 | $53,620.00 |
| NOTE.—Apparent increase, $5,800, as follows: | | | |
| TRANSFERS FROM LUMP FUND, WHICH APPROPRIATION HAS BEEN REDUCED ACCORDINGLY. | | | |
| 1 clerk, class 4 (soil survey) | $1,800.00 | | |
| 1 clerk (soil survey) | 1,000.00 | | |
| 1 draftsman (soil survey) | 1,200.00 | | |
| 1 clerk-draftsman (soil survey) | 1,200.00 | | |
| 1 laborer (administrative expenses) | 600.00 | | |
| | *$5,800.00* | | |
| Apparent increase | 5,800.00 | | |
| CHANGE OF TITLE. | | | |
| 1 soil bibliographer, at $1,400, changed to 1 soil bibliographer or draftsman at same salary. | | | |
| *General Expenses, Bureau of Soils*— | | | |
| For all necessary expenses connected with the investigations and experiments hereinafter authorized, including the employment of investigators, local and special agents, assistants, experts, clerks, draftsmen, and labor in the city of Washington and elsewhere; official traveling expenses, materials, tools, instruments, apparatus, repairs to apparatus, chemicals, furniture, office fixtures, stationery, gas, electric current, telegraph and telephone service, express and freight charges, rent outside of the District of Columbia, and for all other necessary supplies and expenses, as follows: | | | |
| For chemical investigations of soil types, soil composition and soil minerals, the soil solution, solubility of soil and all chemical properties of soils in their relation to soil formation, soil texture, and soil productivity, including all routine chemical work in connection with the soil survey, [$18,135;] *$22,350* (*act Mar. 4, 1913, vol. 37, p. 845, sec. 1*) | 22,350.00 | | |
| NOTE.—Increase of $4,215. The laboratory work authorized under this appropriation is of fundamental importance to a knowledge of chemistry of the soils. This work requires exceedingly careful and painstaking analyses. The pressure of other lines of endeavor has required a temporary curtailment of some of these investigations. The small increase recommended is the minimum with which it is believed the several investigations may be resumed and continued, and provide for the necessary laboratory supplies and additional equipment. | | | |
| For physical investigations of the important properties of soil which determine productivity, such as moisture relations, aeration, heat conductivity, texture, and other physical investigations of the various soil classes and soil types, [$11,265;] *$19,470* (*same act*) | 19,470.00 | | |
| NOTE.—Increase of $8,205. The physical investigations have been inadequately covered because of the limited means available for employing scientists in purely investigation work. For this reason the subjects of soil aeration, heat conductivity, and soil temperature, and their relations to productivity have not been studied during the last year. The importance of the subjects should require the entire energies of an investigator in each. A part of the increase asked is required for special equipment necessary in the study of soil moisture and soil texture and in paying for additional aid in routine physical work. | | | |

| *General Expenses, Bureau of Soils*—Continued. | | | |
| For soil-fertility investigations into organic causes of infertility and remedial measures, maintenance of productivity, properties and composition of soil humus, and the transformation and formation of soil humus by soil organisms, [$27,200;] *$32,700 (act Mar. 4, 1913, vol. 37, p. 845, sec. 1)* | $32,700.00 | | |
| NOTE.—Increase of $5,500, of which amount $1,500 is for the erection and equipment of a field soil workhouse or laboratory necessitated by the development of the field work, to be used for the mixing of the chemicals and in the field tests, for the handling of the soils experimented with, for the preparation of solutions required in the field work, for the examination of field samples for the biochemical properties, and for such other laboratory facilities as the field and greenhouse tests on soils require. One thousand five hundred dollars is for the erection of a greenhouse in connection with the above soil workhouse or laboratory to be used for all soil and solution culture tests, which is now being done in inadequate quarters. It has become urgently necessary to erect a greenhouse more favorably located and with proper equipment for controlling the conditions improved by the scientific work for which it is required. These two items, aggregating $3,000, are therefore for permanent equipment, and apply to this year only, the remaining $2,500 is for the increase of the work proper, and is for the employment of an additional scientist to assist in the investigation on the maintenance of soil fertility. | | | |
| For exploration and investigation within the United States to determine possible sources of supply of potash, nitrates, and other natural fertilizers, [$25,000] *$31,500 (same act)* | 31,500.00 | | |
| NOTE.—Increase of $6,500. The increase asked for in investigations of fertilizer resources is intended for use entirely in investigating sources of nitrogen for fertilizers. The field is a comparatively new one, but the importance of the subject warrants a considerable increase. Expensive equipment is necessary for the proper study of nitrogen fixation. The investigation of wastes in cities and from garbage, night soil, sweepings, etc., for use as fertilizer is of importance and would require the expenditure of part of the increase requested. | | | |
| [For the investigation of soils and for indicating upon maps and plats, by coloring or otherwise, the results of such investigations, $175,000:] | | | |
| *For the investigation of soils, in cooperation with other branches of the Department of Agriculture, other departments of the Government, State agricultural experiment stations, and other State institutions, and for indicating upon maps and plats, by coloring or otherwise, the results of such investigations, $169,800 (same act)* | 169,800.00 | | |
| NOTE.—The wording of the above item has been changed to conform more closely with the work done. The apparent decrease is $5,200, but as one clerk at $1,800, one draftsman at $1,200, one clerk-draftsman at $1,200, and one clerk at $1,000, aggregating $5,200, have been transferred to the statutory roll, there is no change in the amount of the appropriation. | | | |
| For the examination and classification of agricultural lands in forest reserves in cooperation with the Forest Service, $20,000 *(same act)* | 20,000.00 | | |
| For general administrative expenses connected with the above-mentioned lines of investigation, [$3,800;] *$3,200 (same act)* | 3,200.00 | | |
| NOTE.—Apparent decrease $600, but as one laborer at $600 has been transferred to the statutory roll there is no change in this item. | | | |
| In all, for general expenses, [$280,400,] *$299,020* (increase $18,620) | | $299,020.00 | $280,400.00 |

| *General Expenses, Bureau of Entomology*— | | | |
| For the promotion of economic entomology; for investigating the history and the habits of insects injurious and beneficial to agriculture, horticulture, arboriculture, and the study of insects affecting the health of man and domestic animals, and ascertaining the best means of destroying those found to be injurious; for collating, digesting, reporting, and illustrating the results of such investigations; for salaries and the employment of labor in the city of Washington and elsewhere, rent outside of the District of Columbia, freight, express charges, official traveling expenses, office fixtures, supplies, apparatus, telegraph and telephone service, gas, and electric current, in connection with the following investigations: | | | |
| For investigations of insects [affecting deciduous fruits, orchards, vineyards, and nuts] *injurious to orchards, nurseries, vineyards, and similar crops,* [$45,000] *$59,100 (act Mar. 4, 1913, vol. 37, p. 846, sec. 1)* | $59,100.00 | | |
| NOTE.—Apparent increase, $14,100; actual increase, $15,000, as one clerk, at $900, has been transferred to the statutory roll. A slight change has also been made in the wording of this item. The codling moth occasions each year a loss to apple growers of some $12,000,000, and something like $5,000,000 are being spent annually in spraying operations against it. The investigations already accomplished under this project have resulted in a decided increase in efficiency of spraying operations in regions where the work has been carried on, and it is desired to extend the work to other fruit-growing districts, but this will be impossible unless additional funds are appropriated. If the increase asked for is allowed it is proposed to establish in one of the southeastern States, and also in the Rocky Mountain region, laboratories for the study of the codling moth. There is a demand for further studies of the woolly apple aphis in orchards, and biological studies in connection with plant lice affecting apples, and the investigations of apple-tree borers underway should be continued and extended to additional fruit-growing sections. Numerous other apple pests require attention; for example, the apple maggot in the New England States, scale insects, bud moth, etc. There is also a growing demand for further investigations in connection with insects affecting the peach and pecan, and further investigations relating to the usefulness, methods of propagation, and spread of various insects predatory upon orchard and other pests, such as the so-called ladybird beetles or coccinellidæ. | | | |
| For investigations of insects affecting cereal and forage [plants, including insects affecting wheat, corn, oats, rye, barley, alfalfa, clover, etc., $90,000, of which amount not to exceed $10,000, shall be expended for the investigation of the range caterpillar;] *crops, $114,500 (same act)* | 114,500.00 | | |
| NOTE.—Apparent increase, $24,500; actual increase, $25,700, as 1 clerk, at $1,200, has been transferred to the statutory roll. Some changes have also been made in the wording of this item. Of this amount, it is proposed to expend $3,000 in connection with the alfalfa weevil investigations. The outlook for the control of this species was never more encouraging, as additional parasites are being discovered in Europe and brought to this country, where their introduction is becoming, to a certain degree at least, successful. It is also desired to use about $4,000 of the amount for investigations of the soja bean, cowpea, and other miscellaneous forage insects, and to investigate the various grasshopper outbreaks throughout the United States, for which there has been a strenuous demand, and which the bureau has been unable to meet, owing to a lack of funds. The major portion of the increase asked will be used in connection with investigations of the white grub, the fall army worm, cutworms, wireworms, and the Hessian fly, and rootworms, all of which are committing serious ravages throughout the country, and in order to check the ravages of these pests it will be necessary to establish additional field stations in various sections of the country. With the increase asked for it is believed that the bureau will be able to meet the constantly increasing demands from farmers for aid in protecting their crops. | | | |

| For investigations of insects affecting southern field crops, including insects affecting cotton, tobacco, rice, sugar cane, etc., and the Argentine ant, [$50,000;] *$49,000 (act Mar. 4, 1913, vol. 37, p. 846, sec. 1)* | $49,000.00 | | |
| NOTE.—Apparent decrease, $1,000, but as 1 clerk, at $1,000, has been transferred to the statutory roll, there is no change in the amount of this item. | | | |
| For [investigations of insects affecting forests,] *forest entomology*, [$44,750;] *$54,790 (same act)* | 54,790.00 | | |
| NOTE.—Apparent increase, $10,040; actual increase, $10,400, as 1 messenger boy, at $360, has been transferred to the statutory roll. The wording of this item has also been changed. This increase is desired in order to meet the growing demand for information from Federal and State forest officials and private owners for demonstration projects, and for assistance and advice by experts in the field on the essential details in the establishment and carrying out of insect-control policies in connection with those of forest management, protection, and utilization. It is also desired to conduct more detailed investigations of the insects affecting forest growth in the eastern United States, with special reference to the hickory, oak, ash, and other of the more important hardwood trees. Increased attention should also be given to wood preservatives and species of wood to determine the relative immunity of treated and untreated wood and different kinds of wood to attack by some of the more important species of insects. | | | |
| For investigations of insects affecting truck crops, including insects affecting the potato, sugar beet, cabbage, onion, tomato, beans, peas, etc., and insects affecting stored products, [$35,000] *$41,500 (same act)* | 41,500.00 | | |
| NOTE.—Increase of $6,500. This is desired, for increased investigations in connection with the potato tuber moth, sugar-beet leaf hoppers, onion maggot, seed-corn maggot, wireworms, the melon aphis in the West, and the pickle and melon worms in the South are essential to check the ravages of these pests. With the increase asked for, additional field investigations can be undertaken. A special feature of the work planned for the ensuing fiscal year is the introduction of more desirable combinations of insecticides, including new ones, and the development and introduction at each of the separate stations of new types of spraying machinery, each to be adapted to the special projects and local conditions. | | | |
| For investigations in bee culture, [$15,000;] *$21,500 (same act)* | 21,500.00 | | |
| NOTE.—Increase of $6,500. A portion of this increase will be used for the purchase of delicate scales and other instruments, and the temporary employment of persons in connection with the study of the wintering of bees, and to collect additional data on the effects of foods, and, in addition to the work on the brood disease which need continued attention, a disease of adult bees, which is little understood, is to be investigated, and this will require additional travel and some extra equipment. It is also desired to undertake investigations in connection with the behavior of bees. This proposed project covers a wide study of the activities of bees for the purpose of understanding better the present manipulations of bees, and of devising new manipulations as the activities are better understood. While this project is not wholly new, observations having been made in the past on the manipulations of wax scales and the methods of gathering pollen, it is now desired to take the problem up seriously by the employment of a trained observer. | | | |
| For investigations of insects affecting tropical and subtropical fruits, including insects affecting the orange, lemon, grapefruit, mango, and so forth, [$21,500;] *$20,100 (same act)* | 20,100.00 | | |
| NOTE.—Apparent decrease, $1,400, but as one clerk, at $1,400, has been transferred to the statutory roll, there is no change in the amount of this item. | | | |
| For investigations of the Mediterranean *fruit* fly, [in the United States, its Territories and possessions, $35,000;] *$33,200 (same act)* | 33,200.00 | | |
| NOTE.—Apparent decrease, $1,800, but as 1 clerk, at $1,800, has been transferred to the statutory roll, there is no change in the amount of this item. A slight change has also been made in the wording of this paragraph. | | | |
| For investigations, *identification, and systematic classification* of miscellaneous insects, including the study of insects affecting the health of man and domestic animals, household insects, *and* the importation and exchange of useful insects, [and experiments with insecticides and insecticide machinery, $45,000;] *$54,280 (same act)* | 54,280.00 | | |
| NOTE.—Apparent increase, $9,280; actual increase, $10,000, as 2 messenger boys, at $360 each, have been transferred to the statutory roll. The wording of this item has been changed by the insertion of the words "identification, and systematic classification," after the words "For investigations." A portion of the increase is to provide for additional work on insects affecting the health of man and domestic animals. A portion of the increase is intended for use in the cooperative work against the housefly which has been begun, and to enable the bureau to meet the demand made upon it for careful studies of the malaria-bearing mosquitoes. Of the proposed increase, $5,000 is submitted to cover a study of the losses which occur in regions in the West from the attack of horseflies on domestic animals. In certain areas these flies occur in enormous numbers at the time of harvest, which is the most critical time in the year for live stock on the farm, and the work of gathering the crops is frequently interfered with, or even prevented, for a considerable period. It is also planned to study several other insects injuring domestic animals. | | | |
| In all, for general expenses, [$381,250.] *$447,970* (increase of $66,720) | | $447,970.00 | $381,250.00 |

NOTE.—Salaries of entomological assistants, experts, agents, field assistants, etc., carried on the lump funds named below on Aug. 31, 1913:

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *General Expenses, Bureau of Biological Survey*— | | |
| For salaries and employment of labor in the city of Washington and elsewhere, furniture, supplies, traveling and all other expenses necessary in conducting investigations and carrying out the work of the bureau, as follows: | | |
| For the enforcement of sections 241, 242, 243, and 244 of the act approved Mar. 4, 1909, entitled "An act to codify, revise, and amend the penal laws of the United States," and for the enforcement of section 1 of the act approved May 25, 1900, entitled "An act to enlarge the powers of the Department of Agriculture, prohibit the transportation by interstate commerce of game killed in violation of local laws, and for other purposes," $16,000 (*acts May 25, 1900, vol. 31, p. 187, secs. 1–5; Mar. 4, 1913, vol. 37, pp. 842, 848, sec. 1*) | $16,000.00 | |
| For the maintenance of the Montana National Bison Range and other reservations under supervision of the Biological Survey, including construction of fencing, wardens' quarters, shelters for animals, landings, roads, trails, bridges, ditches, telephone lines, rockwork, bulkheads, and other improvements necessary for the economical administration and protection of the reservations, and for the enforcement of section 84 of the act approved Mar. 4, 1909, entitled "An act to codify, revise, and amend the penal laws of the United States," $21,000, of which sum $2,500 may be used for the purchase, capture, and transportation of game for national reservations (*same acts*) | 21,000.00 | |
| [For the establishment and maintenance of a winter elk refuge in the State of Wyoming, $5,000, to be available until expended, and the Secretary of Agriculture is hereby authorized to include in said refuge and to inclose not more than 1,000 acres of unoccupied public lands, which, when selected, shall be made to conform to the lines of the public surveys, and shall be adjacent to or partly inclosed by said refuge.] | | |
| NOTE.—The above paragraph has been omitted as all necessary action will be taken during the present fiscal year and it is therefore unnecessary to continue this item. | | |
| For investigating the food habits of North American birds and mammals in relation to agriculture, horticulture, and forestry, including experiments and demonstrations in destroying noxious animals, and for investigations and experiments in connection with rearing of fur-bearing animals, including mink and marten, $60,000, of which sum $15,000 shall be used for the destruction of ground squirrels on the national forests (*same acts*) | 60,000.00 | |
| For biological investigations, including the relations, habits, geographic distribution, and migrations of animals and plants, and the preparation of maps of the life and crop zones, [$15,000;] *$21,500* (*same acts*) | 21,500.00 | |
| NOTE.—This is an increase of $6,500, which will be used for field investigations of migration of birds, especially the waterfowl, to furnish data for the effective administration of the migratory bird act; for investigating the bird and mammal life of the national forests and other parts of the public domain; to continue the study of the distribution of birds and mammals in the States where work is already in progress, and to prepare distribution maps showing migration routes of North American birds. | | |
| For general administrative expenses connected with the above-mentioned lines of work, including cooperation with other Federal bureaus, departments, boards, and commissions, on request from them, [$14,000;] *$15,000* (*same acts*) | 15,000.00 | |
| NOTE.—This is an increase of $1,000, as the increased scope of the work of the bureau necessitates additional supplies as well as other miscellaneous expenses, and a larger clerical force and more assistants in the office. | | |
| [All wild geese, wild swans, brant, wild ducks, snipe, plover, woodcock, rail, wild pigeons, and all other migratory game and insectivorous birds, which in their northern and southern migrations pass through or do not remain permanently the entire year within the borders of any State or Territory, shall hereafter be deemed to be within the custody and protection of the Government of the United States, and shall not be destroyed or taken contrary to regulations hereinafter provided therefor.] | | |
| [The Department of Agriculture is hereby authorized and directed to adopt suitable regulations to give effect to the previous paragraph by prescribing and fixing closed seasons, having due regard to the zones of temperature, breeding habits, and times and line of migratory flight, thereby enabling the department to select and designate suitable districts for different portions of the country, and it shall be unlawful to shoot or by any device kill or seize and capture migratory birds within the protection of this law during said closed seasons, and any person who shall violate any of the provisions or regulations of this law for the protection of migratory birds shall be guilty of a misdemeanor and shall be fined not more than $100 or imprisoned not more than 90 days, or both, in the discretion of the court.] | | |
| [The Department of Agriculture, after the preparation of said regulations, shall cause the same to be made public, and shall allow a period of 3 months in which said regulations may be examined and considered before final adoption, permitting, when deemed proper, public hearings thereon, and after final adoption shall cause the same to be engrossed and submitted to the President of the United States for approval: *Provided, however*, That nothing herein contained shall be deemed to affect or interfere with the local laws of the States and Territories for the protection of nonmigratory game or other birds resident and breeding within their borders, nor to prevent the States and Territories from enacting laws and regulations to promote and render efficient the regulations of the Department of Agriculture provided under this statute.] | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *General Expenses, Bureau of Biological Survey*—Continued. | | |
| [There is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, for the purpose of carrying out these provisions, the sum of $10,000.] | | |
| *For all necessary expenses for enforcing the provisions of the act approved March 4, 1913 (37 Stat. at L., pp. 847, 848), relating to the protection of migratory game and insectivorous birds, $100,000 (acts May 25, 1900, vol. 31, p. 187, secs. 1–5; Mar. 4, 1913, vol. 37, pp. 847, 848, sec. 1).* | $100,000.00 | |
| NOTE.—The original law is omitted, as it is now permanent legislation, and a new item as above is submitted to provide funds for the enforcement of the law during the fiscal year 1915. This is an increase of $90,000 over the amount appropriated for the current fiscal year and is based on an allotment of about $2,000 for each State for migratory bird protection to cover both salaries and traveling expenses. Five or six of the States are now expending about $100,000 each for warden service. While the increase asked for by this department is small in comparison with the amounts expended by the various States, it is believed that this department can conduct the work with this amount, as it will not require the services of all of its employees throughout the year, and can perform the work much more economically and efficiently by transferring men from one State to another, and by reason of the cooperation of the State authorities. | | |
| In all, for general expenses, [$141,000.] *$233,500* (increase of $92,500) | $233,500.00 | $141,000.00 |

| *Salaries, Bureau of* [*Statistics*] *Agricultural Forecasts*—Continued. | | | |
| One messenger, messenger boy, or laborer (change of title from 1 messenger or messenger boy, $480, to 1 messenger, messenger boy, or laborer, at same salary) (*R. S., p. 87, secs. 522, 523; act Mar. 4, 1913, vol. 37, p. 849, sec. 1*) | $480.00 | | |
| One charwoman, messenger, or laborer (change of title from 1 charwoman, $540, to 1 charwoman, messenger, or laborer, $540) (*same acts*) | 540.00 | | |
| Two charwomen, messenger boys, or laborers (change of title from 2 charwomen, at $360 each, to 2 charwomen, messenger boys, or laborers, at $360 each) (*same acts*) | 720.00 | | |
| | | $114,180.00 | $115,380.00 |
| NOTE.—Apparent decrease in above appropriation, $1,200; actual decrease, $2,600, as follows: | | | |
| PLACES DECREASED. | | | |
| 1 clerk, at $1,200, to 1 clerk, class 1 | $100.00 | | |
| TRANSFERRED TO LUMP FUND. | | | |
| 1 assistant statistician | 2,500.00 | | |
| Actual decrease | 2,600.00 | | |
| TRANSFERRED FROM DIVISION OF ACCOUNTS, WHICH APPROPRIATION HAS BEEN REDUCED ACCORDINGLY. | | | |
| 1 clerk, class 2 | 1,400.00 | | |
| Apparent decrease | 1,200.00 | | |
| *General Expenses, Bureau of* [*Statistics*] *Agricultural Forecasts*— | | | |
| [For all necessary expenses for collecting domestic and foreign agricultural statistics, compiling, writing, and illustrating statistical matter for monthly, annual, and special reports, and for special investigations and compilations, as follows:] | | | |
| *For all necessary expenses for collecting, compiling, abstracting, analyzing, summarizing, and interpreting data relating to agricultural industries; for making and publishing periodically crop and live-stock forecasts and estimates, including acreage, yield, and value of farm products, as follows:* | | | |
| NOTE.—The designation of this appropriation has been changed from "General Expenses, Bureau of Statistics," to "General Expenses, Bureau of Agricultural Forecasts," and the language of the opening paragraph has been modified to more clearly express the objects of the work to be performed by this bureau. | | | |
| Salaries and employment of labor in the city of Washington and elsewhere, supplies, telegraph and telephone service, freight and express charges, and all other necessary miscellaneous administrative expenses, [$24,700;] *$31,200* (*act Mar. 4, 1913, vol. 37, p. 849, sec. 1*) | 31,200.00 | | |
| NOTE.—This is an apparent increase of $6,500, but $2,500 of this amount covers the transfer of one assistant statistician, who will be assistant chief of bureau, to this fund, making the actual increase $4,000, which amount is required for additional supplies, telegraph, and other expenses. | | | |
| [Salaries and traveling and other necessary expenses of special field agents, $68,900;] | | | |
| [Salaries and traveling and other necessary expenses of State statistical agents, $32,200;] | | | |
| [Traveling and other necessary expenses of official and special investigators, $2,500;] | | | |
| *Salaries, travel, and other necessary expenses of employees out of the city of Washington engaged in field investigations, $155,300* (*same act*) | 155,300.00 | | |
| NOTE.—An increase of $51,700. The three subappropriations above have also been combined in order to simplify bookkeeping, handling of accounts, and to bring together the expenses of the field force in one item. This is for the purpose of enlarging the scope and thoroughness of investigations concerning acreage, conditions, values, productions, and allied subjects relating to the agricultural industries, and to extend the collection of information relating to special crops by experts. | | | |
| In all, for general expenses, [$128,300;] *$186,500* (increase of $58,200) | | 186,500.00 | 128,300.00 |

| *General Expenses, Office of Experiment Stations*— | | | |
| To carry into effect the provisions of an act approved March 2, 1887, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States under the provisions of an act approved July 2, 1862, and of the acts supplementary thereto," the sums apportioned to the several States and Territories to be paid quarterly in advance, $720,000; | | | |
| To carry into effect the provisions of an act approved March 16, 1906, entitled "An act to provide for an increased annual appropriation for agricultural experiment stations and regulating the expenditure thereof," the sums apportioned to the several States and Territories to be paid quarterly in advance, $720,000: *Provided*, That not to exceed $15,000 shall be paid to each State and Territory under this act; | | | |
| To enable the Secretary of Agriculture to enforce the provisions of the above acts, relative to their administration, including the employment of clerks, assistants, and other persons in the city of Washington and elsewhere, freight and express charges, official traveling expenses, office fixtures, supplies, apparatus, telegraph and telephone service, gas, electric current, and rent outside of the District of Columbia, [$40,500;] *$42,255;* and the Secretary of Agriculture shall prescribe the form of the annual financial statement required under the above acts, ascertain whether the expenditures are in accordance with their provisions, and make report thereon to Congress; | | | |
| NOTE.—Apparent increase, $1,755; but as one messenger boy, at $480, and one laborer or charwoman, at $240, have been transferred to the statutory roll, the actual increase is but $1,035. Through constantly increasing State appropriations, the scope and amount of the operations of the stations is steadily growing, and this necessarily adds to the general business of the central office in its supervisory and advisory relations. The literature of agricultural science the world over is constantly increasing in variety and extent with the establishment of new agencies and the enlargement of old ones. In the United States the rapid broadening of the movement for bringing the results of scientific inquiry directly home to the farmer has created an urgent demand for more definite information from extension workers, county advisers, and others close to the farmers, as well as from investigators, teachers, and students. To satisfy these demands the abstracts in the Experiment Station Record should be increased in number, should not be too brief, should be kept well up to date, and should include many valuable articles from difficulty accessible sources and languages. To do this work satisfactorily, additional experts competent to prepare critical technical reviews of the literature in special fields are required. Such men command higher compensation than formerly and increase in value as reviewers and advisers with length of service. | | | |
| To enable the Secretary of Agriculture to establish and maintain agricultural experiment stations in Alaska, Hawaii, Porto Rico, and the island of Guam, including the erection of buildings, the preparation, illustration, and distribution of reports and bulletins, and all other necessary expenses, $110,000, as follows: Alaska, $35,000 [of which sum $5,000 shall be immediately available]; Hawaii, $30,000; Porto Rico, $30,000; and Guam, $15,000 [including not to ex- | | | |

| *Nutrition Investigations*— | | |
| [To enable the Secretary of Agriculture to investigate the nutritive value of agricultural products used for human food, with special suggestions of plans and methods for the more effective utilization of such products for this purpose, with the cooperation of other bureaus of the department, and to disseminate useful information on this subject, including the employment of labor in the city of Washington and elsewhere, supplies, and all other necessary expenses, $16,000.] *To enable the Secretary of Agriculture to investigate the relative utility and economy of agricultural products for food, clothing, and other uses in the home, with special suggestions of plans and methods for the more effective utilization of such products for these purposes, with the cooperation of other bureaus of the department, and to disseminate useful information on this subject, including the employment of labor in the city of Washington and elsewhere, supplies, and all other necessary expenses, $25,760 (act Mar. 4, 1913, vol. 37, pp. 851, 852, sec. 1)* | $25,760.00 | $16,000.00 |
| NOTE 1.—The phraseology of the paragraph has been changed to more clearly express the work to be done. Apparent increase, $9,760; but as one laborer or charwoman, at $240, has been transferred to the statutory roll the actual increase is $10,000. The investigations on food and nutrition are laborious and time consuming. It is impossible to make very rapid progress with the amount of funds available for the work. The demand for information such as is supplied by these investigations is so large and growing so continuously that it is no longer possible to meet it with the means at present available. It is indeed even impossible to satisfy the requests for cooperation made by the different bureaus of the department, to say nothing of those coming from the outside. Three more workers in the laboratory are necessary, and a woman expert in household methods of utilization of food is also greatly needed. Additional assistance is also needed in the preparation of publications reporting the results of these investigations and making them available to the public. The study of the nutrition of man is but one of the factors pertaining to the improvement in the conditions of living. The others involved are those pertaining to clothing and household equipment. By general usage these topics are grouped and discussed together, and experience has shown that they may be studied most profitably together and in large measure by methods and apparatus already in use for the study of one of them, namely, nutrition. Systematized knowledge regarding the utilization of agricultural products for clothing and household equipment, and conclusions drawn from experimental study as well as from practical experience do not exist, though there is a general and insistent demand for it from housekeepers, teachers in colleges and schools, and those interested in all general movements for betterment of home life. Systematic investigations of this character are very much needed to provide information on which to base practical work for home betterment. | | |

| 1 laborer or messenger boy (from road material) | 480.00 | | |
| | 1,560.00 | | |
| Apparent increase | 5,600.00 | | |
| *General Expenses, Office of Public Roads*— | | | |
| For salaries and the employment of labor in the city of Washington and elsewhere, supplies, office fixtures, apparatus, traveling and all other necessary expenses, for conducting investigations and experiments, and for collating, reporting, and illustrating the results of same, and for preparing, publishing, and distributing bulletins and reports, as follows: *Provided*, That no part of these appropriations shall be expended for the rent or purchase of road-making machinery, except such as may be necessary for field experimental work as hereinafter provided for: | | | |
| For inquiries in regard to systems of road management throughout the United States and for giving expert advice on this subject, [$40,000] *$48,800* (*act Mar. 4, 1913, vol. 37, pp. 852, 853, sec. 1*) | 48,800.00 | | |
| NOTE.—There is an increase in the above appropriation of $8,800. This increase is needed in order that additional statistical experts, collaborators, and lecturers may be secured for the purpose of making traffic and economic studies, delivering lectures, presenting exhibits of road models, and demonstrating the best methods of road making, and for carrying on maintenance, administration, and management investigations. At the present time this office has several sets of models which illustrate the best-known methods of road construction and maintenance, and the standard types of highway bridges. These models have been used with splendid results at expositions, road conventions, State and county fairs, and, in four or five cases, on extended t ips run by railroad companies to bring these models before the farmers at every station on their lines where demonstrations were made. The requests for these exhibits are so numerous and urgent as to make it desirable that funds be provided to satisfy these demands. The office is also engaged in an economic study of road problems in various parts of the country, including questions of administration, financing, traffic, and maintenance. | | | |
| For investigations of the best methods of road making and the best kinds of road-making materials, and for furnishing expert advice on road building and maintenance, [$105,000] *$166,330* (*same acts*) | 166,330.00 | | |
| NOTE.—There is an increase in the above appropriation of $61,330, and it is to be used for the purchase of instruments, supplies, and the employment of additional engineers, engineer students, and draftsmen. This is the largest division of the work of this office, and is accomplishing a great deal of good by giving expert advice on road construction and maintenance and in the building of object-lesson roads throughout the country, and in instructing the students of the office in highway engineering, but the present force is inadequate to meet the large and increasing demands being made upon it. | | | |
| For investigations of the chemicals and physical character of road materials, [$30,000] *$42,260* (*same act*) | 42,260.00 | | |
| NOTE.—There is an apparent increase in the above appropriation of $12,260, but as one laborer or messenger, at $480, has been transferred to the statutory roll, the actual increase is $12,740, and is to be used for the purchase of additional laboratory supplies, apparatus, machinery, traveling expenses, and salaries of additional chemists, scientific assistants, and laborers. One of the most important problems before road builders at this time is to secure precise information regarding the numerous varieties of dust preventives and road binders in order to more effectively meet the changed conditions brought about by motor traffic and the increasing need of better roads. The chemical and physical laboratories of this office are doing effective work on the standardization of methods of testing such materials, and additional assistance is needed to prosecute this work. The routine work of the laboratories is increasing, and it, together with the different lines of investigations in road materials, including cement, sand, clay, gravel, and concrete, render it advisable to provide additional facilities and equipment for carrying out these investigations. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *General Expenses, Office of Public Roads*—Continued. | | | |
| For conducting field experiments and various methods of road construction and maintenance, and investigations concerning various road materials and preparations; for investigating and developing equipment intended for the preparation and application of bituminous and other binders; for the purchase of materials and equipment; for the employment of assistants and labor; for the erection of buildings; such experimental work to be confined as nearly as possible to one point during the fiscal year, [$45,000:] *$70,000; (act Mar. 4, 1913, vol. 37, pp. 852, 853, sec. 1)* | $70,000.00 | | |
| NOTE.—There is an increase in the above appropr ation of $25,000, which is to be used for continuing the making of road tests of various materials and methods of construction, and in order to make comparative tests of and to develop road equipment. This practical experimental work is of the utmost importance in determining the relative merits of the different types of road construction, especially those types calculated to eliminate the dust nuisance and produce a dustless road. It is necessary to exercise some sort of control or supervision over the roads subsequent to the experiments that are made, in order, by continuous observations, to properly estimate the value and cost of the experiments. It is estimated that the $25,000 additional appropriation requested will be required for the purchase of crude materials in sufficient quantity to permit of the experimental treatment of short sections of road; the purchase of equipment, such, for instance, as is required for heating, mixing, and spreading bituminous binders; and the installation of such mechanical devices as are found necessary in developing and evolving new designs for road equipment; the employment of such labor and assistance as may be necessary to make complete experimental treatment of the roads possible; and in order to correlate these field experiments with laboratory tests by making careful and complete records from day to day, including careful observations of the affect of various kinds of traffic on the sections of completed experimental roads; and in order to make exhaustive traction and other tests; including the effect of automobiles and motor trucks on roads; and for the preparation of complete and detailed progress reports to be disseminated as publications of this office. | | | |
| For general administrative expenses connected with the above-mentioned lines of investigations and experiments, [$12,000:] *$14,000; (same act)* | 14,000.00 | | |
| NOTE.—There is an apparent increase in the above appropriation of $2,000, but as one clerk, at $1,080, has been transferred to the statutory roll, the actual increase is $3,080, and is to be used to properly care for the normal increase in the stationery and other office supplies, telegraph, express, telephone, and office equipment, etc. | | | |
| In all, for general expenses [$232,000], *$341,390* (increase of $109,390) | | $341,390.00 | $232,000.00 |

NOTE 1.—Salaries of engineers, superintendents of road construction, student assistants, collaborators, etc., carried on the lump funds named below on Aug. 31, 1913:

| *Enforcement of the Plant Quarantine Act*— | | |
| To enable the Secretary of Agriculture to carry into effect the provisions of the act of August 20, 1912, *as amended March 4, 1913*, entitled "An act to regulate the importation of nursery stock and other plants and plant products; to enable the Secretary of Agriculture to establish and maintain quarantine districts for plant diseases and insect pests; to permit and regulate the movement of fruits, plants, and vegetables therefrom, and for other purposes," in the city of Washington and elsewhere, including official traveling expenses, telegraph and telephone service, express and freight charges, and all other expenses, employing such assistants, clerks, and other persons as may be considered necessary for the purposes named, [$40,000,] *$50,000*, [of which sum $10,000 shall be immediately available: *Provided*, That hereafter any class of nursery stock or of any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products of which the importation may be forbidden from any country or locality under the provisions of section seven of the plant quarantine act approved August 20, 1912 (37 Stat., p. 315), may be imported for experimental or scientific purposes by the Department of Agriculture upon such conditions and under such regulations as the said Secretary of Agriculture may prescribe] (*act Mar. 4, 1913, vol. 37, pp. 853, 854, sec. 1*) | $50,000.00 | $40,000.00 |
| NOTE 1.—There is an increase in the above appropriation of $10,000, and the paragraph has been amended as shown. The enforcement of the plant quarantine act is a continuing work, with only a slight probable necessary increase in the administrative cost from year to year as to the main feature, namely, the examination of nursery stock, but with a necessary and legitimate increase each year to meet the additional cost of new quarantines promulgated. For example, the three quarantines which were specifically provided for in the act have now been increased to ten, two of which supersede earlier quarantines. Of these, four are domestic, and these latter will necessarily entail additional expense to cover inspection and general enforcement. | | |
| NOTE 2.—Salaries of inspectors, clerks, collaborators, etc., carried on the lump fund named below on August 31, 1913: | | |
| ENFORCEMENT OF THE PLANT QUARANTINE ACT. | | |
| In Washington: | | |
| 1 pathological inspector | $2,760 | |
| 1 secretary of board | 2,000 | |
| 1 chief inspector | 2,000 | |
| 1 clerk | 1,400 | |
| 1 clerk | 1,200 | |
| 2 clerks, at $1,020 each | 2,040 | |
| 1 clerk | 900 | |
| 1 messenger | 360 | |
| 1 clerk | 900 | |

| Total | 3,544 | |
| [To enable the Secretary of Agriculture to effect an exchange of lands and indemnity rights with the State of Montana, $25,000, to be available until expended when the said State shall have appropriated a like amount to be used in cooperation with the Forest Service for the aforesaid purpose: *Provided*, That such exchanges shall be made on the basis of approximately equal area and value] | | 25,000.00 |
| NOTE.—The amount appropriated for the fiscal year 1914 to cover the cost of effecting an exchange of lands and indemnity rights in the State of Montana is available until expended, and since no additional appropriation is necessary to complete this work the item above is omitted. | | |
| *Office of Markets*— | | |
| To enable the Secretary of Agriculture to acquire and to diffuse among the people of the United States useful information on subjects connected with the marketing and distribution of farm products, and for the employment of persons and means necessary in the city of Washington and elsewhere, there is hereby appropriated the sum of [$50,000, of which sum $10,000 shall be immediately available,] *$194,140* (*act Mar. 4, 1913, vol. 37, p. 854, sec. 1*) | 194,140.00 | 50,000.00 |
| NOTE 1.—There is an increase in the above appropriation of $144,140 for the extension of this important work, which will be devoted to the following lines of work: For cotton handling and marketing investigations (transferred from the Bureau of Plant Industry); for cooperative production and marketing investigations; for market surveys, methods, and costs; for study of market grades and standards; for city marketing and distribution investigations; for transportation and storage problems; for marketing miscellaneous products, and collaboration; and for administrative expenses. The words "Office of Markets" have been added to give the appropriation a suitable designation. | | |
| NOTE 2.—Salaries of chief of office, assistants, collaborators, etc., carried on the lump fund named below on Aug. 31, 1913: | | |
| MARKETING AND DISTRIBUTING FARM PRODUCTS. | | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

| *Demonstrations on Reclamation Projects—* | | |
| *To enable the Secretary of Agriculture to encourage and aid in the agricultural development of the Government reclamation projects; to assist, through demonstrations, advice, and in other ways, settlers on the projects; and for the employment of persons and means necessary, in the city of Washington and elsewhere, $50,000, of which sum $10,000 shall be immediately available* | $50.000.00 | |
| NOTE.—This is a new item, for which an increase of $50,000 is requested. The object of this work is to aid the agricultural development of the reclamation projects; to assist, through advice and in other ways, settlers on the projects in the matter of developing their farms. It is planned that the work shall include all the different phases of farming and farm operations, such as the growing of staple crops, fruit growing, questions relating to animal husbandry, methods of marketing farm products, general subjects relating to rural organizations, etc. The demonstration work on the reclamation projects should include not only demonstration work in connection with plants, but also in connection with animal husbandry, dairying, etc.; therefore it has appeared inadvisable to include the work under any one bureau. | | |
| [That nothing contained in the act making appropriations to provide for the expenses of the Government of the District of Columbia for the fiscal year ending June 30, 1913, and for other purposes, approved June 26, 1912, shall be so construed as to prohibit the payment from the appropriations for the Department of Agriculture of expenses incidental to the delivery of lectures, the giving of instruction, or the acquiring of information at meetings by its employees on subjects relating to the work of the department authorized by law.] | | |
| NOTE.—The above item is omitted, as it is permanent legislation. | | |
| [That hereafter section 7 of the act approved August 26, 1912 (37 Stat., p. 626), and any amendments thereto, shall not apply to the payment, out of moneys appropriated or which may be hereafter appropriated in lump sum for the Department of Agriculture, for personal services of employees engaged in strictly scientific or technical work: *Provided*, That nothing contained herein shall be construed to authorize the transfer of any person employed at a specific salary and the payment of compensation for lump-sum appropriations at a rate greater than said specific salary.] | | |
| NOTE.—The above item is omitted as it is permanent legislation. | | |
| [And hereafter every officer or employee of the Department of Agriculture whose rate of compensation is specified herein shall receive compensation at the rate so specified.] | | |
| NOTE.—The above item is omitted as it is permanent legislation. | | |
| [To enable the Secretary of Agriculture to cooperate with and make an exhibit at the next annual meeting of the International Dry Land Congress, to be held at Tulsa, Oklahoma, during the fiscal year ending June 30, 1914, illustrative of the investigations, products, and processes relating to farming in the subhumid region of the United States, including labor and all expenses in the city of Washington and elsewhere, $20,000, to be immediately available] | | $20,000.00 |
| NOTE.—The above item is omitted as all necessary action will be taken during the fiscal year 1914. | | |
| *Cooperative Fire Protection of Forested Watersheds of Navigable Streams—* | | |
| For cooperation with any State or group of States in the protection from fire of the forested watersheds of navigable streams, under the provisions of section 2 of the act of March 1, 1911, entitled "An act to enable any State to cooperate with any other State or States, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers," [$75,000] *$100,000* [: *Provided*, That any and all unused balance of the sum of $200,000 heretofore appropriated by the act of March 1, 1911, to enable the Secretary of Agriculture to carry out the purposes mentioned in said section 2, remaining unexpended July 1, 1913, shall continue available until the end of the fiscal year 1915 for the purpose for which it was appropriated] (*act Mar. 4, 1913, vol. 37, p. 855, sec. 1*) | 100,000.00 | 75,000.00 |
| NOTE.—There is an increase of $25,000 in the above item, and the proviso has been omitted. A number of additional States have requested cooperation in protecting the watersheds of navigable streams from fire, under the terms of section 2 of the act of Mar. 1, 1911. The small increase recommended is necessary to carry out the terms of such act in these States. The unexpended balance of $200,000 carried in the proviso, which has been omitted, will be expended by the end of the current fiscal year, and the item of $100,000 estimated for above is intended to provide for continuing the work during the fiscal year 1915. | | |
| [That section 9 of the act of Mar. 1, 1911 (36 Stat., p. 961), entitled "An act to enable any State to cooperate with any other State or States, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers," be amended to read as follows:<br>"That such acquisition by the United States shall in no case be defeated because of located or defined rights of way, easements, and reservations, which, from their nature will, in the opinion of the National Forest Reservation Commission and the Secretary of Agriculture, in no manner interfere with the use of the lands so encumbered, for the purposes of the act: *Provided*, That such rights of way, easements, and reservations retained by the owner from whom the United States receives title, shall be subject to the rules and regulations prescribed by the Secretary of Agriculture for their occupation, use, operation, protection, and administration, and that such rules and regulations shall be expressed in and made part of the written instrument conveying title to the lands to the United States; and the use, occupation, and operation of such rights of way, easements, and reservations shall be under, subject to, and in obedience with the rules and regulations so expressed."] | | |
| NOTE.—The item above is omitted as it is now permanent legislation. | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Cooperative Fire Protection of Forested Watersheds of Navigable Streams*—Continued. | | |
| *That section 13 of the act, entitled "An act to enable any State to cooperate with any other State or States, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers," approved Mar. 1, 1911 (36 Stat. L., p. 963), is hereby amended by striking out the word "five" in the first line of said section, and inserting in lieu thereof the word "twenty-five," the purpose of this amendment being to increase the percentage payable to each State from moneys received, as provided in said section, from 5 to 25 per centum.* | | |
| NOTE.—The present allowance of 5 per cent of the gross receipts to the States and counties containing national forests acquired for the protection of the watersheds of navigable streams, under the terms of the act of Mar. 1, 1911, in lieu of the loss from the removal of these areas from taxation, has been found wholly inadequate to compensate the States and counties for loss of revenue. Twenty-five per cent of the gross receipts will be a much more equitable adjustment, in accordance with the principle established by former legislation that local governments should be compensated for loss in taxes due to the creation of national forests. It is furthermore deemed equitable to place States and counties in the East on the same footing in this respect as those containing national forests in the West, which now receive 25 per cent of the gross receipts. | | |
| [That the President of the United States shall appoint a commission composed of not more than seven persons, who shall serve without compensation, to cooperate with the American commission assembled under the auspices of the Southern Commercial Congress, to investigate and study in European countries cooperative land-mortgage banks, cooperative rural-credit unions, and similar organizations and institutions devoting their attention to the promotion of agriculture and the betterment of rural conditions, and for the purpose of its investigations the commission shall be authorized to incur and have paid upon the certificate of its chairman such expenses in the city of Washington and elsewhere for the payment of the salaries of employees, clerks, stenographers, assistants, and such other necessary expenses as the commission may deem necessary: *Provided*, That the total expenses incurred for all purposes shall not exceed the sum of $25,000, and the said commission shall submit a report to Congress as early as practicable, embodying the results of its investigations and such recommendations as it may see fit to make] | | $25,000.00 |
| NOTE.—The above item is omitted. | | |
| *Experiments and Demonstrations in Live-Stock Production in the Cane-Sugar and Cotton Districts of the United States*— | | |
| To enable the Secretary of Agriculture, in cooperation with the authorities of the States concerned, or with individuals, to make such investigations and demonstrations as may be necessary in connection with the development of live-stock production in the cane-sugar and cotton districts of the United States, including the erection of such temporary farm buildings as may be found necessary, and for the employment of persons and means necessary in the city of Washington and elsewhere, $50,000, and the Secretary of Agriculture is authorized to sell in the open market or to exchange for other live-stock or farm products to the best advantage, without the usual condemnation proceedings and public auction, such live-stock or farm products as cease to be needed: *Provided*, That all moneys received from the sale of such live-stock or farm products, or as a bonus in the exchange of the same, shall be deposited in the Treasury as miscellaneous receipts | $50,000.00 | |
| *That hereafter the maximum salary of any scientific investigator, or other employee engaged in scientific work and paid from the general appropriations of the Department of Agriculture, shall not exceed $4,500 per annum.* | | |
| NOTE.—The above provision is submitted as it is believed it would be in the interest of the government to raise the limit of salary of scientists employed in this department from $4,000 per annum, now fixed by law (36 Stat., p. 440), to $4,500 per annum, the latter salary to be given only to those few scientists who distinguish themselves in the department by extraordinary scientific work. The department has already lost very many of its most valuable men, and will continue to lose them, unless the present legal limitation is increased as recommended. | | |
| *The Secretary of Agriculture is hereby authorized and directed to prepare a plan for reorganizing, redirecting, and systematizing the work of the Department of Agriculture as the interests of economical and efficient administration may require; such plan shall be submitted to Congress in the book of estimates for the fiscal year 1916; and the estimates of expenses of the Department of Agriculture for the fiscal year 1916 shall be prepared and submitted in accordance therewith.* | | |
| NOTE.—It is believed that increased efficiency and economy can be secured through the reorganization and redirection of the work in the department. Under the existing organization there is some duplication of effort, and it has been found difficult to effect close coordination of related lines of work. The proposed reorganization will be in the direction of eliminating the possibility of duplication and overlapping and the bringing about of closer relationships between the various activities of the department. | | |
| Total salaries, including Weather Bureau, Department of Agriculture | 4,730,290.00 | 4,601,350.00 |
| Total general expenses, Department of Agriculture | 14,331,042.00 | 13,385,595.00 |
| Grand total, Department of Agriculture (increase of $1,074,387) | 19,061,332.00 | 17,986,945.00 |

| **UNDER THE WAR DEPARTMENT.** | | |
| SECRETARY OF WAR. | | |
| *Contingencies of the Army—* | | |
| For all contingent expenses of the Army not otherwise provided for and embracing all branches of the military service, including the office of the Chief of Staff; for all emergencies and extraordinary expenses, exclusive of personal services in the War Department, or any of its subordinate bureaus or offices at Washington, District of Columbia, arising at home or abroad, but impossible to be anticipated or classified; to be expended on the approval and authority of the Secretary of War, and for such purposes as he may deem proper (*act Mar. 2, 1913, vol. 37, p. 704, sec. 1*) | $50,000.00 | $25,000.00 |
| NOTE.—The change in wording of this item will enable the Secretary of War to make expenditures for certain necessary purposes which arise from time to time in the course of affairs connected with the War Department and for which no provision can be made under existing appropriations or rulings of the officials of the Treasury Department. For instance, it will allow the Secretary of War to provide for extraordinary expenses devolving upon officers detailed on special duties, and will enable the Secretary of War to extend official courtesies similar to those now enjoyed by the Secretary of State and the Secretary of the Navy.<br>The increase of $25,000 is made necessary by reason of the prospective entertainment of visiting foreign officials attending the ceremonies incident to the opening of the Panama Canal and the Panama Pacific International Exposition, San Francisco.—*Lindley M. Garrison, Secretary of War.* | | |
| OFFICE OF THE CHIEF OF STAFF. | | |
| *Army War College—* | | |
| For expenses of the Army War College, being for the purchase of the necessary stationery; typewriters and exchange of same; office, toilet, and desk furniture; textbooks; books of reference; scientific and professional papers and periodicals; printing and binding; maps; police utensils; employment of temporary, technical, or special services; and for all other absolutely necessary expenses, including $25 per month additional to regular compensation to chief clerk of division for superintendence of the War College Building, $9,000 (*act Mar. 2, 1913, vol. 37, p. 704, sec. 1*) | 9,000.00 | 9,000.00 |
| *Contingencies, Military Information Section, General Staff Corps—* | | |
| For contingent expenses of the military information section, General Staff Corps, including the purchase of law books, professional books of reference, maps, periodicals and newspapers, drafting and messenger service, and for all other necessary expenses; and of the military attachés at the United States embassies and legations abroad; and of the branch office of the military information section at Manila; the cost of special instruction at home and abroad and in maintenance of students and attachés, to be expended under the direction of the Secretary of War, $15,000: *Provided*, That section 3648, Revised Statutes, shall not apply to subscriptions for foreign and professional newspapers and periodicals to be paid from this appropriation: *And provided*, That traveling expenses incurred by the military attachés abroad under orders from the Secretary of War for the fiscal year 1914 shall be paid from the ordinary appropriations for the support of the Army pertaining to the Quartermaster Corps (*act Mar. 2, 1913, vol. 37, p. 704, sec. 1*) | 15,000.00 | 10,000.00 |
| NOTE.—The act making appropriations for contingencies, military information section, General Staff Corps, for the fiscal year 1914 included an item for the "actual and necessary traveling expenses incurred by the military attachés abroad under orders from the Secretary of War." No funds, however, were included in this appropriation to defray these additional expenses, which in the past have been paid out of quartermaster funds. As a consequence, the provision is incorporated above authorizing the payment of these travel expenses for the fiscal year 1914 out of the ordinary appropriations pertaining to the Quartermaster Corps.<br>The item itself, to wit, "actual and necessary traveling expenses incurred by the military attachés abroad under orders from the Secretary of War," is omitted from the present estimate. The item "cost of special instruction at home and abroad and in maintenance of students and attachés" is included in order to permit the War Department to defray in necessary cases certain expenses entailed on officers performing the duties in question, and places the War Department in a position to extend to these officers, in a degree, the same benefits as are enjoyed by officers of the Navy engaged on similar duties. An estimate of $5,000 is included for this purpose.<br>Other changes in the wording of this appropriation are made necessary on account of the recent technical objections of the Auditor for the War Department to the use of this appropriation for certain purchases and services, incurred under varying and dissimilar conditions abroad, for which expenditures had been made and approved by the auditor for many years.—*Leonard Wood, Major General, Chief of Staff.* | | |
| *United States Service Schools—* | | |
| To provide means for the theoretical and practical instruction at the Staff College (including the Army School of the Line, Army Field Engineer School, and the Army Signal School) at Fort Leavenworth, Kans., the Mounted Service School at Fort Riley, Kans., and the School of Fire for Field Artillery and for the School of Musketry, at Fort Sill, Okla., by the purchase of textbooks, books of reference, scientific and professional papers, the purchase of modern instruments and material for theoretical and practical instruction, employment of temporary, technical, or special services, and for all other absolutely necessary expenses, to be allotted in such proportions as may, in the opinion of the Secretary of War, be for the best interests of the military service (*act Mar. 2, 1913, vol. 37, p. 704, sec. 1*) | 30,350.00 | 30,350.00 |
| NOTE.—The insertion of "employment of temporary, technical, or special services" is considered necessary in order to allow these schools the opportunity of employing such additional services as may be required. For instance, it would permit of the employment of teachers in languages from time to time, when needed, and enable the schools to dispense with the services of one or more officers at present on duty as instructors in languages.—*Leonard Wood, Major General, Chief of Staff.* | | |

| THE ADJUTANT GENERAL'S DEPARTMENT. | | | |
| *Contingencies, Headquarters of Military Departments, Districts, and Tactical Commands—* | | | |
| For contingent expenses at the headquarters of the several *territorial departments, territorial districts, tactical divisions and brigades*, including the Staff Corps serving thereat, being for the purchase of the necessary articles of office, toilet, and desk furniture, *stationery, ice, and potable water for office use when necessary*, binding, maps, technical books of reference, professional and technical newspapers and periodicals, payment for which may be made in advance, and police utensils, to be allotted by the Secretary of War, and to be expended in the discretion of the *commanding officers of the several military departments, districts, and tactical commands* (*act Mar. 2, 1913, vol. 37, p. 704, sec. 1*)..... | | $7,500.00 | $7,500.00 |
| NOTE.—Under War Department orders of February 6, 1913, territorial divisions have replaced tactical divisions, territorial districts have replaced departments in the Philippine Islands, and Coast Artillery Districts (territorial) and brigades (tactical) have been instituted. The amendments made in the foregoing estimate, indicated by italics, are made chiefly to meet these changes in organization. The addition of the words "ice and potable water for office use when necessary" is made to provide specific authority for their purchase. Such purchases have heretofore been approved by the Comptroller of the Treasury as proper purchases for office use when considered necessary by the commanding general.—*H. O. S. Heistand, Adjutant General.* | | | |
| CHIEF OF COAST ARTILLERY. | | | |
| *Coast Artillery School, Fort Monroe, Va.—* | | | |
| 1. For incidental expenses of the school, including chemicals, stationery, hardware; cost of special instruction of officers detailed as instructors; extra-duty pay to soldiers necessarily employed for periods not less than 10 days as artificers on work in addition to and not strictly in line with their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine drivers, telegraph operators, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers; for office furniture and fixtures, machinery, and unforeseen expenses (*act Mar. 2, 1913, vol. 37, p. 705, sec. 1*).... | $10,000.00 | | |
| 2. For purchase of engines, generators, motors, machines, measuring instruments, special apparatus and materials for the division of the enlisted specialists (*same act*)..... | 7,000.00 | | |
| 3. For purchase of special apparatus and materials and for experimental purposes for the department of artillery and land defense (*same act*)..... | 3,000.00 | | |
| 4. For purchase of engines, generators, motors, machines, measuring instruments, special apparatus, and materials for the department of engineering and mine defense (*same act*)..... | 5,500.00 | | |
| 5. For purchase and binding of professional books treating of military and scientific subjects for library and for use of school (*same act*)..... | 2,500.00 | | |
| | | 28,000.00 | 28,000.00 |
| *Provided*, That section 3648, Revised Statutes, shall not apply to subscriptions for foreign and professional newspapers and periodicals to be paid for from this appropriation. | | | |
| OFFICE OF THE CHIEF SIGNAL OFFICER. | | | |
| *Signal Service of the Army—* | | | |
| For expenses of the Signal Service of the Army, as follows: | | | |
| Purchase, equipment, and repair of field electric telegraphs, signal equipments and stores, binocular glasses, telescopes, heliostats, and other necessary instruments, including the necessary meteorological instruments for use on target ranges; war balloons and airships and accessories, including their maintenance and repair; telephone apparatus (exclusive of exchange service) and maintenance of the same; electrical installations and maintenance at military posts; fire control and direction apparatus and material for Field Artillery; maintenance and repair of military telegraph lines and cables, including salaries of civilian employees, supplies, and general repairs, and the necessary printing and binding, and other expenses connected with the duty of collecting and transmitting information for the Army by telegraph or otherwise (*act Mar. 2, 1913, vol. 37, p. 705, sec. 1*)..... | | 250,000.00 | 250,000.00 |
| *Provided*, That the act of Congress approved Oct. 12, 1888, entitled "An act to make enlisted men of the Signal Corps responsible for public property," be amended so as to read that property returns of the Signal Corps shall be rendered semiannually or more often (*act Oct. 12, 1888, vol. 25, p. 552, sec. 1—submitted*). | | | |
| NOTE.—Act of Mar. 2, 1913, carrying $375,000 for the fiscal year 1914, included a provision for the expenditure of $125,000 of the appropriation for aeronautical purposes. This provision is omitted in this estimate, as a separate estimate for "Military aeronautics" has been submitted.<br>NOTE.—The provision of legislation with regard to rendition of property returns is desired, as it is considered that the semiannual returns will afford sufficient protection to the United States; also, it is believed that the period of property accountability should be uniform throughout the military service, and returns for all other property are required to be made but semiannually.—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.* | | | |
| Hereafter all moneys arising from the disposition of serviceable Signal Corps supplies and equipment, authorized by law and regulations, shall constitute one fund on the books of the Treasury Department and be available during the fiscal year in which their disposition was effected and the year following, for the replacement of Signal Corps supplies and equipment (*submitted*). | | | |
| NOTE.—This provision is desired to enable this office to promptly close appropriation accounts after the expiration of the fiscal year. This can not be effected now, as it is necessary to await transfers of funds in reimbursement of supplies issued to the Organized Militia and other departments and bureaus. Like provisions have been enacted for the Quartermaster Corps (Army act, Mar. 23, 1910), Ordnance Department (Army act, Apr. 23, 1904), and the Medical Corps (Army act, June 12, 1906).—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.* | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

| ***Military Aeronautics***— | | |
| For the purchase, maintenance, operation, and repair of aeroplanes, airships, and other aerial machines and accessories (*act Mar. 2, 1913, vol. 37, p. 705, sec. 1*) | $300,000.00 | $125,000.00 |

NOTE.—The appropriation for military aeronautics for the fiscal year 1914 is included as a part of "Signal Service of the Army," $125,000 being authorized to be expended. The increase in the amount estimated over the appropriation for the fiscal year 1914 is necessary if the United States is to keep abreast with developments in this science and be prepared to cope with other first-class powers in case of war. Proposed expenditures are as follows:

| | |
|---|---|
| 15 aeroplanes | $150,000 |
| Maintenance, etc., aeroplanes | 150,000 |
| | 300,000 |

The question of awarding bonuses to manufacturers of aeroplanes for the development of improved types of aeroplanes has been carefully considered and the advisability of such a course appears evident, as it should be good policy to encourage manufacturers by this means, as is done abroad.—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.*

*Expenditures for aeronautics.*

| Persons employed or to be employed and objects of classes of expenditures. | Estimated for 1915. | Expended during fiscal year 1913. |
|---|---|---|
| 1 aeronautical engine expert, at $1,800 | $1,800.00 | $874.16 |
| 2 aeronautical engine experts, at $1,500 | 3,000.00 | 62.50 |
| 3 aeronautical engine experts, at $1,600 | 4,800.00 | ..... |
| 2 clerks | 2,200.00 | 561.12 |
| 1 machinist, at $1,700 per annum | 1,700.00 | 1,446.44 |
| Temporary services and services not personal | 5,000.00 | 1,639.52 |
| Aeroplanes | 150,000.00 | 33,025.00 |
| Engines | 25,000.00 | 9,368.49 |
| Hangars | 7,000.00 | 4,285.00 |
| Repair parts for aeroplanes and engines | 55,000.00 | 26,642.38 |
| Anemometers, barographs, aviators' garments, and other special accessories | 20,000.00 | 9,052.53 |
| Miscellaneous, including gasoline, oil, etc | 24,500.00 | 13,042.86 |
| | 300,000.00 | 100,000.00 |

*Purchase and Maintenance of Field Glasses for Infantry and Cavalry*—

For the purchase of additional field glasses for the Infantry and Cavalry, and for their maintenance during the first year (*submitted*) ..... 12,500.00

NOTE.—This estimate is submitted in accordance with directions of the Secretary of War, contained in memorandum of the Chief of Staff, dated Aug. 30, 1912.

The cost of maintenance of these field glasses will be 10 per cent of their cost per year after the first year. The cost of maintenance during the first year will be small.—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.*

*Purchase of Motor Cycles*—

For the purchase and maintenance of motor cycles for Signal Corps troops (*submitted*) ..... 5,000.00

NOTE.—The motor cycle has now reached such a stage of development and reliability as to become a dependable means of continuing lines of information in the field and a valuable auxiliary in the transmission of information between the different elements of an army division. They have therefore been adopted as a standard piece of equipment of the Signal Corps, and under this apropriation will be purchased and supplied to field and telegraph companies and to aeroplane squadrons, as estimated below:

| | |
|---|---|
| 5 field companies (2 motor cycles each) | 10 |
| 1 aeroplane squadron | 3 |
| 1 telegraph company | 2 |
| Reserve | 1 |
| | 16 |

—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.*

*Maintenance of Annunciator Buzzer Systems at Target Ranges*—

Maintenance of annunciator buzzer systems at target ranges (*act Mar. 2, 1913, vol. 37 p. 706, sec. 1; submitted*) ..... 3,800.00 4,000.00

NOTE.—This is 10 per cent of the cost of annunciator buzzer systems which have been authorized under previous appropriations and is required to relieve the burden on appropriation, "Signal Service of the Army," which is not sufficient to meet all of the current needs.—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.*

*Special Infantry Telephone Equipment*—

For the purchase of special telephone equipment for the Infantry (*submitted*) ..... 10,016.00

NOTE.—This estimate is submitted to cover the cost of special equipment which the Signal Corps is instructed to supply to the Fourth, Twenty-seventh, and Twenty-eighth Regiments of Infantry by letter of The Adjutant General of Mar. 26, 1912 (S. O. 29091-2). It is proposed to purchase the equipment listed below from these funds:

| | |
|---|---|
| 300 Infantry telephones, at $22 | $6,600 |
| 250 miles buzzer wire on spool, at $11 | 2,750 |
| 300 ground rods, at 22 cents | 66 |
| 300 hand reels, at $2 | 600 |
| | 10,016 |

| *Signaling Equipment for Coast Defense Posts—* | | |
| For the purchase of mortars, rockets, shells, Very pistols, heliographs, acetylene lanterns, flag kits and other signaling equipment to supply coast defense posts for signaling purposes (*submitted*) | $12,000.00 | |
| NOTE.—This estimate is submitted to cover the cost of equipment which it will be necessary to supply to the coast defense posts to enable them to comply with the requirements of A. R. 418½ and paragraph 13 R. I. and T. P. of Coast Artillery troops, 1913.—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.* | | |
| *Commercial Telephone Service at Coast Artillery Posts—* | | |
| For providing commercial telephone service for official purposes at Coast Artillery posts (*submitted*) | 6,000.00 | |
| NOTE.—The Chief of Staff approved the transfer of this duty from the Quartermaster Corps to the Signal Corps Feb. 28, 1913. This sum has been deducted from the estimates submitted by the Chief of the Quartermaster Corps for the fiscal year 1915, under appropriation heading of "Incidental expenses, Quartermaster Corps."—*George P. Scriven, Brigadier General, Chief Signal Officer of the Army.* | | |
| QUARTERMASTER CORPS. | | |
| *Pay, etc., of the Army—* | | |
| Pay of officers of the line: | | |
| Six major generals, at $8,000 each per annum (*acts Feb. 2, 1901, vol. 31, p. 748, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1039; Mar. 2, 1913, vol. 37, p. 706, sec. 1*) | $48,000.00 | |

| Additional pay to aids (*R. S., p. 203, sec. 1098; R. S., p. 220, sec. 1261*) | 6,600.00 | |
| | 7,839,100.00 | |
| Additional pay to officers for length of service (*R. S., p. 220, sec. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 706, sec. 1*) | 1,616,218.27 | |
| NOTE.—The number and grades of officers authorized by law in the several branches of the line of the Army are provided for in this estimate. The pay is computed at the rates established by the act of May 11, 1908, and the additional pay for length of service is based upon the longevity record of the officers, as shown in the official Army Register.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |

*Provided*, That hereafter no officer or enlisted man in active service, who shall be absent from duty on account of disease resulting from his own intemperate use of drugs or alcoholic liquors, or other misconduct, shall receive pay for the period of such absence, the time so absent and the cause thereof to be ascertained under such procedure and regulations as may be prescribed by the Secretary of War: *And provided further*, That hereafter an enlistment shall not be regarded as complete until the soldier shall have made good any time in excess of one day lost by unauthorized absences; or on account of disease resulting from his own intemperate use of drugs or alcoholic liquors, or other misconduct; or while in confinement awaiting trial or disposition of his case, if the trial results in conviction; or while in confinement under sentence.

NOTE.—General Orders, No. 8, War Department, dated Mar. 30, 1912, and its subsequent modifications by direction of the Secretary of War, provides for an authorized enlisted strength of 89,566 enlisted men, including the Military Academy, but excluding the Hospital Corps, Philippine Scouts, and Quartermaster Corps. The Secretary of War, however, under date of May 29, 1913, estimates that the number of enlisted men actually in service during the fiscal year 1915, exclusive of the Military Academy, Hospital Corps, Quartermaster Corps, and Philippine Scouts, will not exceed 85,000 of all grades. The estimate is therefore based upon the *actual number of enlisted men* anticipated to be in service during that year, viz, 85,000, and their pay is computed at the rate provided for each grade by act of May 11, 1908. The estimate for additional pay for length of service has been carefully computed from data compiled from an actual count of the enlistment periods of the men borne on the rolls for September, 1911. The item of legislation preceding this note is inserted in the estimate by direction of the Secretary of War under date of Sept. 27, 1913.

The act of Congress approved Mar. 3, 1909 (35 Stat., 733), provides as follows:

"*Provided*, That from the enlisted force of the Army now provided by law the President may authorize the organization of school detachments at each of the service schools, and may authorize the appointment therein of such noncommissioned officers, mechanics, artificers, farriers, horseshoers, and cooks as may be necessary for the administration of such school. * * * ."

The estimate as above submitted is of the same form as appropriation for fiscal year 1914, and includes enlisted men of the service-school detachments who have been transferred to these detachments from the line.

[Alternative Estimate.]

To avoid the confusion which has heretofore existed, and with a view to a better understanding of the estimates by separating the estimate for pay of enlisted men now in the service-school detachments from the estimate for pay of enlisted men of the line of the Army where it is now estimated for, thereby conforming with what this office understands to be the wishes of the Committee on Military Affairs, House of Representatives, it is recommended that the following estimate, which excludes enlisted men assigned to the service-school detachments, be substituted for the foregoing. The estimate for men of the service-school detachments appears under a separate heading on page —.

| | | $304,930.00 | |
| Additional 20 per cent increase while on foreign service (*submitted*) | | 9,400.00 | |

*Provided*, That on and after July 1, 1914, the pay of clerks and messengers at headquarters of territorial departments, tactical divisions, brigades, and service schools, who are citizens of the United States, shall be increased 20 per cent while serving in the Philippine Islands, such service to be computed from the date of departure from the continental limits of the United States to the date of return thereto: *Provided further*, That the money hereby appropriated for such of said clerks, at $1,200 and $1,000 each per annum, and such of said messengers, at $720 each per annum, as may be employed and assigned by the Secretary of War to the headquarters of the Philippine department, districts, and posts therein, may, in the discretion of the commanding general, Philippine Department, be expended, in whole or in part, for the employment of Filipinos as clerks at not to exceed $500 each per annum and messengers at not to exceed $300 each per annum.

Said clerks, messengers, and laborers shall be employed and assigned by the Secretary of War to the offices and positions in which they are to serve: *Provided*, That no clerk, messenger, or laborer at headquarters of tactical divisions, military departments, brigades, service schools, and office of the Chief of Staff shall be assigned to duty with any bureau in the War Department.

NOTE.—The change made is an increase of $250 for the chief clerk, office Chief of Staff, and a change of (3) clerks at $1,800 to 2 chiefs of divisions and 1 principal clerk at $2,000 each per annum. This is very earnestly recommended in order to place the office in this respect more nearly on an equality with some of the offices of the War Department, namely: Office of the Chief, Quartermaster Corps, office of the Surgeon General, and office of the Chief of Engineers, as provided for in the last legislative, etc., act. A reduction is made in the above 5 clerks at $1,000 each per annum, 2 messengers at $720 each per annum, and 1 laborer at $600 per annum. In the Philippine Department 6 $1,200 clerks are replaced by 6 Filipinos at $500 each per annum and 6 messengers at $720 each per annum by 6 Filipinos at $300 each per annum, making a saving of $13,760. Deducting the increase of pay asked in the above-named 4 positions, which amounts to $850, and the foreign-service pay of the citizens of the United States employed in the Philippines, $9,400, or a total of $10,250, gives a net saving of $3,510.

Approved by order of the Secretary of War.—*Leonard Wood, Major General, Chief of Staff.*

[Alternative Estimate.]

In view of the recommendations of the Chief of Staff that the employees of the office of the Chief of Staff be separated from the force for the headquarters of territorial departments, tactical divisions, brigades, and service schools, it is recommended that the following estimate be submitted for the foregoing:

| *Pay, etc., of the Army*—Continued. | | | |
| Pay of clerks and messengers at headquarters of tactical divisions and military departments, brigades, and service schools: | | | |
| Nine clerks, at $1,800 each per annum (*act Mar. 2, 1913, vol. 37, p. 707, sec. 1*) | $16,200.00 | | |
| Nine clerks, at $1,600 each per annum (*same act*) | 14,400.00 | | |
| Twenty-eight clerks, at $1,400 each per annum (*same act*) | 39,200.00 | | |
| Forty-six clerks, at $1,200 each per annum (decrease of 6 submitted) (*same act*) | 55,200.00 | | |
| Forty-five clerks, at $1,000 each per annum (decrease of 3 submitted) (*same act*) | 45,000.00 | | |
| Six clerks (Filipinos), at $500 each per annum (*submitted*) | 3,000.00 | | |
| Thirty-eight messengers, at $720 each per annum (decrease of 6 submitted) (*act Mar. 2, 1913, vol. 37, p. 707, sec. 1*) | 27,360.00 | | |
| Six messengers (Filipinos), at $300 each per annum (*submitted*) | 1,800.00 | | |
| | 202,160.00 | | |
| Additional 20 per cent increase while on foreign service (*submitted*) | 9,400.00 | | |
| *Provided*, That on and after July 1, 1914, the pay of clerks and messengers at headquarters of territorial departments, tactical divisions, brigades, and service schools, who are citizens of the United States, shall be increased twenty per centum while serving in the Philippine Islands, such service to be computed from the date of departure from the continental limits of the United States to the date of return thereto: *Provided further*, That the money hereby appropriated for such of said clerks at $1,200 and $1,000 each per annum and such of said messengers at $720 each per annum as may be employed and assigned by the Secretary of War to the headquarters of the Philippine Department, districts, and posts therein, may, in the discretion of the commanding general Philippine Department, be expended, in whole or in part, for the employment of Filipinos as clerks at not to exceed $500 each per annum and messengers at not to exceed $300 each per annum. | | | |
| Said clerks, messengers, and laborers shall be employed and assigned by the Secretary of War to the offices and positions in which they are to serve: *Provided*, That no clerk, messenger, or laborer at headquarters of tactical divisions, military departments, brigades, service schools, and office of the Chief of Staff shall be assigned to duty with any bureau in the War Department. | | | |
| NOTE.—The force of employees of the office of the Chief of Staff is separated from the force for the headquarters of territorial departments, tactical divisions, brigades, and service schools, as the former is in no way connected with the latter, and the separation is believed to be in the interest of good administration. The change made is an increase of $250 for the chief clerk, office Chief of Staff, and a change of (3) clerks at $1,800 to 2 chiefs of divisions and 1 principal clerk at $2,000 each per annum. This is very earnestly recommended in order to place the office in this respect more nearly on an equality with some of the offices of the War Department, namely: Office of the Chief, Quartermaster Corps, office of the Surgeon General, and office of the Chief of Engineers, as provided for in the last legislative, etc., act. A reduction is made in the above 5 clerks at $1,000 each per annum, 2 messengers at $720 each per annum, and 1 laborer at $600 per annum. In the Philippine Department 6 $1,200 clerks are replaced by 6 Filipinos at $500 each per annum, and 6 messengers at $720 each per annum by 6 Filipinos at $300 each per annum, making a saving of $13,760. Deducting the increase of pay asked in the above-named 4 positions, which amounts to $850, and the foreign-service pay of the citizens of the United States employed in the Philippines, $9,400, or a total of $10,250, gives a net saving of $3,510.<br>Approved by order of the Secretary of War.—*Leonard Wood, Major General, Chief of Staff. J. B. Aleshire, Chief, Quartermaster Corps.* | | | |
| Adjutant General's Department: | | | |
| One brigadier general, at $6,000 per annum (*acts Feb. 2, 1901, vol. 31, p. 751, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | 6,000.00 | | |
| Five colonels, at $4,000 each per annum (*same acts*) | 20,000.00 | | |
| Seven lieutenant colonels, at $3,500 each per annum (*same acts*) | 24,500.00 | | |
| Ten majors, at $3,000 each per annum (*same acts*) | 30,000.00 | | |
| | | $80,500.00 | |
| Additional pay to such officers for length of service (*R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | | 22,000.00 | |
| NOTE.—The estimate for pay of officers of the Adjutant General's Department is based upon the number and grade as authorized by law, the pay computed at the rates established by act of May 11, 1908, and the additional pay for length of service upon the longevity record of the officers as shown by the official Army Register.—*J. | Fifteen colonels, at $4,000 each per annum (*same acts*) | 57,477.78 | | |
| Nineteen lieutenant colonels, at $3,500 each per annum (*same acts*) | 64,205.56 | | |
| Forty-three majors, at $3,000 each per annum (*same acts, and June 12, 1906, vol. 34, p. 256, sec. 1*) | 121,133.33 | | |
| Fifty-two captains, at $2,400 each per annum (*same acts*) | 120,800.00 | | |
| Fifty-five first lieutenants, at $2,000 each per annum (*same acts*) | 107,000.00 | | |
| Forty-three second lieutenants, at $1,700 each per annum (*same acts*) | 73,100.00 | | |
| | | $549,716.67 | |
| Additional pay to such officers for length of service (*R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | | 105,043.12 | |
| NOTE.—The estimate for pay of officers of the Corps of Engineers is based upon the number and grades as authorized by law, the pay is computed at the rates established by act of May 11, 1908, and the additional pay for length of service upon the longevity record of the officers as shown by the official Army Register. The act of Feb. 27, 1911, provides an increase of 5 colonels, 6 lieutenant colonels, 19 majors, 17 captains, and 13 first lieutenants, and further provides that officers of the Corps of Engineers, when on duty under the Chief of Engineers, connected solely with the work of river and harbor improvements, may while so employed be paid their pay and commutation of quarters from the appropriations for the work or works upon which they are employed. It is reported by the Chief of Engineers that during the fiscal year 1915 there will probably be so employed 3 lieutenant colonels, 9 majors, 8 captains, and 1 first lieutenant, whose pay amounts to $58,700, and longevity pay to $17,193.32, and those amounts are not included in this estimate.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | | |
| Ordnance Department: | | | |
| One brigadier general, at $6,000 per annum (*acts June 25, 1906, vol. 34, p. 455, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | 6,000.00 | | |

| Twenty-five first lieutenants, at $2,000 each per annum (*same acts*) | 50,000.00 | | |
| | | 228,500.00 | |
| Additional pay to such officers for length of service (*R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | | 49,756.89 | |
| NOTE.—The estimate for pay of officers of the Ordnance Department is based upon the number and grades of officers as authorized by law, the pay is computed at the rates established by the act of May 11, 1908, and the additional pay for length of service upon the longevity record of the officers as shown by the official Army Register.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | | |
| Quartermaster Corps: | | | |
| One major general, at $8,000 per annum (*acts Aug. 24, 1912, vol. 37, p. 574, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | 8,000.00 | | |
| Two brigadier generals, at $6,000 each per annum (*same acts*) | 12,000.00 | | |
| Fourteen colonels, at $4,000 each per annum (*same acts*) | 56,000.00 | | |
| Twenty lieutenant colonels, at $3,500 each per annum (*same acts*) | 70,000.00 | | |
| Forty-eight majors, at $3,000 each per annum (*same acts*) | 144,000.00 | | |
| One hundred and two captains, at $2,400 each per annum (*same acts*) | 244,800.00 | | |

| Twenty-four lieutenant colonels, at $3,500 each per annum (*same acts*) | 84,000.00 | | |
| One hundred and five majors, at $3,000 each per annum (*same acts*) | 315,000.00 | | |
| Two hundred and twenty-five captains, at $2,400 each per annum (*same acts*) | 540,000.00 | | |
| Two hundred and thirty-three first lieutenants, at $2,000 each per annum (*same acts*) | 466,000.00 | | |
| | | 1,471,000.00 | |
| Additional pay to such officers for length of service (*R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | | 237,983.74 | |
| Fifty acting dental surgeons, at $1,800 each per annum (*acts Apr. 23, 1908, vol. 35, p. 66, sec. 2; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | 90,000.00 | | |
| Twenty-five contract surgeons (*same acts*) | 37,500.00 | | |
| One superintendent, Nurse Corps, at $1,800 per annum (*acts Feb. 2, 1901, vol. 31, p. 753, sec. 19; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 708, sec. 1*) | 1,800.00 | | |
| Nurses (female) (*same acts*) | 118,620.00 | | |
| | | 247,920.00 | |
| NOTE.—The estimate for pay of officers of the Medical Department is based upon the number and grades authorized by law, the pay is computed at the rates established by the act of May 11, 1908, and the additional pay for length of service upon the longevity record of the officers as shown by the official Army Register. The estimate for pay of the Nurse Corps, consisting of superintendent and 175 nurses (female) is based upon the report of the Surgeon General, who estimates that the requirements for 1915 call for an estimate, exclusive of the amount required for the superintendent, for the fiscal year 1915, of $118,620.—*J. *Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*– Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Pay, etc., of the Army*—Continued. | | |
| Increased pay to retired officers on active duty—Continued. | | |
| Additional pay for length of service (*R. S., p. 220, secs. 1262, 1263; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | $22,420.00 | |
| NOTE.—The estimate for difference of pay for retired officers on active duty is based upon the number and grades of officers on actual duty as shown by information from The Adjutant General's Office June 9, 1913, and computed at the rates established by the act of May 11, 1908. The difference in additional pay for length of service is based upon the same authority.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| Retired enlisted men: | | |
| For pay of 3,650 retired enlisted men (*acts Mar. 2, 1907, vol. 34, p. 1217, secs. 1, 2; May 11, 1908, vol. 35, p. 113, sec. 1; Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 2,482,000.00 | |
| NOTE.—The number of retired enlisted men of all grades on May 31, 1913, was, as shown by the records of The Adjutant General's Office, 3,585. It is believed that during the fiscal year 1915, the number of men on the retired list will be 3,650, for which number this estimate has been made, at the rate of $680 per man, based on the rates of pay established by the act of May 11, 1908.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| Miscellaneous: | | |
| Fifty hospital matrons, at $120 each per annum (*R. S., p. 221, sec. 1277; act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 6,000.00 | |
| Forty-two veterinarians, at $1,700 each per annum (*acts Feb. 2, 1901, vol. 31, p. 753, sec. 20; Jan. 25, 1907, vol. 34, p. 862; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 71,400.00 | |
| Additional pay for length of service (*same acts*) | 10,370.00 | |
| NOTE.—The estimate for pay of veterinarians is based upon the number authorized by law and computed at the rate established by act of May 11, 1908, and the additional pay for length of service upon the longevity records of the veterinarians.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| For expenses of courts-martial, courts of inquiry, military commissions, compensation of reporters and witnesses, and expenses of taking depositions and securing other evidence for use before the same (*act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 50,000.00 | |
| NOTE.—The estimate for expenses of courts-martial is based upon the expenditures for the first half of the fiscal year 1913, which amount to $24,879.18, or at the rate of $49,758.36 per annum. A change in the wording has been made to cover the cost of securing depositions for use before courts where the personal attendance of the party whose testimony is desired is not practicable.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| For additional pay to officer in charge of public buildings and grounds at Washington, District of Columbia (*act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 1,000.00 | |
| For commutation of quarters to commissioned officers, pay clerks, and veterinarians, on duty without troops at stations where there are no public quarters (*acts Mar. 2, 1907, vol. 34, p. 1169, sec. 1; Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 500,000.00 | |
| For clothing not drawn, due to enlisted men on discharge (*R. S., p. 224, sec. 1302; p. 225, sec. 1308; act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 600,000.00 | |
| For interest on soldiers' deposits (*R. S., p. 225, secs. 1306, 1308; act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 90,000.00 | |
| For pay of translator and librarian of the military information section, General Staff Corps, at $1,800 per annum (*act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 1,800.00 | |
| For pay of expert accountant for the Inspector General's department (*acts June 18, 1890, vol. 26, p. 151, sec. 1; Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 2,500.00 | |
| For pay of one expert civilian instructor in fencing, etc., at Mounted Service School, Fort Riley, Kans. (*submitted*) | 1,500.00 | |
| NOTE.—The estimate for this item is submitted by order of the Secretary of War of Sept. 12, 1913.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| For extra pay to enlisted men employed on extra duty for periods of not less than 10 days in the offices of coast defense artillery engineers, and coast defense ordnance officers, and as switchboard operators at seacoast fortifications (*R. S., p. 223, sec. 1287; act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 11,719.05 | |
| NOTE.—The increase in the estimate for 1915 over the amount appropriated for 1914 is occasioned by the requirements of the service of one switchboard operator each at Forts Columbia and Ward, Wash., and Forts De Russy and Kamehameha, Oahu. The change in wording is to conform to new nomenclature.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| For extra pay to enlisted men employed on extra duty as switchboard operators at each interior post (*R. S., p. 223, sec. 1287; act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 11,880.75 | |
| NOTE.—The increase in the estimate for 1915 over the amount appropriated for 1914 is occasioned by the requirements of the service of one additional switchboard operator each at Columbus Barracks, Fort D. A. Russell, Fort Douglas, Fort McDowell (depot of recruits and casuals), and Presidio of San Francisco.—*J. B. Aleshire, Chief, Quartermaster Corps.* | | |
| For extra pay to enlisted men of the line of the Army and to enlisted men of the Signal Corps employed in the Territory of Alaska on the Alaskan cable and telegraph system, for periods of not less than 10 days, at the rate of 35 cents per day (*act Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 32,000.00 | |
| For mileage to officers, acting dental surgeons, veterinarians, contract surgeons, pay clerks, and expert accountant, Inspector General's Department, when authorized by law (*acts June 12, 1906, vol. 34, p. 246, sec. 1; Aug. 24, 1912, vol. 37, p. 576, sec. 1; Mar. 2, 1913, vol. 37, p. 709, sec. 1*) | 550,000.00 | |

*Equipment of Coast Artillery, Armories, Organized Militia*—

Equipment of Coast Artillery, armories, Organized Militia—Dummy guns and mortars, mounts for dummy guns and mortars, dummy ammunition, loading appliances, range and position finding equipment, aiming and laying devices, subcaliber tubes and mountings therefor, labor and material necessary to install dummy guns and mortars, and to provide appliances and devices for instructional purposes in armory buildings provided by States for Coast Artillery companies of the Organized Militia, to be immediately available and to remain available until expended (*acts Mar. 3, 1911, vol. 36, p. 1045, sec. 1; Mar. 2, 1913, vol. 37, p. 711, sec. 1*) ..... 404,250.00 185,000.00

NOTE.—Mar. 3, 1911, Congress appropriated $388,170 for the purchase and installation of dummy armament for the Coast Artillery Reserves of the Organized Militia. Mar. 2, 1913, a further appropriation of $185,000 was made for the same purpose. In accordance with War Department regulations, armories in order to receive this dummy armament must be State-owned and of suitable construction and size to receive the equipment. It is not the intention to furnish dummy armament to armories which house less than two companies of Coast Artillery, and it is believed the sum above estimated, $404,250, will be sufficient to place dummy armament in all Coast Artillery armories of the Organized Militia which are State-owned and which house at least two companies.—*A. L. Mills, Brigadier General, General Staff, Chief, Division of Militia Affairs.*

*Contemplated expenditures from the appropriation "Equipment of Coast Artillery armories, Organized Militia."*

| Number of persons to be employed and rates of compensation of each. | Objects for which it is contemplated to be expended. |
|---|---|
| This money will be expended in the purchase and installation of dummy guns and mortars and accessories therefor, the equipments to be manufactured in United States arsenals and by manufacturing companies, and the work to be done by the staff departments of the War Department; consequently it can not be stated how many persons will be employed nor the rates of compensation they will receive. | This money is intended to be used for the purpose of continuing the manufacture and installation of dummy guns and mortars and accessories therefor, and to provide appliances and devices for instructional purposes in such of the Coast Artillery armories of the Organized Militia as have not been equipped with dummy guns or mortars and which house at least two companies of Coast Artillery and are State-owned. The table below shows the armories of the Organized Militia remaining to be equipped which house at least two companies of Coast Artillery: |

| State. | Location of armory. | Number of companies. | Model. |
|---|---|---|---|
| Maine | Lewiston | 2 | 10-inch disappearing gun. |
| New Hampshire | Portsmouth | [1] 1 | Do. |
| Rhode Island | Woonsocket | 2 | Do. |
| Do | Pawtucket | 2 | Do. |
| Connecticut | New London | 2 | Do. |
| Do | Norwich | 2 | Do. |
| Do | Stamford | 2 | Do. |
| California | San Diego | 2 | Do. |
| Oregon | Eugene | 2 | 12-inch mortar. |
| Washington | Tacoma | 2 | 10-inch disappearing gun. |

[1] The State of New Hampshire supports four companies, one each at Portsmouth, Laconia, Exeter, and Dover. The outlying companies are within a short radius of Portsmouth and the dummy installation at that point could be utilized by all the New Hampshire companies.

*Expenditures made from the appropriation "Equipment of Coast Artillery armories, Organized Militia," act Mar. 3, 1913.*

| Number of persons employed and rates of compensation paid each. | Objects for which expended. | |
|---|---|---|
| All of this money has not actually been expended as yet, but the greater part thereof has been allotted to the staff departments, by whom it has or will be expended in the purchase and installation of dummy guns and mortars and accessories therefor, and in the manufacture and purchase of appliances and devices for instructional purposes, the equipments being manufactured in United States arsenals and by manufacturing companies, and the work being done by the staff departments of the War Department; consequently it can not be stated how many persons have or will be employed nor their rates of compensation. | The following allotments have been made to the staff departments of the War Department to cover the cost of installation and manufacture of dummy guns and mortars in armories of the Coast Artillery of the Organized Militia: | |
| | Ordnance Department | $115,000.00 |
| | Engineer Department | 40,700.00 |
| | Signal Corps | 125.00 |

NOTE.—The increase of $703,624.39 in this estimate is due, principally, to the increased number of enlisted men, cadets, etc., for whom rations are estimated for, as compared with the number of enlisted men, cadets, etc., for whom funds for the purchase of rations were appropriated for the fiscal year 1914; and to the estimated increase in the cost of the ration for the fiscal year 1915, as compared with the cost for the fiscal year 1914; there being an increase of 7,567 enlisted men of the line, 91 of the Hospital Corps, 500 of the Quartermaster Corps, and 113 cadets.

The estimated increased cost of the ration for enlisted men of the Regular Army is $0.0011, and for the Philippine Scouts $0.0137.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

S., p. 206, sec. 1133; p. 221, secs. 1270, 1271; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 2, 1913, vol. 37, p. 712, sec. 1.*)..... | $8,351,264.85 | $7,652,648.00 |

NOTE.—The increase of $698,616.85 in the estimate for "Regular supplies, Quartermaster Corps," for the fiscal year 1915, over the appropriation for the fiscal year 1914, is due principally to the increased requirements for fuel and forage.

The increase in the amount required for fuel is due (1) to the increase in the authorized strength of the Army of 8,282 officers and men, and (2) to the increase in cost of fuel in the United States of $0.306 per cord of wood.

The increase in the amount required for forage is due to the increased number of animals for which forage will be required during the fiscal year 1915, because of increased strength of troops of Cavalry in the Hawaiian Islands, the organization of a telegraph company of the Signal Corps, and an additional pack train.
